Participating Life Policies Pay

If they are MUTUAL POLICIES

The Never-Ending Discussion—"Which is the More Economical?—Life Insurance with or without Profits," may be summed up in a word—it depends on the Profit-Earning Power of the Company issuing them! Policies may be purchased in the Mutual Life of Canada either on the participating or the non-participating plan. The latter is cheaper at the outset, but we have found by long experience that the participating policy turns out in the end to be the cheaper. If the dividends are used to reduce the premiums, in a few years the premiums become less than those payable on non-participating contracts.
