Rioting in London.

London, April 10.—An attempt on the part of publicans and others to make an imposing public demonstration against the proposed law establishing local option and abridging the privileges of the liquor trade, ended Saturday in a scene of riot and disabridging the privileges of the discrete and disorder. The plan of the managers of the demonstration was to have processions formed in the various districts, all of them converging into Trafalgar Square, where the meeting of protest was to be held. The temperance party, however, to the number of thousands, occupied Trafalgar Square long before the arrival of the liquor party, or the "anti-vetoists." Free fights were frequent, and the police were busily employed in subduing and arresting the ringleaders in the strife. The temperance party next secured possession of the plinth of Nelson's column and proceeded to hold forth. The liquor party now became aggressive, and the first temperance speaker was knocked off and somewhat bruised in the descent. The temperance people, the descent. The temperance people, however, rallied, carrying all before them and obtaining full control.

Two Hundred Persons Speared. LONDON, April 9.—The Cape Times pub-lishes, a private letter from the Nkonde Plain, in Nyassaland, dated Nov. 25 last, Plain, in Nyassaland, dated Nov. 25 last, which states that the people of those parts are living in terror of the Arabs, and look for safety to the handful of white people, especially the African Lakes Company. The one great hindrance to all advancement is war, carried on by the native or the Arab. Of the former kind the writer describes a recent instance.

"The Angoni," he says, "are an ofishoot of Zulus, occupying the hills to our west, and are the terror of the country around.

and are the terror of the country around. Last Friday night they came down to the lake shore in great numbers and attacked the village of Knyune. They entered the village sliently, and each warrior took up his position at the door of a hut and ordered the inmates to come forth. Every man and boy was speared as he emerged, and every woman was captured.

"News of the disaster soon reached the three white men stationed at Karongo in the employ of the Lakes Company. One of their number set out immediately with 50 guns to recapture the women, who, to the number of 200 or 300, were being carried off. In the afternoon they met the Angoni and opened fire. Taken by surprise, the men of the spears made off, but, not being able to carry both the booty and the women, they began immediately to spear the latter, A horrible seene then ensued. In half an hour they were beaten off and the women rescued. I was at the scene of the disaster rescued. I was at the scene of the disaster three days after, and counted 47 wounded. Fatal and Costly Conflagration at Warsaw, Ind.

Twenty-Three Valuable Horses Burned and Chief Brown Fatally Injured

St. Thomas, April 8.—Fire broke out this morning in the Patrons of Industry store at the village of Dutton, on the Michigan Central Railroad, and in a few hours destroyed \$50,000 worth of property, including 'the Windsor Hotel, J. Price's general store, Patrons of Industry, Mc-Pherson & Drake's general store, Dutton postoffice, opera house, Mechanics' Institute, Davis' tailor shop, and F. Miller's tailor shop. A J. Leitch, who owned most of the buildings, suffers a heavy loss. Nothing was saved, as an explosion of gunpowder shortly after the fire, completely demolished the greater portion of a block. The buildings were all two-story and brick, and were erected about a year ago. But for a heavy storm which brought rain down in torrents the whole town would have been wiped out.

The village is absolutely without fire protection, and the flames spread so rapidly that not even a pail of water was wasted in an attempt to stay their progress, except when they threatened the Queen's Hotel on the south, and the Salvation Army barraaks on the north both, of which structures were saved.

Datton has been particularly unfortunate

on the north both, of which structures were saved.

Dutton has been particularly unfortunate in the matter of fires. In 1885 the Heckin & Pool block was destroyed, at a loss of \$75,000. In January, 1892, the fire in the Nelson block cost \$15,000. On Jan. 14, 1893, there was a fire costing \$25,000, and now this \$50,000 fire.

This is the second time Mr. Price has been burned out this year, and the third time since he lived in the village.

Mr. Leitch has opened out a postoffice in one of the sample rooms of the Queen's Hotel. The buildings were insured for \$8,000.

Hull docks last night and anchored in the roads so as to be able to take aboard their crews at a safe distance from the rioters. Two companies of dragoons, arred with lances, formed on both sides of the crews and escorted them to the tenders. The police tried to keep the mob back, but the strikers broke through the lines repeatedly and began stoning the soldiers and sailors. The police swung their clubs right and left, cracking heads and battering faces. When the rioters crowded up in front of the crews so as to stop their progress, the dragoons beat them back with the butts of their lances. Several policemen and dragoons were injured with stones thrown by the rioters, and about a dozen strikers were carried from the scene of conflict by their comrades. The resolution was almost unopposed.

TOPEKA, Kan., April 9.— The 1,100 machinists, boiler-makers, blacksmiths and their helpers employed in the shops of the Atcheson, Topeka and Santa Fe Railroad at this place quit work on Saturday. The entire system are on strike for better wages and other demands. It is reported by the strikers that the firemen and brakemen are also out, but this lacks confirmation. The demand of the men is that the pay shall be increased 25 cents per day; that inexincreased 25 cents per day; that inex-perienced men who get less than regular perienced men who get less than regular rates shall not be required to do the work of skilled men, and that when the company deems it necessary to reduce expenses gangs of men be not discharged or laid oft, but that the hours be reduced.
