H. E. WILLIAMS, Sunny Lea Farm, KNOWLTON, P. Q.

ADVERTISE IN THE ADVOCATE

GOSSIP.

We inadvertently omitted to mention in connection with our Chicago Horse Show report in last issue that Mr. Geo. S. Pepper, of Toronto, superintended the exhibits and arena in a most successful manner. To keep things moving along without friction in working off 267 classes and several "extras," as Mr. Pepper so successfully did, requires no small amount of tact and generalship.

A. J. Watson, Castlederg, Ont., writes: - "Shorthorns at Ashton Frontview never before looked so well at this time of the year. The show cattle are looking extra well now. I have two extra nice bull calves and one heifer out of the show cows, and I expect four more soon. I also have one nice bull about two years old for sale now. Sheep are all looking well after their round of the fairs. I also have some nice young Berkshire pigs for sale of extra good breeding."

The Herd Register, issued quarterly by the American Guernsey Cattle Club, has illustrated on the front page of the fourth number of 1897 the portrait of a beautiful specimen of the breed, in France 8rd. This volume contains pedigrees of bulls Nos. 4827 to 4937, and cows Nos. 9594 to 9732. Among the numerous inside illustrations are those of **Masher 705** and **Masher 2nd 258**, winners of first prize and medals in the Island of Guernsey. The secretary of the Club is **Wm. H. Caldwell, Peterboro, N. H.**

THE ESTABLISHED SALE OF JERSEYS.

Our readers are reminded of the public sale by auction on Thursday, December 9th, of the entire herd of high-class registered Jerseys belonging to Messrs. **Humpidge & Laidlaw, London, Ont.** The catalogue comprises the pedigrees of thirty-three young cows and heifers and seven bulls, all registered in the A. J. C. C. record. There are none over six years old, and a large proportion are under three years, about twenty being in calf or in milk, and most of those milking will be bred again before the sale. The cattle are typical Jerseys of the **St. Lambert** and **St. Haller** families, the herd bulls and a number of the females having been prize winners at the Western Fair in competition with Toronto winners. The cows have been very regular breeders of heifer calves, increasing the herd rapidly and doing good work as producers of milk and butter, and all are in good health and condition. The dispersion sale is made necessary by a dissolution of the partnership of the owners, and we are assured will be sold with-out reserve. The sale will be held at Mr. **W. G. Laidlaw's** farm, six miles from London, and one mile from Westminster Station, on the **LONDON & PORT STANLY ROAD.**

ONTARIO AGRICULTURAL AND EXPERIMENTAL UNION.

In the programme of the next annual meeting of the Ontario Agricultural and Experimental Union, to be held at the Agricultural College, Guelph, on the 8th, 9th and 10th of December, we notice that reports of the summary results of the year's co-operative experimental work in horticulture, agriculture, apiculture and dairying will be presented and discussed at the meeting. In agriculture alone co-operative experiments were conducted on 285 different farms throughout Ontario in 1897. These include tests with leguminous crops and mixed grain for green fodder; grasses and clovers for hay; commercial fertilizers for corn and mangels; and with leading varieties of grain, potatoes, roots, and fodder crops. From the horticultural section, the results of the co-operative tests with leading varieties of strawberries, raspberries, currants and gooseberries will be given. The dairy committee will report on uniform tests made in several cheese factories and creameries during the past summer. The work throughout impresses us as being of a practical nature, and worthy of careful study by those interested in agriculture. Addresses are to be delivered by Mr. **Geo. McKerrow**, Superintendent of Farmers' Institutes, Madison, Wis., on "Economic Feeding"; by **Dr. Jas. Mills**, Pres. Ontario Agricultural College, Guelph, on "Some of the Advantages of the Ontario Fruit Experiment Stations"; also, by **C. G. James, M. A.; G. C. Creelman, B. S. A.; L. G. Jarvis**, and others. Arrangements have been made with the Grand Trunk and Canadian Pacific railway companies for excursion rates from December 6th to 13th, inclusive. Secretary **C. A. Zavitz, O. A. C., Guelph**, will supply programmes.
