HILLCREST STUD

We have added to our well known stud of Clydesdales at the Hillcrest Stud, Condie, Sask., a recent importation of thirty five head—twenty-three stallions and twelve fillies. Our new importation was personally selected to keep up the high standard of our stud, and we are offering horses with size and quality combined, to a marked degree. They are sired by such horses as Baron's Pride, Hiawatha, Everlasting, Baron's Gem, Royal Favorite, Baron's Voucher, Royal Edward, Baron o' Buchlyvie and Sir Hugo.

Customers buying from us have no middlemen's profits to pay, as we buy and sell our own horses.

With the Dysthe Face Protector you can look into the snow storm as through a window.

The Sash, Pyralin Goggles Prevent Freezing, but keep clear. It is flexible so you can fold it up and put it in your headgear or pocket.

"Say that is just what I needed last time I was out in and got home frozen up. I will inclose a Dollar and send for one this very minute."

With this protector on you don't need to get turned around in your own yard, as there are very few storms so bad that you cannot see, if you can keep your eyes open.

Better always at hand and never needed, than not at hand and needed once and suffer.

Money cheerfully refunded if not found as represented.

Gentlemen:—
I used your Straw Stove last winter and found it would do all that is required of it. I had a good coal cook stove, but it would not heat my house. After putting in the Straw Stove I had no more trouble. I only used the coal stove for cooking and then let it go out; and used the Straw Stove altogether for heating. By filling the cylinder night and morning, which took me from five to ten minutes I had a steady heat night and day at a cost of getting a load or two of straw during the winter.
Yours truly,
GEO. C. CARRUTHERS.

Gentlemen:—
I purchased one of your Sterling Heaters last fall and found that it proved a success. Our kitchen was always cold before I got one of your heaters, especially in the morning, but after I got one of your heaters it seemed a new kitchen. My expense was nothing with it, whereas if I had burned coal in a stove all winter it would have taken three tons of coal and a cord of wood.
My advice is for everybody to get a Sterling Heater for the winter months.
Yours truly,
PEARL M. COLE.

Gentlemen:—
I used your Sterling Straw Heater in my shop last winter. I have a large and very cold building, and finding a coal stove insufficient, supplemented it with your stove for the very cold weather.
Finding it a better heater than the coal stove, I used it entirely the balance of the winter and found it gave better and even heat, with no attention for twelve hours at a stretch. My fuel bill was \$1.25 for a load of straw and \$22.50 for coal. Saved the price of the stove in three weeks.
Yours truly,
H. W. WOOLLATT.
