

Diana Abandoned And Set on Fire.

Sagona Took Off Crew—Other Units of
Fleet Picking Up Seals.

The report to the sealing owners last night stated that the crews were picking up scattered seals. The Terra Nova reports using guns, and Capt. Bartlett in the Gulf reports that the seals are dipping so that the chances of a good catch are not bright. The loss of the s.s. Diana too, is also reported. According to messages received yesterday the crew abandoned the ship during the morning and joined the s.s. Sagona which went to the assistance in response to S.O.S. calls. The Diana lost her tail shaft on March 16th off the mouth of Bonavista Bay and up to yesterday was drifting south in the ice. The first intimation that the ship was on the point of foundering reached Messrs. Baird, Ltd. yesterday evening when a message was received from Captain Parsons who stated that the Diana had been abandoned and that the crew were on the Sagona. The ship was reported to be 7,000 tons but it is understood that only 1,000 were on board. Before leaving the ship was set on fire, the crew having time to pick up their belongings and transfer them to the Sagona. The s.s. Diana was reported also as having been to the Diana's assistance, but particulars were not received. The Diana was probably the oldest of the sealing fleet being built by A. Stephen & Sons, at Dundee, in 1870. She was then named the Hector, and was owned by Messrs. Job Bros. & Co. The ship was very successful during her long career and brought in altogether about 600,000 seals. Some 33 years ago she was reclassified in England and on arrival here was renamed the Diana. Good luck followed the change on her first spring out she made two trips and on each occasion brought in a full load of whitecoats. Capt. Wm. Barbour, father of Capt. Geo. Barbour, of the Neptune, was in command of the ship that spring. Up to four years ago the ship was owned by Job Bros. & Co. when she was purchased by Jas. Baird, Ltd. The following reports were received last night by the various sealing ship owners:

BOWRING BROS.

Terra Nova (Monday p.m.)—45.55 N. 60.50 W.; working scattered whitecoats; shot some bedlamers.
Ranger (Monday p.m.)—Came in from S.E. and saw scattered whitecoats; no quantity; picked up about 300 to-day.
Viking (Monday p.m.)—25 miles S.E. St. Paul's; on board and stowed 3,300; still on pans 5,000; men pan-

ned to-day 500; in whelping ice, seals dipping; all well.
Eagle—No report.

JOB BROS. & CO.

Neptune (Monday p.m.)—Position 80 miles E. by S. Cape Bonavista; took 800 to-day; Seal in company.
Thetis (Monday p.m.)—Struck a small patch to-day; loose ice, with heavy swell; position 85 miles S.E. by E. Cape Bonavista; wind west.

REID NELD. CO.

Sagona (Monday p.m.)—60 miles east Bonavista, at edge of ice; proceeding to Old Perlican to transfer Diana's crew to Watchful.

TO POSTAL TELEGRAPHS.

The Ranger, Terra Nova, Neptune, Thetis and Seal report crews aboard and well.

FROM PORT AUX BASQUES.

The Reid Neld. Co. received the following message from Port aux Basques last night: Viking 25 miles S.E. St. Paul's now; killed 600 to-day and put them on board; have now on board 10,500.

THE CATCH TO DATE.

Terra Nova	15,500
Viking	14,300
Thetis	14,000
Eagle	11,000
Neptune	11,000
Sagona	7,500
Ranger	3,500
Seal	1,000
Total	78,350

MORRIS-BURKE.

(We clip the following from the "Los Angeles Citizen of Feb. 29th.")
Newfoundland Couple Wed Here.

"The Church of the Blessed Sacrament was the scene of a charming wedding yesterday at 3 p.m., when Miss Mary Morris, daughter of Judge and Mrs. Morris of St. John's, Newfoundland, became the bride of F. Regis Burke also of Newfoundland. The ceremony was performed by the Rev. Fr. Strock in the presence of a number of friends and relatives. The bride, who looked very charming, was gown in champagne coloured lace with hat to match, and carried a beautiful bouquet of white roses and maidenhair fern. She was attended by Miss Jeanne Trapnell, who wore a pretty blue silk tulle. The Hon. W. J. Ellis gave the bride away. Following the wedding there was a reception held at the home of Hon. Donald Morrison, K.C., and Mrs. Morrison at 2123 Beachwood Drive, Hollywood. With others attending there were about twenty-five friends from Newfoundland. The bridegroom, who has lately come to Los Angeles, is a young man of exceptional talent and ability and occupies a position of responsibility in the Citizens' Trust and Savings Bank of Los Angeles. Mr. and Mrs. Burke will reside in their new home 2024 Hollywood Boulevard. Among the guests from Newfoundland were F. C. Barbeau, who is Auditor-General of Newfoundland, Mrs. Barbeau, Miss Marian Fraser, Mrs. J. H. Watson, Mr. and Miss Trapnell, Charles Simms, Hon. W. J. Ellis and Mr. and Mrs. Griffiths. Mr. and Mrs. Burke have made many friends here who extend their sincere wishes for happiness in the future."

