Sugremucs of the Receous 41 The South .- The most heart rending accounts are given of the sufferings of the colored people of the South who have come within our military lines and thrown them-selves on the protection of the United States armies. We have seen the statement that Gen. Grant has declared the present condition of these people to be a national disgrace. In more than one letter written as by the late lamented Bishop Oter, he described the demoralization and distress among these people, wherever our armies go, as being so great that if it continues at the present rate they will be half extermindled in two years' time. In one company of 4000 at Memphis (alluded to below) 1200 died in three or four months. which is, a fur more alarming rate of mortality than that anticipated by Bishop Otey. At s late meeting, in Philadelphia, in behalf of these poor deatitute and dying creatures, the Bishop of Pennsylvania presided and the Rev. Mr. Fisk, of Kemphis said, among other things:—" As the Union armice advanced, the blacks of the slaveholders were included within the Union lines. At this time there are on the banks of the Mississippi 35,000 blacks within the armies of the North. Are they men and serviceable boys? No. These have been called out earefully for military purposes. But they are women and children, and are left to the support of the Guvernment. Instances were related of the sufferings of the blacks, and of the great destitution to which they were reduced. In the snow storms of last winter they perished by scores. Men crippled and in-first, women weak, frail, and trembling, children tender, fragile, and belpless, fell by the very side of the similes, and near the stations of the railways, numbed and stiffened with cold, fatigue, and hunger. In Memphis, last January, twelve hundred tragic ceath-scenes were enacted there. The black hole of Calcutte was out done in suffering and pain by the little neisome quarters of the crooked darkened lanes of the city. The blacks were buddled together in groups to keep life in their todies by animal warmth. No fuel, no fire, no blankets, no beds, no food ; what wonder is it that twelve hundred died ?- New York Church Journal.

HURRAY & LARMAN'S PLUMBA WATER. -- This is the original toilet water so much extelled by the Spanish press of South America, and of which so many imitations have been sold in this country. We understand that it was for the purpose of proteeling the public against imposition, that the pro-prietors of the genuine article introduced in the Spenish republies, Cubs and Brazil, twenty odd pears ago, commenced manufacturing it for the home market se well as for exportation. It has already become popular, and is likely to supercede here, as it has done in South America the more costly European serfumes. It is equal in all respects to the finest of 油中四。

I can truly suy that nothing but the kind hand of Providence and your BITTERS have saved her from an early grave. For three years I have been doctoring her with spraps and all kinds of bitters that have been recommended to me for her, besides having two firstrate physicians; but all seemed to do her no good, while I was searching the Almanacs and all the newspapers that I could get hold of, in hopes of finding something that would suit her case. Accidentally there came part of a newspaper around ! some goods that I honort at the Son, In looking it orer I saw at a glance that your BITTERS was fust ! what she needed. I sent the next day to Ballston Spa and got a bottle of your BITTERS. She commenced taking them, and such a change in one week with her appetite, and the distress that vic-tuals occasioned, and that burning in the stomach, I never saw in my life, as there was in hor. She has taken three bottles, and is now able to work all the time. I think there is a little deraugement of the liver. Please send me three bottles more, which I think will care her entirely. We and others thought she had a disease of the heart, but that beating and flattering that would almost stop her from breathing at times, is all gone.

Dear Sirs,—When I besan using BRISTOL'S

The first bettle of Brisron's SARSAPARILLA gave me great relief, and before I had finished seven bottles I was entirely free from pain, and able to walk as well as I ever could. You will confer a favor on many by making these facts public, which I shall be glad to confirm.

Reading. Pa., 6th May, 1861. J. C. Alex, M. D. Dont Sir I have a long time been afflicted with an exuption which covered my whole body, and suffered dreadfully with it. I was finally advised by one of our leading citizens to try your SARSA-PARILLA, and after taking half a bottle only, I found that it had reached my complaint, and my health improved surprisingly. One single bottle completely cared me, and I am now as free from the complaint as any man in the world. It has not failed to come upon her in cold weather, nor has any remedial aid been able to hasten its departure before spring, or at all alleviate her aufferings from it. This season it began in October with its usual violence, and by the advice of my physician I gave her your Sansaranill. In a week it had brought the humor out upon her skin worse than I had ever seen it before; but it soon began to disappear. The itching ha ceased, and the humor is now entirely gone, so that she is com-pletely cured. This remarkable result was undoubtedly produced by your SARSAPARILLA. Charles P.
