# DESCRIBES RESOURCES

# the Bulkley Valley

A new issue of provincial buileting. A new issue of provincial buileting No. 22, New British Columbia is being distributed by the bureau of information. This publication having been brought up to date, includes considerable information regarding the resources and the possibilities of the resources and the possibilities of different sections of the province.

have been acquired through South African war scrip, about 20,000 acres business men, representing 28 states, African war scrip, about 20,000 acres have been pre-empted and probably about as much more purchased; or approximately alienations within the surveyed area amounting to 66,000 acres, leaving some 34,000 acres unoc-

the most part susceptible to cultivation and worthy of examination by intending settlers. There is, however, in addition to this a large unsurveyed area lying towards the north and south ends of the valley, comprising probably 30,000 acres, which from a superficial examination promises favorable results. These lands are for the most part, on the opposite side of the Bulkley river and distant from the main trail.

the main trail. I should advise intending settlers to I should advise intending settlers to band themselves into companies, of, say, half a dozen, for the purpose of obviating in some degree the isolation that will attach to these more outlying areas for a few years.

Settlement of the valley is steadily settlement of the valley is steadily and tax collector, from a cold constant of the valley is steadily settlement of the valley settlement of the valley is steadily settlement of the valley settlement of the valley

There are now established at Aldermere and Telkwa three good stores at which everything one requires may be obtained.

Persons entering the country by way of Skeena and Hazelton would be

risonment.

The thermometer rising with the snow. As compared with winter in the East, I should consider it more favorable. Stock were doing well when I left in February, though being fed. With the beginning of February came a break of warm weather which I understand lasted for two weeks, and since which time the winter has been normal and mild.

New Enterprises
In reference to the establishment of new enterprises in that district, the bulletin says:

During the season of navigation (1907) the Hudsons Bay company will operate two steamers, the Mount Royal and Hazelton, and the new British Columbia Commercial company the Northwest, between Port Essington and Hazelton. There are hotels and well stocked stores at Essington, Hazelton, Aldermore and Telqua, where provisions and uotifits may be purchased. A wagon bridge will be constructed across the Bulkley river near its junction with the Telqua, which will greatly facilitate travel. There is every indication that there will be a great demand for pack animals and a corresponding advance in prices. The New British Columbia Commercial company is importing a large number of horses which will be employed in freighting and hired to prospectors and land seekers. It is proposed to establish a weekly newspaper, the Bulkley Ploneer, at Aldermere or Telqua. The first numbers of the Ploneer are being published at Vancouver, but a printing plant will be considered that so far little attention has been given to fruit growing, but the evidence at hand would lead to the conclusion that all the hardler varieties of apples, pears and plums, and all varieties of small fruits, will succeed in many localities. Speaking of the works are prefection was overwhelmingly Republican in the parangle from house to house with seathle, and in exchanging them was sprinted preacher, which we help in keeping two horses in the parson.

The Rev. Mr. Davis, for example, was a spirited preacher, which we help was frowned upon in a single from house to house with such specific dashing from house to hous

dence at hand would lead to the conclusion that all the harder varieties of apples, pears and plums, and all varieties of small fruits, will succeed in many localities. Speaking of the Coast district from Jervis Inlet to the Skeena river, Maxwell Smith, Dominion fruit inspector, says: "There is little known of its capabilities, but undoubtedly it has a few surprises but undoubtedly it has a few surprises in control of the future. Though in small quantities as yet, apples, peaches and grapes have been successfully grown on the Skeena. The first apple trees were planted at Hazelton in the spring of 1901 and fruited in the fall of 1904." Apples of good quality have been grown for years at Barkerville. In the Bulkley valley there are at present about 100 young trees which have stood the winters well for three years, and will probably begin bearing fruit this year (1907).

PRESBYTERIAN UNION

Galt. Oht., May 22.—The United Presbyterian church, one of the oldest in Ontario, was yesterday received into the Canadian body at a meeting of the Guelph Presbytery.

LIGHTHOUSE COLLAPSED.

Bordeaux, France, May 22.—The lighthouse on Point de Lacoubre, at the entrance of Caronne, which was 150 feet high, and had a light which was among the most powerful in France, was so undermined by the sea that it fell yesterday. No one was just completing its control of the chorus of praise, and but the general many supplementations.

In the Bulkley valles as few surprises of the chera denominations.

In the Bulkley was a the subscription has a minister can be in this finite world. His young wife had a small world. His young wife had a small visual advantage, and the subscription to certainly advantage, and the subscription to eternally driving over the country to get somebody's fifty cents that had been overfue for eight months, but might take their onerous duties more the perfect of the profession. The first apple trees were planted at hazelton in the spring of 1901 and fruited in the fall of 1904."

AT LAKE MOHONK.

Thirteenth Conference on International

Mohonk Lake, N. Y., May 22 .- The tional arbitration opened its thirteenth Provincial Bulletin Dealing With annual session today. The election o officers resulted: President, Dr. Nichols Murray Butler, New York; conference secretary, C. R. Woodruff, Philadelphia; permanent corresponding sec One of the most interesting sections of the bulletin is a report by J. H. Gray, C. E., on the conditions in Bulk-ley valley. This, in part, follows:
Relating to the present conditions in the Bulkley valley. There were surveyed last year about one hundred thousand acres, covering for the most part that pertion of the valley embraced within the original survey as shown by the present maps.

Of the above area some 26,000 acres have been acquired through South

reported that 121 organizations of were committed to the arbitration

Dr. Theodore Barth, of Berlin, spoke of Germany's interest in the interna

cupied.

It may be accepted that this latter constitutes the least desirable land within that particular locality, although generally speaking, it is for not waste time in talking about what it can, and though generally speaking, it is for not waste time in talking about what it can, and the conference will do what it can be conference will be con Rev. Dr. Edward Everett Hale expressed the opinion that The Hague not waste time in talking about what

# Vincent J. Keenan, Formerly Residen

that will attach to these more outlying areas for a few years.

Settlement of the valley is steadily progressing, the population may now be set at about one hundred. All crops last year did splendidly. I had no trouble in obtaining all the potatoes, turnips, cabbage and beets required; while a good supply of radishes, lettuce and cauliflower was forthcoming, and all of the very best quality. Vegetables all round cost 3 cents per pound. Beef, which is plentiful, is 16 cents per pound.

Work last year was plentiful, what between government road work, the Telqua and other mining and surveys, there was a demand for good men. There is all indication that the same conditions will pertain this season.

There are now established at Aldermere and Telkwa three good stores.

### AGITATORS PUNISHED

Persons entering the country by way of Skeena and Hazelton would be able to obtain horses at the latter point. These cost from \$40 to \$60 per head. Packing from Hazelton to the Telkwa, about 60 miles, costs 3 to 3 1-2 cents per pound.

Last winter was the most extremely severe known in the valley, as also the deepest snowfall. I prosecuted surveying operations to about 20th of January and throughout the cold spell. Snow was 21-2 feet deep. Our coldest day was 38 degrees and an average of about 18 degrees for a month. Perfectly still sunshiny days was the rule, the thermometer rising with the snow. As compared with winter in the East, I should consider it more favorable.

Lahore, British India, May 22.—The Hindoo revolutionists who aroused the finatics of the Punjab into a state of great excitement by circulating the statement that the alleged plague did not exist, and that the one million reaths weekly attributed to it were really caused by the poisoning of drinking water by emissaries of the government, was today sentenced to voy years rigorous imprisonment. An accomplice who dropped harmless balls into wells, alleging that he did so by order of the government, was condemned to eighteen months' imprisonment.
