

NEW YORK EXCHANGE.

SO. PAC. STRONG ON LONDON BUYING ORDERS — COALERS MORE ACTIVE GENERAL ELECTRIC STRONG ON RUMORS OF INCREASED DIVIDENDS — MONEY STIFFENS TO 8, EASES OFF TO 7 ABOUT NOON.

New York, Nov. 22.

The London market for Americans, although inactive, is strong under the leadership of So. Pac., which is up $\frac{1}{2}$ to 1.

Other strong features are C. & O. and B. & O. pfd, while St. Paul shows a decline of $\frac{1}{2}$. There is a complete dearth of any definite information in regard to the state of affairs in South Africa.

The flurry in call money yesterday came in the nature of a surprise. Although bonds have not been coming into treasury as freely as had been hoped, the aggregate redemption amounts to over 8,000,000. A very large portion of this should have found its way into the New York banks, resulting in a very material strengthening of their position. On the other hand there is nothing to lead people to believe that demands for money by commission houses of Wall Street have been increased. There is, however, a strong current in the street that a certain very large financial institution became over extended during the past few months and is seizing on the opportunity by the increase of supply of money incidental to the redemption of bonds to curtail its loans and generally strengthen its position. The street will welcome the announcement that this has been done.

The irregularity of yesterday's market was largely due to the fact that the principal dealings were between traders, commission houses doing little or nothing for a while, the strength of Manhattan was looked on as a favorable feature, and induced some buying. Subsequently the failure of any large amount of bonds to make their appearance in the treasury gave the market a bearish turn. Later on it became known that a block of \$1,500,000 had been turned in, causing a rally, and finally a reaction took place in consequence of the high rates for money.

Activity in North American was based on reports of buying for control of the Milwaukee St. Ry and the Cincinnati Illuminating Co.

There was some lively selling of Sugar on part of two floor operators who recently got long of the stock, in the belief that an agreement had been arrived at for the maintenance of rates. On what seemed to be fairly reliable authority it was stated that the attempts to reach an agreement had proved to be a failure.

New York (noon), Nov. 22.

The market showed considerable strength at the opening, not only was London a buyer, but commission houses had rather more business than they had yesterday, and the bulk of their orders seemed to be on the buying side. So. Pac. was notably strong. Manhattan recovered sharply, but Sugar was heavy and seemed to be under considerable pressure.

Trading in North American was again active, but the bullish feeling in it received something of a check owing to the sale of some 5000 shares by Navenburg and Atterbury.

There was more doing in the coalers than for some time. Reading 1st pfd enjoying an advance of 1 p.c.

Jersey Central sold at 124 on rumors that at the next meeting of directors the dividend would be increased.

Another active and strong stock was Gen-

eral Electric. This stock also being favorably influenced by rumors of increased dividends.

After the first hour the market was adversely affected by the stringency of the money market. First loans were made at 6 p.c. but the rate quickly advanced to 8 p.c., and the quotation now is about 7 p.c.

There is a good stiff demand at 6 p.c. and apparently the supply of loanable funds is not large. The market reacted rather sharply, the decline being especially noticed in T.C.I., in which stock support was conspicuous by its absence, and also in Manhattan and Sugar.

As to Man., the Room was inclined to buy it at the opening because of the extension of a month given by Park Board to the time within which they must remove the structure from Battery Park.

The Room does not believe that the Park Board will at any time insist on removal.

The Northwest earnings for month October make extraordinarily good showing, the increase being \$593,359 over the same month of last year.

STANDARD MINING EXCHANGE.

Toronto, Nov. 21.

SALES :

STRAWS.

Advances in Leather prices are now being traced to the Transvaal war.

In the outside market, New York, Nov. 20, Bay State Gas was quoted at 1 $\frac{1}{2}$ -1 $\frac{3}{4}$, Flemington at 28-30.

Boston and Albany has declared regular quarterly dividend of 2 p.c. payable Dec. 30 to stock of record Dec. 9.

The Statist says : "If the pressure for money in New York becomes much more acute gold imports from this side will become profitable. Besides the possibility of gold shipments to the United States we now have to face a demand from India.

New York, Ontario and Western large increases in weekly earnings arise from expansion of dairy traffic and general business.
