James Haggerty, a well-known New York Fenian, has been appointed U. S. Consul at Glasgow. We can hardly avoid looking on this selection as an insult to the British people. We hope that Her Maiesty will be advised to re use to receive him.

The "Local" begs to tender an expression of his gratitude to Dr. Briggs, the Chiropodist, for having relieved him of a corn, which people in a crowd had an ugly habit of treading upon. It was on ouse whatever, except as a natural barometer, for it always made vigorous leaping before a storm. On this account it may be missed, but its absence will not be regretted. The operation was quick, painless, and was not succeeded by any inconvenience. All who are corned, not in the head but in the feet, will find that Dr. Briggs is the man for their money.—
