ARRIVAL OF THE UNICORN-This Steam Ship arrived on Saturday evening, bringing the English Mail of the 19th ulto.

Parliament was prorogued on the 5th ulto. by commission, until the 10th October. The Royal Speech, which was read by the Lord will enjoy the blessing of an abundant har-It also adverts to the amicable settlement of our relations with France.

The Prince, the Queen's youngest son, was haptized at the chapel of Windsor Castle, on the 6th ulto. with a good deal of splendour. The Sponsors, who were all represented by their proxies, were Prince George of Cambridge, the Prince of Leiningen, and the Duchess of Saxe Coburg Gotha. The solemnity was performed by the Archbishop of Canterbury, and the infant received the names of Alfred Ernest Albert .- The Queen and Prince Albert left London on the 9th ulto. for Scotland, in the Royal Steam Yacht, and immediately proceeded to Blair Atholi, the seat of Lord Glenlyon, who received her Majesty with a guard of honour of his clansmen dressed in Highland

Captain Basil Hall, well known for his scientific attainments, died lately in Haslar Asylum.

Sir Robert Peel sent a check for £1,000 to the Committee for promoting the laying out of public walks in Manchester.

COMMERCIAL MATTERS still look promising. Trade in the Manufacturing districts was brisk, and the prices of some articles had advanced. The harvest generally had been secured in excellent order, and proved abundant and good. The demand for Canadian Flour was moderate, and prices were slightly reduced. The imports of flour and wheat from Canada this year have greatly exceeded those of last year. To the 9th Aug. 1813,

The demand for Quebec, Timber had been very good, and the cargoes which had arrived met with a ready sale.

The Bank of England has reduced the rate of discount on three months' bills from 4 to 24 per cent.

IRELAND.—Great excitement had been caused in this country, no less than in England, by the circumstance that the House of Lords had reversed the judgment in the case of Mr. O'Connell and his fellow-prisoners: the Lord Chancellor and Lord Brougham having voted to affirm the judgment, Lords Denman, Cottenham and Campbell to reverse it. This event was altogether unexpected, and was considered by the Repealers as a triumph. An order was immediately given for the release of Mr. O'Connell and the other prisoners; and upon their leaving the place of their confinement, he was escorted by an immense procession to his residence. At Cork and others of the principal towns, there were likewise great rejoicings.

Mr. O'Connell attended the weekly meeting of the Repeal Association on the 9th September, and addressed the immense assemblage who were present, estimated at 5,000 persons, at great length upon the subject of his trial, imprisonment, and release. He did not announce any decided plan for future opera-

FRANCE.—The matters which threatened to produce disagreement between this country and our Government have happily been settled in an amicable manner. The French officer who imprisoned Mr. Pritchard, the English Consul, had been reprimanded, and an apology and reparation for the insult had been offered to the Consul. The war with Morocco had ceased; the Sultan having demanded peace and having accepted the terms offered to him by the Prince de Joinville. This intelligence gave general satisfaction in France and England, as preventing all possibility of a rupture between these countries. His Majesty Louis Philippe was expected in England on a visit to our Queen. Great preparations were being made in France for the reception of the Prince de Joinville on his return. It was reported that he was to be created Lord High Admiral of France. A large French war-steamer, the Greenland, was totally lost on the coast of Morocco on the 26th August.

Spain seems likely to be disturbed by another revolution. There is a strong party in favour of Espartero, the late Regent, and their agents are secretly at work in various parts of the country.

ITALY likewise appears to remain in a disturbed state, and the agitators are supposed to keep up a communication with a committee in London. Considerable sums of money have been sent from Marseilles to Corfu and Calabria for the agents of the committee.

INDIA AND CHINA.—The Indian Mail via

Marseilles brought dates from Bombay to the 31st July.

The Hindostan, with Sir Henry Hardinge,

the new Governor General, on board, left Aden at noon on the 6th July. Lord Ellenborough was expected to leave Calcutta in the beginning of August.

One of the native regiments, which had manifested symptoms of insubordination, was disarmed and compelled to leave its station. The ringleaders had been arrested and were to be punished. Scinde was tranquil. Fever prevailed there, and Sir Charles Napier was reported to have suffered from an attack of it.

DEPUTY SUPERINTENDENT OF EDUCA-TION, C. W .- The Rev. Mr. Murray having received the appointment of Professor of Mathematics and Natural Philosophy in the University of King's College, Toronto, the above office becomes vacant, and the rumour is renewed that the Rev. Dr. Ryerson is to succeed him.

THE MONTREAL TEMPERANCE SOCIETY has received from the Governor General the the high sense which His Excellency enter-tains of the value of Societies having in view reclamation from vice and crime, and of his best wishes for the success of the institution. his best wishes for the success of the insti-tution.

The Election is to take place on Thursday next at the Parliament buildings. Mr Chabot has offered himself to the electors : the Hon, H. Black who was requested to come forward with him has declined.

BREACH OF THE PEACE.-A riot unfortunately took place on Tuesday night in Champlain-street and the vicinity, where much damage was done to property, and some persons were injured.

From the accounts given, it seems that a party of Repealers were walking in procession between nine and ten o'clock, carrying torches, &c. through that part of the town, to show their joy at the recent liberation of Mr. O'Connell. But not satisfied with their own demonstrations, they wished all the neighbourhood to illuminate also, and broke the windows of some of those who refused comof glass were broken in the windows of St. Paul's, (the Mariners') Chapel.
