

LONDON COMMERCIAL COLLEGE.

The Oldest, most Popular, and most Extensive Business Training School in the Dominion. Students come from all parts of North America, and pass right by similar Institutions to attend this.

The Unrivalled System of Actual Business Teaching practiced in our Book-keeping Department, the result of over twenty years' patient study and careful investigation, not only in the School-room, but also in the Counting-house and Office, is so concise and practical, while at the same time the knowledge of accounts acquired by the student is so comprehensive and thorough, that Graduates of this Institution are fully qualified to take charge of any set of books, and conduct them in the most systematic manner.

Our Graduates fill responsible and lucrative positions in a very large percentage of the principal Banking, Mercantile and Manufacturing Establishments of the Dominion, and large numbers occupy similar positions in all parts of the United States; and many of them, as a result of the Thorough Business Training which they receive at this Institution, have been so successful in the various enterprises in which they have been engaged, that to-day they occupy prominent positions among the leading business men of both countries.
