

**FOR SALE.**

The entire Oakdale Herd of Registered Holstein Cattle. Although considerable sales have been made lately the herd now numbers 55 head, including bulls, imported cows, heifers and calves. This is undoubtedly the finest lot of Holstein cattle in the Dominion. We have no pen and ink records for our cows, but we invite farmers and others wanting to buy Holstein cattle to go to the farm, spend a day there and test and weigh for themselves the milk produced. The herdsmen will gladly afford them every facility for so doing.

The bulls in use up to this season were the great prize-winning animals Presto and Adanac. Presto was the only bull ever brought to Canada that was a first prize-winner at the great Alkmar Fair in the Netherlands and was a great prize-winner in Canada. Adanac, whether judged by Canadian judges or an American expert, always took first. He was never beaten, and was so perfect as a show bull that Mr. Stevens, the expert, said he would score a full hundred points. This is a dispersion sale and all animals not disposed of by first of March will be sold by auction, as the farm will be sold or rented by first of April next. Catalogues will be issued in a few days, for which, address John Leys, 18 Court street Toronto.

This herd at the large exhibitions of '87, '88 and '89 won more diplomas, more gold and silver medals and more money prizes than was ever won by any herd of any breed of cattle at same number of exhibitions in the Dominion. At the Industrial in 1889, when F. C. Stevens of Attica, an American expert, was judge, this herd literally swept the show ring, taking first for aged bull, sweepstakes for best bull of any age; first for yearling bull; first, second and third for cows and first herd prize for bull and four females.

This was enough glory, and the herd was not exhibited in 1890 and 1891. 313-a-OM

**NOTICES.**

Winter is at its height, therefore it would be well for farmers and their wives, when in Winnipeg, to call at W. P. Huff's, Main street, opp. post office, for a warm oyster stew, cup of tea or coffee. See advertisement in another column.

In Winnipeg, Manitoba generally and the Northwest, "Waghorn's Guide" has come to be a household word. It is published monthly at Winnipeg at \$1.00 per year, and contains about 125 pages per issue, packed full of information for everybody more especially the commercial and travelling public. "You'll find it in Waghorn's Guide" has come to be a truism. Its railway and steamship time tables, corrected to date, postal guide, stage routes, land regulations, legislative, municipal and civic information, game regulations and business announcements, are all specially valuable. You cannot travel or do business properly without the "Guide".

The "Ever Ready Fire Extinguisher," advertised elsewhere in this issue, is the invention of Mr. O. McRobie, formerly of the Winnipeg and Montreal Fire Departments. Having spent over thirty years in that service, Mr. McRobie had innumerable opportunities of seeing valuable property and valuable lives lost simply for the want of a little necessary precaution in providing some means of coping with incipient fires. The greatest conflagrations have had small beginnings, and to check such effectually and in a perfectly simple manner is the design of the "Ever Ready Extinguisher." It was only placed before the public after the most careful study, many practical experiments and critical tests. In the stables of stockmen, as well as in all mercantile and industrial establishments in cities and towns, it is a needed protector from danger and loss.

Mr. E. F. Hutchings' new harness and saddle factory, 519 Main street and 191 to 195 Market street, Winnipeg, is a standing monument to his energy and enterprise as a business man and manufacturer of harness, saddles, horse collars, fine turf goods, &c. &c. Although Mr. Hutchings is only a young man, he has made his business a life study, and his twenty years experience has so well fitted him for his business that it is little wonder he has been so successful. It is only a few years ago Mr. Hutchings was working at the bench; now he owns one of the finest blocks in Winnipeg, and employs an average of fifty hands the year round, which means a large distribution of money for farmers' produce, &c., on which all these employes must live, making a large, ready cash home market. Mr. Hutchings' new factory and store is a large four story building, corner Main and Market streets, the first flat being the retail department, where every kind of harness and saddlery for farmers' use is kept in stock at the most reasonable prices. The second flat is the wholesale hardware department, sample rooms, general offices, private offices and packing rooms. The third flat is the leather and general stock room, collar department, &c., where thousands of collars and harness, horse blankets, &c. are constantly kept in stock. The fourth flat is the manufacturing department, filled with the best skilled mechanics that are to be found, under direction of the most experienced foreman. Space precludes extended reference to his wonderful success at the Winnipeg Exhibition of 1891, and the establishment of large branch stores throughout the province, in order to meet the requirements of the flourishing trade.

**MORRISBURG IMPLEMENT WORKS**

ESTABLISHED 1858.

— THE —  
**"NEW MODEL"**  
 (PATENTED)  
**ROTARY DISC**  
**JOINTED PULVERIZING HARROW**

With Patent Automatic Scrapers.

The only Disc Harrow made with Scrapers that will keep Discs clean in all kinds of soil without any attention from the driver.

— THE ORIGINAL —  
**WARRIOR MOWER**

The Simplest, Lightest Draft and most Durable Mower made. It is almost impossible to stone the knives as we use 2 1/4 inch sections, the finger-bar having a rolling or wabbling motion allows the points of the guards to rise or fall and adapt itself to the unevenness of the soil without having to use the tilting lever. We make the "Warrior" with either 22 or 24 section knife.

We also manufacture Steel Plows, Metal and Wooden Stone Land Rollers, etc. Implement dealers will find it very much to their advantage to get our prices and terms for 1892 before contracting.

J. F. MILLAR &amp; SON,

Morrisburg, Ont.

If no agent for our goods is near you, write direct to us.

P.S.—We are making some very important changes in the "New Model" for 1892, and will give cuts in February issue of the ADVOCATE. 313-c-OM
