WHY should I buy a roofing that needs to be painted every little while to keep it tight, when, for the same money or less, I can buy AMATITE which needs no painting?
The outer surface is composed of real mineral matter, which makes painting unnecessary.
With an Amatite Roof on your building you end your roofing troubles. When you buy a roofing that requires frequent painting you begin them.
Smooth roofings that require painting are a nuisance and an expense. When you buy them, you buy trouble—not protection.
FREE SAMPLE
We should be glad to send you this sample and booklet immediately.