Al Fresco Wedding.

TRAPNELL-SIMMONS.

The Covina Argus, of Covina, California, dated March 10th contains an account of the wedding of Miss Jeanne Murdoch Trapnell to Mr. Charles B. Simmons of Toronto. The wedding took place at 2 o'clock on the lawn at the ranch home of the bride on Grand Avenue. The ceremony was performed by the Rev. Edward Williams of the First Presbyterian Church of Covina, and was followed immediately by a reception when some 80 guests sat at the banquet board. Among the many presents received by the bride was that of a Labrador beaver coat, a gift of the groom. The bride was exquisitely gowned in heavily-beaded Georgette, with a veil caught with natural orange blossoms, and she carried a shower bouquet of bride roses, lilies-of-the-valley and maidenhair fern. She was accompanied to the altar by Miss Winifred Bowring as bridesmaid, attired in pink and blue shot tulle, carrying a bouquet of Ophelia roses and maidenhair fern. The groom was accompanied by Grant S. Trapnell, brother of the bride, and she was given in marriage by her father. The groom is of the personnel of the Bank of Nova Scotia, and was attached to the branch at St. John's under Mr. H. Anderson's management. The couple left the evening of the marriage day for their home in Toronto. They made the trip up the coast by steamship to Vancouver and crossed the Canadian Rockies. Amongst the Newfoundlanders who witnessed the wedding were Hon. W. J. Ellis, ex-Mayor of St. John's; Mr. and Mrs. F. C. Barbeau, the Auditor General of Newfoundland; Hon. Donald Morrison and wife, Miss Marian Fraser, Mrs. James H. Watson, Mrs. Reginald Burke, and Mr. and Mrs. Robert Morrison of St. John's.

A Welcome Revival.

"HAZEL KIRKE" TO BE STAGED AGAIN.

Old friends are truest, old songs are best, and the old plays of other days come with a strong appeal to those who look back upon them with pleasant memories. All who recall "Hazel Kirke" as played here some years ago will gladly welcome the revival of that stage classic which is now being arranged by our well known local producer and actor-manager, Mr. Thomas H. O'Neill, who has undertaken the task of producing the drama under the auspices of the Knights of Columbus. Included in the cast are Mrs. J. Baxter, Misses K. Fraser, H. Krentzlin, and Joyce Dunfield and Messrs. T. H. O'Neill, H. F. Glass, A. R. Stanfield, A. Holmes, P. Jardine and J. Walsh. "Hazel Kirke" is a name to conjure with in the theatrical world. It drew crowded houses in the old days, and in the hands of the talented ladies and gentlemen named above theatre goers can be assured that the standard of the production will be admirably sustained. The first performance will take place on Easter Monday night in the Casino Theatre.—Adv.

MINARD'S LINIMENT USED BY
PHYSICIANS.

"Life" Fish to Combat "Yellow Jack."

NO IDENTIFICATION OF SPECIES.

LIMA, PERU, (Associated Press).—The Pacific coast of South America is free from yellow fever for the first time in history and a little fish locally known as "Life" has been the most efficient agent in the battle to rid Peru of the dreaded disease. The fish, which will have to be scientifically identified in Washington, was found to be the most active destroyer of mosquito larvae. More than 700,000 of them have been distributed by ones, twos and threes in all the water containers in the houses in the Departments of Lambayeque and Libertad. For a ordinary water container of ten or 15 gallons, two or three fish were sufficient. No food was provided so that the hungry fish would live on the organic matter in the water. Every eight or ten days inspectors visited the houses to make sure the fish were still living and doing their work.

WAGING THE WARFARE.

