Easy to Manipulate

Where the mowing has to be done on rough or stony land one wants a Mower that can be easily handled. The Levers and Foot Lift on the

Massey-Harris Line of Mowers

are so convenient to the driver's seat that any range of adjustment can be readily obtained with but slight pressure. A boy can drive and handle these machines, the Levers are so easily manipulated.

Waning Fertility in Soils

Softened due to the want of LIME. It is one of the constituents on which plants most largely depend for proper growth, and one most quickly exhausted. The application of

Lime as a Fertilizer

Not only adds the necessary element, but renders the natural stores of inert food available to the plant, and ameliorates the quality of heavy soils. The results in **INCREASED YIELD** and **IMPROVEMENT IN THE QUALITY** of crop by its use have been so great as to seem almost incredible. **IT IS THE CHEAPEST**, most durable in effect, and the most easily obtained fertilizer in the world. **IT CAN BE OBTAINED FROM ANY LIME MERCHANT.**

Cheese and Butter

Makers of these articles, in many instances, do not pay the necessary attention to the quality of the salt they use. Some people think that "salt is salt," and it does not matter where it comes from or who makes it. This is a great mistake, for it is essential that to produce the best Butter or Cheese nothing but the purest salt should be used.

The number of prizes obtained by users of

'RICE'S' or 'COLEMAN'S' DAIRY SALT

at the various exhibitions is conclusive proof that these brands of salt stand unrivalled. For prices, etc., address
