Personal.

Mrs. (Dr.) Chas. Howlett arrived in St. John from New York and is a guest at William Place.
Mr. E. R. Ryle, of Freshwater, B. D., is at present in the city.
Mr. R. S. Smith, of Green's Harbor, arrived in the city yesterday.
Mr. Walter Parsons, of Toronto, is in the city and is registered at the Columbia.

When you want Sunnages, get ELLIS's; they're the

At the City Hall.

The Municipal Council held its regular weekly meeting last evening. The Mayor presided, and Councillors Morris, Browning, Ayre, Viancombe, and Mellett, were present.

A letter was read from the Colonial Secretary stating he would write to the authorities at Washington in reference to the shipment of iron pipes for the city.

Alex. McDougall wrote that he was not permitted to assume any responsibility in connection with the laying of water and sewerage pipes on Cockpit Road.

W. P. Shortall was given permission to erect a porch at the rear of his house, Gower Street.

Thomas Tobin's application for temporary repairs to house, passed.

Inspector Rooney reported on the number of applications for water and sewerage installations during the week.

The Health Officer reported two cases of diphtheria during the past week.

Tenders were ordered to be called for the building of the houses, 1001 and 1003, at the foot of Log's Hill.

The road at the foot of Log's Hill was ordered to be put in repair.

The work on Patrick Street sewer is to be begun.

The Solicitor is to be asked to report on the right of way from Duckworth to Water Streets, east of Cockpit Road.

The railing at Harvey Road is to be repaired.

A report was made on the building corner Water Street and McBride's Hill. An agreement was made with the owners to do the necessary work called for.

Plans for William Burton, William Street, and Nichol, Inkpen and Chafe were approved.

The parties who offered to supply the oil for Waterford Bridge Road were given the necessary permission to go on with the work.

The C. C. C. Band was given permission to give two concerts in the Parks next week.

A notice was ordered to be published that Inspectors will be asked to visit and examine tenement houses and see if the roofs are staunch and tight and the houses fit to live in.

After disposing of some routine business and passing of the pay rolls and bills, the meeting adjourned.

This is to certify that fourteen years ago I got the cords of my left wrist nearly severed, and was for about nine months that I had no use of my hand, and tried other Liniments, also doctors, and was receiving no benefit. By a persuasion from a friend I got MINARD'S LINIMENT and used one bottle which completely cured me, and have been using MINARD'S LINIMENT in my family ever since and I find it the same as when I first used it, and would never be without it.

Special Service.

In the C. of E. Cathedral, on Sunday next, special intercession services, on behalf of the Empire and the Allies, will be held. There will be celebrations of the Holy Communion at 7, 8, and 11 o'clock. The latter service will be choral, with sermon. It is hoped that many people will attend these services.

PLAGIARISED AND OTHERWISE.

NO GAME.

The day is cold and dark and sloppy. It rains and the wind is sharp and cheery. The vine still clings to the same old wall. And it doesn't look like a game of ball.

The rooster views with a face all doors. The one day off he has had this year. And the only day off, for all he knows, He will get from now 'till the Winter snows.

Old Hank Longfellow said it all. "Into each life some rain must fall."

The small, long face of the office boy, Mirrors's soul that has lost all joy As he dyes with careless and spiteful dabs. The desk where the book-keeper keeps his tabs; The blonde stenographer, in a huff Had forgotten even her powder puff, And dings in a corner, far away A romance written by Bertha Clay, And thus comes the end of a rainy day.

"Into each life some rain must fall," Old Hank Longfellow said it all.

Owing to the bad weather last evening the game between the Americans and the City Nine was postponed. The game will probably be played on Saturday evening, that is, of course, should the "Yanks" still be here.

MOUNT CASHIEL.

The Irish had so many errors in the game last Wednesday and so utterly punk were they that even the "Optimistic Dick" has some doubts as to his team's winning the championship this season.

Old Ideas Die Hard

But when you tire of treating eczema internally as a blood disease and apply Dr. Chase's Ointment you will soon be convinced which form of treatment is most effective.

Naturally and gradually the skin is healed as you apply this soothing, anti-septic ointment. The new skin is soft and smooth, and you only wonder that you did not try this treatment sooner.

Police Court.

