M. K. PIPER, Proprietor.  
J. A. WALLIS, Editor and Manager.

PUBLISHED ON WEDNESDAY.

At Bridgetown, Antigua, Co. N. S.

WEDNESDAY, AUG. 29, 1906.

The waste of human life that occurs year after year from drowning is enormous. The economic loss to the community and country is deplorable; the sorrow and misery of those left behind cannot be measured. Many of the drownings would not take place if everybody was obliged to learn to swim. Swimming is not a difficult accomplishment to acquire in childhood, and, with facilities for practice, learning to swim is a pleasure to all. It is so strong in the water that he is practically immune from the drowning danger. Not only that, but, with the proper education, he becomes a potential life saver and a strength to all who are in the water near him. It should not be impossible for all young people to learn to swim. Parents in the country, where facilities are seldom lacking, should count it a duty to have their children learn, while in the cities there appears no good reason provided with swimming baths and why the public schools should not be swimming masters.

## DEAFNESS CANNOT BE CURED

By local application, as they cannot reach the diseased portion of the ear, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running nose or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube and restored to its normal condition, hearing will be destroyed forever.

Some cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous lining of the tube. Deafness (caused by Catarrh) cannot be cured by local applications. It is essential that you should have a cure.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

## Dominion Exhibition

In a Scale of Magnificence

The great Exhibition at Halifax is now only two or three weeks in the future, and the plans of those who propose visiting it should by this time be pretty nearly completed. The Exhibition will undoubtedly be on a scale of wonderful magnificence, and the grounds, with their 37 acres and imposing buildings, will be taxed to the utmost to accommodate the display that will be made and the public thronging to see it.

In its departmental features the Exhibition will be replete with objects of interest, and amusement will be pleasantly combined with the more solid and substantial resources for a visit to the Fair Grounds. The Fisheries Building which has been erected this summer will be stocked with a great display of the Marine life and wealth of this part of Canada. The Yachting performance will be thrilling, wonderful and amusing, the pyrotechnical display will be magnificent, and the horse races are certain to be exciting, with the prospect of many new records. The track is in perfect order and has been made very fast. A visit to Halifax for the Exhibition will be well worth while, and the city itself, with its new paving, will be of special interest. The entries for the horse races close on the 10th of Sept., and those for Agriculture, Women's work etc., close on Monday Sept. 27th. The lodging bureau is perfecting arrangements to comfortably provide for all who come. It would be well for anyone not having yet secured quarters to write to W. J. Butler, Lodging Superintendent, 138 Hollis St., Halifax, who will make a record of the names and secure accommodation. Fulling this, a call at the Bureau would be advisable after Halifax is reached.

The Digby Courier says: Capt. L. D. Marton returned home Tuesday from Montreal where he witnessed the races.

Kingborough beat everything races. The big Montreal dailies, the vote a lot of money to the dailies of Kingborough. They state that even drivers and race were changed and everything possible done to defeat this fast young stallion, but of no avail for he proved himself a peer of the best class. Capt. Marton reduced a cash offer of \$2,500 and will not consider anything less than \$5,000. Kingborough starts next at Moncton on Labor Day and again in Halifax on the 18th. After that he goes to the Prince Edward Island, but in no case will he start for a race less than \$500. We wish him continued success.

## STRONG &amp; WHITMAN

## A CALIFORNIA TRAGEDY

California, the land of gold, sunshine, fruit, flowers and lovely women and dear divorcees, has witnessed another tragedy. At Oakland, 36 days ago, a divorced woman, known as Mrs. Reed, aged 26, fashionably dressed and perfectly at ease, accused a man named Jack Mahon, who sat in a fashionable dental parlor, and asked him to go into the next room as she wished to consult a telephone. The man complied, and a moment later people in the parlor were startled on hearing two loud reports. They rushed

into the room. The man still holding the revolver in his hand, lay dead on the floor. He had been shot through the head while receiving a message. By his side lay Mrs. Reed, shot through the head, breathing her last. Near her hand was a pistol, two charges of which had been discharged. It was the old story: love, betrayal, jealousy, desertion and death. The woman had killed the man and herself. Tragedies of this description are too common in San Francisco to call for more than passing notice. But this particular tragedy differs from others by the fact that in the private desk of the dead man—who was known as Hand-

some Jack—of scores of letters from women in every walk in life who, judging from the mischievous, were one and all deeply in love with him. These letters are now in the hands of the police, and several have found their way into the papers. It is said that many grand dames are seriously compromised. Mahon's success with the fair sex is explained by the statement that he was a hypnotist and that his advances were irresistible. Such a man were better dead; but it is a pity that he did not burn the letters before he went.

THE BEST CURE during the hot weather is Sovereign Lime Juice, delicious, cooling and refreshing.
