WHAT IS CHIROPRACTIC?

IT IS NOT MEDICINE
NOT SURGERY
NOT OSTEOPATHY

It is a scientific method of adjusting the cause of Disease without drugs or instruments, based on a correct knowledge of Anatomy, and especially the nervous system. The Chiropractic idea is that the cause of disease is in the person afflicted, and the adjustment in correcting the wrong that is producing it. The function of every organ in the body is controlled by mental impulses from the brain, which it transmits through the nerves. Any impingement of these nerves interfering with the transmission of mental impulses, (life force) which flows from the brain, results in an abnormal function called Disease. This interference is produced by a **subluxated or Displaced vertebrae** pressing upon the nerves as they pass out from the spinal cord.

The Trained Adjuster is able to locate the point of obstruction or interference and, by means of adjusting the subluxated vertebrae, corrects the cause, and normal conditions, or health, is the result. Investigation costs nothing, and means health and happiness. Chiropractic has gained its success by helping those cases that are regarded as incurable. So always

Bull Jumps Overboard

Quite a sensation was caused at Shea's wharf 7.30 this morning, when one of the bullocks upon being landed from S. S. Centor, broke loose, and jumped over the western end of the wharf into the waters of the harbour. Three workmen named Richard Squires, Thos. Oliver and Fred Whelan put off in a small boat to the rescue and succeded in capturing the animal alongside a schooner about 200 yards from the wharf. The animal showed much fight in the water, and the men had all they could do to get it safely to terra firma. Mr. Squires who assisted lost a valuable watch during the rescue.

A Large Funeral

The funeral of the late Robert J. Clare, one of the Blue Puttees took place yesterday afternoon from his brother's residence Military Road, and was attended by a large concourse of people of all classes and creeds. In the procession were a large number of war veterans, companions of the deceased who had fought in Gallipoli and France, the executive and members of the G.W.V.A., representatives from the C.L.B., in addition to private citizens. The prayers for the dead were read at the R. C. Cathedral by Rev. Fr. Savin, following which the cortege wended its way to Belvedere Cemetery, where interment took place. Lieut C. F. Garland, Vice-President of the G.W.V.A., read the War Veterans' ritual over the grave.

Progress at Dock Construction

Work on a new section of the dry dock begins this evening. Practically half the length of the dock has now been completed and if the present progress is maintained, the structure will be completed before Christmas. So far about 12 or 14 thousand yard of concrete have been poured. More than half the excavation work has also been done. The cofferdam will be completed next week as the steel piling has been driven for three fourth of the distance around the entrance. Work of dismantling the Desola has also begun. The ship will be stripped so as to permit of a wharf being made out of her hull.

Personal

Miss Eleanor Mews is at present in Toronto studying at the Conservatory, and working up material for another Recital upon her return. She will visit New York on the way home for the purpose of selecting music for her classes, which will re-open on the 8th October.

Mr. George Haynes, who has been visiting his mother and sister the[illegible] six weeks is leaving for Bosto[illegible] to-morrow's express.
