SHOCKING MURDER OF MISS MILLMAN

Detroit Girl Cut in Pieces-The Body Found in a Creek.

Her Remains Identified by Companion -Supposed to Have Been Work of Doctor.

Detroit, Sept. 8. - After dragging Ecorse Creek for three hours yesterday, seeking other portions of the body of the woman whose torso was found on Monday, Marshal George Perry and Oliver Sanssouci brought up a sack containing the head and arms and the legs from the knees down at 11:20 o'clock yesterday morning. Later was identified as that of Mabei Millman, of Ann Arbor.

The sack was like the one found on Monday morning with the torso in it. It was manufactured by John F. Baily, & Co., Philadelphia, for the C. H. Little Company, Detroit, and had contained wall plaster. The sack was located directly under the Detroit, Wyandotte and Trenton interurban bridge, in eight feet of water, about the centre of the river. It was towed ashore and Justice Torango was summoned. Sheriff Gaston arrived soon and ordered the sack, upopened, removed to the county morgue. A wash boiler was found, the bag was put in it, placed in an automobile, and brought to the county morgue.
