Lieut. Col. Smith, of "D" Company, I. S. C., had offered to give band concerts during the summer months free of charge one afternoon a week at Victoria Park from 4 to 6 o'clock provided that the Council would pay for advertisement regarding the same. Accepted with thanks on motion of Ald. Moule.

QUEEN'S PARK FOR PICNICS.

The Mayor also referred to the necessity of improvements at Queen's Park. He suggested that a number of new seats be provided, a fountain erected, the place put in proper order and hot water be supplied with the use of the ground to all parties who desired to use it. He felt sure that many picnickers from outside places would use the park if it were fixed up thoroughly and free use granted. It was decided that the matter be referred to No. 2 Committee with power. Some of the sheds will be thrown open and made available in case of showers interrupting the picnickers.

Talbot Street Walk.

Squire Owrey spoke of the state of the sidewalk on the west side of Talbot street and the need of a new one. The residents wouldlike a new sidewalk laid and moved out, as was done on the other side of the street. Other gentlemen, who came as a deputation, were heard on the same subject.

Ald. O'Meara was to blame for the discrimination in the improvements in that section of the city.

Ald. O'Meara denied it hotly.

Ald. Anderson suggested that it be referred to the members of the ward as well as to No. 2 Committee, and that the same rule be followed in all future cases. This created more talk, but it was finally referred to No. 2. Committee alone to deal with.

Mr. Frank Love thought that the matter could be safely tided over without any ill-nature. He had every confidence in both Chairman Jeffery and Inspector Boyle. Inspector Boyle asked to have a hearing. He said that the Board had been instructed to notify all the inefficient teachers, and that he had nothing to do with it—all he had to do with the matter was that he received a note from the Chairman, asking him to make a summary of his report and he made it.

The committee met and in the presence of Mr. Learn matter was then presented as ordered and which when produced and shown to Mr. Boyle (although the Chairman) of Mr. Boyle (although the Chairman of the Board distinctly stated in his letter to Mr. Learn that the charges were furnished him. by the Inspector, and a majority of your committee withers when it is the charges contained in that report. overcomes "that tired feeling," and gives a screne and satisfactory feeling of physical improvement which is comforting. It is an excellent promoter of strength, and a general health rejuvenator after Scarlet Fever, Pneumonia, Diphtheria and other discases that are prostrating. Do not lose sight of the fact that the vitiated blood, contaminated either through heredity or by careless neglect of proper precaution, gives early notice of danger by the unmistakable "danger signals" which soon begin to make their appearance. It is indicated in many aways; among them are inflamed and purulent cyclids, disgusting cruptions on the scalp and other parts of the body, irregular appetite, irregular bowels. It affects all parts of the body. The sufferers from any of the many diseases, disorders or enfeebled secretions enumerated above may rest assured that in this preparation they have the best remedy that science affords.
