SOCIETY IN TERRIBLE STATE.

British Press Comments Upon the Haywood Trial.

London, July 30.—Commenting on the result of the trial of Villiam D Haywood at Boise, The Chranicle yesterday says:

"The state of secrety revealed by the trial is more terrible than any civil war, because it is more treacherous and is likely to be more lasting. From beginning to end it reveals a condition of brutal rapacity, confronted with savage, despairing violence, a condition that gives American boasted 'civilization' a very dubious look."

The Daily News says: "From the outset the question has been complicated by the flerce prejudices of a kind of smoldering class war. The whole movement, both in the revelations of the trial and its accompaniments in public excitement, has illustrated the insecurity of authority in America and the profound skepticism concerning the indentity of law and justice."

Princess Royal's Health.

There is still a great deal of anxiety about the health of the Princess Royal, who is again leaving England for a long cruise with her family. A well-known specialist is a constant visitor at her house, in Portman Square, London, and he feels very concerned about Her Royal Highness. The princess makes an admirable patient. She conscientiously carries out all the instructions of her medical adviser. Every morning she holds a long conversation on the telephone placed in her bedroom with the Queen. Since her illness, Her Royal Highness has become an omnivorous reader. Travel and history are her favorite subjects. Like the late Queen, she has a great partiality for languages.