The final chapter of yellow fever campaign is being written by Dr. Henry Hanson of the International Health Board of the Rockefeller Foundation, which is spending large sums to help the government of Peru rid her territory of the dreaded pest. Seven hundred miles of the coastal section of Peru have been the battlefield of the campaign and the estimated number of deaths is 1,500. For months Dr. Hanson and his associates have fought heroically to keep back the advancing lines of the enemy, for at times it was feared that the epidemic would spread south to Lima, the Peruvian capital, and to Guayaquil, Ecuador but the campaign has resulted in a victory for the health workers. There have been no cases since July, 1921, but the work is still going on as a matter of insurance. Dr. Hanson has about 125 men working in the coastal region in the south and will continue until about May. They do not intend to leave the faintest doubt when they have finished that there is any danger of yellow fever lurking in Peru. This is expected to be the last yellow fever campaign on the Pacific coast of South America.

Who Was James Ord?

A SPHINX-LIKE MYSTERY SUR-
ROUNDED HIS BIRTH.

It was Captain Ord, guardian of the mysterious "James Ord," who made the statement: "If you had your rights in England you would be someone the very mention of whose name would cause every head to bend. God forgive those who have wronged you, my boy!"
"James Ord" was sent to a college in Washington, U.S.A., and in order to remain close by his charge, the elder Ord secured a position in the Washington Navy Yard. The allowance which he was able to make to the boy who passed as his nephew, however, was out of all proportion to his salary as a master mechanic.
Young Ord remembered little of his early life—though there seemed to be a hazy recollection of a tall and stately woman, sad-faced and dressed in the most expensive of fabrics, who had visited him at intervals during his childhood.

DEATH-BED CONFESSION.

In later years, however, he had spent most of his time travelling with his "uncle," and it was only when they came to Washington that the pair settled down for any appreciable period.

Before the youth finished his schooling at Georgetown College, Captain Ord was taken ill, and after a sickness as brief as it was mysterious, died while trying to tell the boy the secret of his parentage.

"James," he gasped, "I have sworn not to do so, but I must tell you that your father was— and here a fit of coughing seized him, and he could say no more.
The younger Ord's supply of money continued unabated, and he placed himself in the care of a priest, who in addition to teaching him, assisted in the search for the truth concerning his parentage.

A ROYAL FATHER?

This search led to the conclusion, unsupported by any direct documentary evidence, that he was the son of George IV of England, born while that monarch was Prince of Wales.

When Ord was well on in life, he wrote to Mrs. Fitzherbert, but was unable to obtain a reply from her, although he died in the firm belief that she was his mother.

After various adventures in America, including a trip to the far West in search of gold, and the accumulation of a considerable fortune on the Pacific Coast, Ord was appointed to the Bench, and returned to Washington, where he built a handsome home.

The back of every genuine
Beaver Board is branded

About \$9.00 worth of Beaver
Board will ceil your room.

If you use imitation Beaver
Board you may appear to
save \$1.00 or \$1.50; just to
size imitation Beaver Board
will cost twice as much.

Beaver Board is guaranteed
to last as long as your house,
therefore is worth more than
any imitation.

An imitation of Beaver
Board may look like Beaver
Board, may even appear better,
but how will it look in a
couple of years' time?

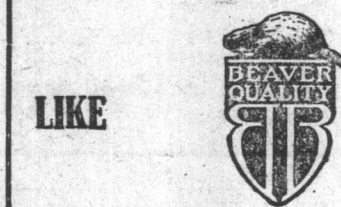

Twelve years ago we put up
2 panels of Beaver Board on
the OUTSIDE of our office.

It has been exposed to the
rain, sun and wind of 12
years, but it's still good.

Beaver Board is better than
any imitation can be.

Vesuvius Flight.

PLANE HURLED 1,000 FEET IN 6
SECONDS.

While flying over Mount Vesuvius
on a flight from Naples to Rome a
British aviator, Mr. Alan J. Cobham,
piloting a De Havilland machine, ap-
proached the edge of the crater. He
ventured too close and was caught
in a sudden upward swirl of sulphur
vapour, which hurled his machine
1,000ft. higher into the air in 6 sec-
onds—a vertical speed of over 130
miles an hour.

The aeroplane rocked violently to
and fro, and Mr. Cobham was almost
suffocated by the sulphur fumes. It
was only by opening his engine full
out that he was able to escape into
purer and more stable atmosphere.

New Find of Radium.

A radium mine has been discovered
in Brazil by Mrs. Alexander Grosse,
F.R.G.S., who just returned to Eng-
land from an expedition into the in-
terior, which she is the first woman
to have penetrated. At the base of the
mountains is a medicinal lake, used
by the natives, which is radio active.
Mrs. Grosse is at present in Paris
in consultation with Mme. Currie, joint
discoverer with her husband of radium.
