

Patrons of Industry.

We want to mail our price lists to each Patron Lodge in Canada, and to do so we must have the secretary's name. Now we can afford to pay for everything we want, and to the person who first sends us the name of the secretary of their local lodge of Patrons and his post-office address, we will at once mail them an article taken from our stock which will well repay you for your trouble.

The following are the conditions of this offer:—
 1st—As we cannot pay twice for the same name, the person in your locality who wins the premium is the one who sends the Secretary's name and address to us first.
 2nd—This offer is good until April 15th, 1894.
 3rd—Use a post-card, writing your own name and address apart from the secretary's name and post-office address, plainly distinguishing one from the other for our guidance.
 4th—State whether the sender is a man, woman, boy or girl, that the premium may be suitable.
 5th—Answer this advertisement promptly, as we will take no notice of any answers after April 15th.

Our New Spring Illustrated Price Lists are free to all to ask for them.
 You can save money by buying your supplies from the Wholesale House. Try shopping by mail. We pay the freight. Send us 35 cents in stamps and we will mail you an excellent Castrating Knife for your stock.

The William Weld Company

LONDON, ONTARIO.

NOTICES.

In writing to advertisers please mention the Farmer's Advocate.

Hon. M. H. Cochrane, of Hillhurst, P. Q., recently sold seven grade lambs about six weeks old for \$12.00. There is money in it.

John E. Lenton, Oshawa, Ont., has been appointed Canadian agent for Webster & Hampham's green bone, meat and vegetable cutter. This is an excellent device, and every poultry keeper should own one.

In this issue Mr. W. S. Hawkshaw is out with a change of advertisement. He offers imported Shropshire ewes in carload lots; also a Shorthorn bull calf, ten months old. Mr. Hawkshaw has a large and good flock. At time of writing his young lambs number upwards of 80. He reports these to be very promising.

Nothing demonstrates the prosperity of a township more than to see the general use of improved machinery, and this is just as true of dairy districts as others. This year will witness a great extension of the dairy business, and many improvements are contemplated in cheese factories and creameries. As an example, a new 14 H. P. Engine and Boiler, of special design, has been placed in the Burnside Cheese Factory by Geo. White & Sons, of London. This seems to be the correct engine for such factories. It takes up but little space and uses very little fuel, steaming vats, running ejector, elevating whey, besides running necessary machinery for cheese and butter-making.

We have just received the catalogue of the Farmers' Harness Supply Co., wholesale manufacturers of harness, saddles, shoes, etc., whose advertisement appears in this issue. This firm also keep on hand a full line of lap dusters, robes, horse boots, trunks, and bags of all kinds. They claim that they can save for the farmers from twenty-five to fifty per cent. upon all their purchases by buying direct from them, and thus saving the middleman's profit. The terms are strictly thirty days net to secretaries of Patrons Lodges; cash or C. O. D. to any one else. It is only by enforcing this rule, in all cases, that they are enabled to quote the low prices which the catalogue reveals. For catalogue and price list address the "Farmers' Harness Supply Co.," 104 Front street east, Toronto, Ont.

100 WORLD'S FAIR PHOTOS FOR \$1.
 These beautiful pictures are now ready for delivery in ten complete parts—16 pictures comprising each part—and the whole set can be secured by the payment of One Dollar, sent to Geo. H. Hatfield, General Passenger Agent, Chicago, Milwaukee & St. Paul Railway, Chicago, Ill., and the portfolios of pictures will be sent, free of expense, by mail to subscribers. Remittances should be made by draft, money order or registered letter.

LOGAN FARM, MONTREAL, P. Q.

Mr. T. Irving's name has long been associated with this farm, but a large proportion of it has been sold off for building lots, he will soon be forced to secure other property. Mr. Irving has always taken a great interest in the breeding of Ayrshire cattle, and has at the present time a good herd. He exhibited ten head at the World's Fair and secured seven cash prizes. The herd is headed by Lord Lorne 9007, Bessie Bell, Ardgaun Lass, Staty, Gipsy Queen and Mina are among the leading females.

A VERMIN EXTERMINATOR.

From a large number of similar letters regarding Little's excellent preparation for destroying vermin, we select the following from John Small & Sons, Willow Lodge Stock Farm, Edmonton, Ont.: "Having several times used your 'Little's Sheep and Cattle Wash,' we willingly give our testimony to its efficacy as a destroyer of ticks and lice on Sheep, Cattle and Pigs. It is the most satisfactory preparation for the purpose we have ever tried, and we have tried a good many. It is easily prepared for use, is clean, safe and sure. It leaves the wool in fine condition, and the sheep thrive and improve rapidly after its use. I use it twice a year, dipping the lambs after shearing the ewes in the spring, and pouring on all my sheep in early winter. Consequently I never see many ticks on my sheep."

THE MUTUAL LIFE INSURANCE CO. OF NEW YORK.

The Mutual Life Insurance Company of New York celebrated the Fiftieth Year of its existence in 1893, and the event will be memorable as being one of the most successful in a business point of view that the company has ever experienced. The report for 1893 demonstrates the increasing popularity of The Mutual Life and the extension of the benefits conferred upon those fortunate enough to hold its policies. The assets now amount in the aggregate to \$186,707,890.14, and the liabilities to \$148,755,061.25. The surplus fund for the payment of dividends and to insure the policyholder against every possible future emergency amounts to \$17,952,608.91. During 1893 the policyholders in The Mutual Life Insurance Company received \$20,885,472.40, against \$19,396,552.46 in 1892. The Mutual Life has now policies in force insuring \$843,284,738.46. For fuller particulars we refer our readers to their advt. in another column.

BOOKS RECEIVED.

We have received a copy of a very practical little work from the pen of the well-known potato grower, T. B. Terry, Hudson, Ohio. It is indeed what he calls it, the "Book of Potato Culture," and gives much valuable information on how to grow potatoes in the largest quantity and of the finest quality, with the least expenditure of time and labor. This work is almost wholly rewritten, considerably enlarged, and printed in smaller and more convenient form. The first edition, published some years ago, has had a wide sale, and was considered so valuable that it was reprinted in several European countries. After these added years of experience in growing potatoes and in writing and lecturing to farmers, Mr. Terry has made this edition much more valuable. In this work he describes the soils and the preparation, the operations of plowing and harrowing, manures and their application. When and how to plant and cultivate the crop, what implements to use and how to use them, with a chapter on the selecting of seed and the preparation of the tubers for market. This is a very valuable book and should be on every farmer's book table. Published by A. L. Root, Medina, Ohio, U. S. A.

Our Farming or "How we made a Run-down Farm bring both Profit and Pleasure." This work is also by Mr. Terry and gives in a condensed and more connected form the many articles which he has published in the leading agricultural papers during the past ten years. It tells how he left a \$1,000,000 farm, almost worthless farm, until it now has a world-wide reputation. This book is practical, readable and instructive, and this is especially true of the chapters which deal with his specialty, clover and potatoes. It is a work which will be a valuable addition to our agricultural literature, and should also have a place in every farmer's library.
