Young Farmer Murdered .- Two Sus- Former Member of "Runaway Girl" pects Promptly Lynched.

Greenwood, S. C., Dec. 29.—W. K. Jay, a prominent young farmer of the Troy section of this city, was murder 1 on Friday in his own yard by a negro, Oliver Widham, or his wife, both of whom lived on the place. The two negroes were lynched by Jay's infuriated neighbors.

Mr. Jay, on returning home in the afternoon, heard Widham abusing his (Widham's) wife. He went to the cabin and ordered the negroes to be quiet. Immediately afterward Mrs. Jay heard report of a gun, and saw the two negroes running away. Searching for her husband she found him dead in the yard. He had been shot. Parties were soon in pursuit of the negroes. They were daptured, and, being brought before the coroner, they confessed, but the man said the woman did it, and the woman accused the man.

Philadelphia, Pa., Dec. 29.—Dolly Earle, a member of the "Merry Widow" company, playing at a buriesque house here, committed suicide on Saturday night in her dressing room by swallowing carbolic acid. She left the following note, addressed to F. Fallinger, Rochester, N. Y.:

"Forgive me all; can't stand trouble."

Miss Earle was about 30 years old. She was formerly a member of the "Runaway Girl" company, which stranded here about two weeks ago, and joined the "Merry Widow" company in this city.

I Will Cure You of

Rheumatism

Else No Money Is Wanted.

Any honest person who suffers from Rheumatism is welcome to this offer. I am a specialist in Rheumatism, and have treated more cases than any other physician, I think. For 16 years I made 2,000 experiments with different drugs, 2,000 experiments with different diags, testing all known remedies while searching the world for something better. Nine years ago I found a costly chemical in Germany, which, with my previous discoveries, gives me a certain cure.

I don't mean that it can turn bony joints into flesh again; but it can cure the disease at any stage, completely and forever. I have done it fully 100,000 times. I know this so went that I will furnish I know this so well that I will that there is nothing the matter with my remedy on trial. Simply write me a postal for my book on Rheumatism, and I will mail you an order on your druggist for six bottle Dr. Shoop's Rheumatic than is usually the case at this seather than its usually the t Cure. Take it for a month at my risk. If it succeeds, the cost is only \$5.50. If it fails, I will pay the druggist myself and your mere word shall decide it.

I mean that exactly. If you say the results are not what I claim, I don't

My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met. And in all my experience—in all my 2,000 tests—I never found another remedy that would cure one chronic case in ten.

Write me and I will send you the order.

Lemon Juice Good in Cases of Typhoid, Says Dr. Ferguson.

Lemon juice, it is positively stated, will destroy typhoid fever germs in water. This important discovery is the result of experiments now being made in bacteriological bureaus of European capitals. One experimenter recently dropped a little lemon juice in a culture tube containing typhoid germs. To his amazement he found that the acid shriveled up and killed the germs. The discovery is especially timely now in this city, where the re-port that the Croton and Brooklyn water supplies are contaminated has been revived by the fact that Cornelius Vanderbilt and other men of social

and business prominence have been ill with typhoid fever. Officials of the board of health say son of the year, but they add that the monia, Consumption, before they have fact remains that typhoid and other a chance to propagate and thrive in the germs are taken into the human system by those who drank the city's

Success of the North of Scotland Obsequies of Late Bishop of Canadian Mortgage Company -Pig Iron Bounty.

London, Dec. 29 .- A meeting of the North of Scotland Canadian Mortgage Company was held at Edinburgh Saturday. The chairman stated that the net profits for the year amounted to £20,089, yielding a dividend of .10 per cent. per annum. The company were transferring their money from Ontario to Manitoba by reason of the fact that interest had fallen in the former since the company started business. E. B. Osler, M. P., was praised by the chairman for his financial ability and his sound judgment. The Canadian board received a cordial vote of thanks.

Elijah Heim, of the Manchester Chamber of Commerce, has a letter in the Times on "The Fetich of Free Trade," and, referring to Canada's bounty on pig iron, produced in the Dominion, says: "It is practically a bounty on exports, and under its influence the imports of Canadian iron on prices in Glasgow. There can be no doubt that this bounty-fed commodity will before long become an important competitor of the iron of Cleveland and Scotland.'

IS A BUSINESS PROPOSITION

The Principal Asset of the Successful Business Man.

The head of the largest meat packing industry in the world, for many years, prior to his death, never traveled without his physician; everywhere he was accompanied by medical adviser; he hired him for his exclusive attendance by the year and considered the large salary paid for such service as a part of his business investment. He did not do this because he was a hypochondriac, in constant fear of illness and death; on the contrary he was an exceptionally robust man, but he realized that the principal asset in his enormous business was his own personal health, and to keep physically and mentally well and strong was a business proposition,

pure and simple. It is so with every business man and woman. A slight cold in the head or throat may pass off in a few days, or t may develop into Pneumonia, Chronic Catarrh, or an irritating throat trouble; in any event its departure should be hastened by some simple antiseptic preparation like Stuart's Catarrh Tablets, which are dissolved in the mouth and thus reach and destroy the germs of Catarrh, Pneuinflamed mucous membranes of the nose and throat.

To burden the stomach with drugs and stimulants is a foolish and often dangerous way to combat a cold, because stimulants are always followed by corresponding depression and where there is any tendency to Pneumonia increases the danger by increasing the heart's action.

A popular school teacher in Pittsburg writes: "I am a walking advertisement for Stuart's Catarrh Tablets; the change from a crowded steam-heated school room to a raw, chill outdoors kept me nursing colds in the head and throat from fall to spring. Throat irritation made it difficult for me to read or speak and conduct my classes. My druggist with whom I spent a large part of my salary for cough lozenges and potash tablets one day advised me to try Stuart's Catarrh Tablets and I shall never cease to thank him. I still catch cold occa-sionally, but I stop it in a day or two with the tablets, and I have done missionary work with my pupils to such an extent that coughs and colds are almost unknown amongst the youngsters in my room." . 80-u-yt

RAILROADS FEEL THE COAL FAMINE

The Stringency in New England Keenly Felt—May Affect Train Schedules.

New York, Dec. 30 .- The coal stringency in New England has become so acute that a curtailment of train schedules on railroads in that section in the near future appears to be almost inevitable. The New York, New Haven and Hartford is worse off than the other roads, despite its many coal depots along its lines, and it has been forced to borrow and seize coal a number of times. Some of the roads, it is said, more than a month ago considered the cutting of schedules in view of the possibility of a coal shortage, and most of the roads in the country. which are not coal "originating" roads, adopt the measure.

The operation of New England factories will also be effected, though up to the present only two factories have been obliged to suspend operations on account of fuel famine.
