

SUNSHINE

Rev. Jos. Camille Roy,
Seminare de Quebec

A detailed illustration of a sun rising over a landscape. The sun is a bright circle with rays emanating from it, some of which are long and thin, extending upwards. Below the sun, there are rolling hills or a field with a fence line. The entire scene is rendered in a fine-line, etched style.

MONTREAL, DECEMBER, 1896.

REHEARSING THE CHRISTMAS ANTHEM.
