

Silvol in eye, ear, nose, throat and genito-urinary infections

An eye, ear, nose and throat specialist of wide experience sums up the advantages of **SILVOL** in these words:

1. Quick solubility in any dilution suitable for application to mucous membranes.
2. Less staining effect than with other proteid-silver preparations.
3. High percentage of silver content.
4. Minimum of irritation when applied to mucous surfaces.
5. Low percentage dilutions effective as compared with similar preparations.