Matthew Ryder, a young man of Bonaville, was before the Court for failing to report for military service, for which he was sentenced to two years' imprisonment with hard labor, and also for attempting to impede the enforcing of the M.S.A. Ryder was the cause of 8 other young men of Bonaville failing to come on to St. John's to enlist, and he organized and carried a flag in an illegitimate parade on Sunday. In view of these facts he was not given the chance to enlist, as were the others, but he was sentenced to the term mentioned above. The second case against him will be heard to-morrow.

A man, taken in for safe keeping, was discharged.

McMurdo's Store News.

FRIDAY, Aug. 2, 1918.
Compound Licorice Powder is one of the best laxatives for occasional use, especially for ladies and children, as it is mild in action and pleasant to take. Take a package to the country with you. Price 15c.

Ideal After Shave thought one of the simplest products of this kind, is very effective for use after shaving, or indeed for use when the skin is from any cause irritated. It relieves soreness and itching, and secures the principal function is for use after the daily shave, especially if it be a close clean one. Price 35c. a bottle.

C. McK. HAREY,
Hon. Treasurer.

"The Hermit."

"The Hermit," a mysterious stranger, who had been living for about 9 years alone, in a tent on the Bay Bulls Road, and who apparently made his living by selling pebbles, left for England by the steamer "City of Halifax" on this date 1911. During his stay here, he dressed in the clothing of an ordinary man, but he could not disguise the fact that he was a scholar and a gentleman. No one knew where he came from, or where he went. When leaving St. John's, he was dressed in the most fashionable clothing, with tall hat, gold watch chain, and rings. There were many stories current as to his secluded life, but all lacked confirmation; he was about 48 years old, when he left Newfoundland, never to return.

Reids Boats.

The Argyle left Placentia at 1 a.m. to-day on western route.
The Clyde left Salvage at 9 a.m. yesterday.
The Dundee left Twillingate at 3.25 a.m. yesterday.
The Ethie left Humbermouth at 1.30 p.m. yesterday.
The Home left Fortune Hr. at 5.40 a.m. yesterday, inward.
The Petrel leaving Port Union to-day.
The Fogata left Hermitage Cove early yesterday morning, going west.

Casualty List.

(Received Aug. 2, 1918.)
Admitted Camp Hospital, Aldershot, Nova Scotia.
3881-Pte. Gerald Healey, Black Head, St. John's West, M.P.M.
Lieut.-Col. C.S.O. for Minister Militia.

Newfoundlanders in the U. S.

In a letter to his brother Richard, of this city, Mr. Harry Oldridge, who for 36 years has resided at Brooklyn, N. Y., states that his two sons are in the American forces. Mr. Oldridge's grandfather, Capt. W. J. Supple, led the "sealers" since 1845, and his uncle gained notoriety by crossing the East river on a cable before the great Brooklyn Bridge was completed.

Here and There.

PORTIA SAILS.—The Portia is scheduled to sail at 3 o'clock this afternoon.

Everything for the Photographer

All the Cream At All Speeds

Every member of the family turns the separator handle at a different rate. And, no one turns always at the exact speed stamped upon the crank—it simply can't be done.

Your present separator, unless a Suction-feed, has a constant inflow of milk. Whenever the speed falls, a lot of cream slips away through the milk-spout and is lost forever. Experts estimate that most farmers lose from 7 to 13 lbs. of butter yearly from each cow because they turn their separators below speed. But you can stop this loss right now by using the

Sharples Tubular Bowl—no disc—no need to wash.

SHARPLES Separator

This wonderful machine automatically regulates the inflow of milk in exact proportion to the skimming force. It gets all the cream at all speeds. Father can "speed up" the crank to 55 revolutions a minute and finish the chore quickly. Mother or the girls can turn at a leisurely rate. Fast or slow, the Suction-feed Separator skims absolutely clean and delivers cream of uniform density—just thick today and thin tomorrow. It's the only separator having these valuable features. The slender Tubular bowl gives double skimming force. It's the only bowl containing no discs or blades. There's just one piece in it—a single small cone, as simple and easy to clean as a napkin ring.

There are many other exclusive and important features to be found in the new Sharples Suction-feed Separator. Come in and let us show you. Bring the women folks, too. We'll be glad to see you all.
