FIRE ENGINE HOSE.

After numerous and expensive experiments in other material the public have been forced to the conclusion that the only safety from destruction and economy of material is in the use of Leather Hose for fire purposes.

Having established a reputation second to none in the manufacture of **FIRST-CLASS FIRE ENGINE HOSE**, and having on hand a very large stock of selected Hides, that have been tanned and finished specially to my own order, I beg to say that I am fully prepared to fill all orders that I may be favored with.

T. FINLAY,

75 Charlotte Street, St. John, New Brunswick, Canada.
