

# Real Independence *comes through*

The man who buys a Case outfit can afford to celebrate—and he has done something worth celebrating.

"Independence" has become a glad reality to him—an actual fact.

He no longer comes and goes at some other man's beck and call. He has a money-making business of his own. He is the "boss." He has taken a step upward in life—he is on the up-grade.

# Case Machinery "Wealth"

Don't you want to experience the "independence" that Case owners feel? Don't you want to feel that you are not dependent on some other man's whim? Wouldn't you rather be an employer than an employee?

Case owners experience all these feelings and more.

Make the first step upward to-day by sending for a Case catalog. We'll help you make a wise choice of equipment, and do everything in our power to see that you are started right.
