PRIZE MEDAL

Cabinet Organs! AND MELODEONS,

See Prospects and Manufacturers of "THE ORGANETTE," a striking Scientific Patent Quality, etc.

Awarded the Only Medal. Ever given to makers of Reed Instruments at International Expositions.

OF PROFICIENCY IN MUSIC (1876-1877). Besides Epiphanas and First Prizes at other Expositions too numerous to specify.

Our instruments are acknowledged by musicians and judges to be the finest yet produced. Our latest and most valuable improvement is the "Organette," containing Scribner's Patent double tone reed, at the same time rendering the tone smooth and pipe-like. By this wonderful invention we can make an instrument nearly double the power of a pipe organ at half the expense.

CAUTION.

As we have purchased the sole right of manufacture of the Patent "Organette" for the Dominion of Canada, we hereby caution all parties from purchasing them elsewhere, as if they will be liable to prosecution. We have registered the name of the

"ORGANETTE"

For our instruments containing this wonderful improvement. Any manufacturer infringing on this copyright will be prosecuted. Illustrated Catalogues furnished by address to

NOW READY. The Greatest Novels of the Year! POOR MISS FINCH. A Domestic Story. By WILKIE COLLINS. Author of "Man and Wife," "Woman in White," "The Name," etc. Complete in 1 vol. Crown 8vo, 400 pp. with 24 full page illustrations. Cloth 5s; Paper 3s. Of all the living writers of English fiction, no one better understands the art of story telling than Wilkie Collins. He has a faculty of coloring the mystery of a plot, exciting terror, pity, curiosity and other passions, such as belong to few, if any of his contemporaries, however much they may excel him in other respects. His style, too, is singularly appropriate-less forced and artificial than the average modern novelist. Boston Transcript.
