Ayer's Sarsaparilla, FOR PURIFFING THE BLOOD.

The reputation this em-cellent their time endogs, is decived from a sense, many of which are of a truly marvelious char-net.r. Inveterate cases of Seconda, whose ty-system up to corruption, have yielded to this can-normal of anti-trumous

system seemed atterly given up to correspond Lace yielded to this compound of anti-stramous varies. Disorders of a serofulous type, and affections which are merely fearer, in every settlement in the country, that the problem of never settlement in the country, that the problem of never settlement in the country, that the problem of our race. Often, this unseen and unfoltenent of the organism undermines the constitution, and invites the attack of emeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly developint one or among the vitals. In the latter, tubercles may be sublenly deposited in the lungs or leart, or tumors formed in the liver. These facts make the occasional use of the Sarsaparilla a a preventive, advisable.

It is a mistake to suppose that so long as no emptons or humors appear, there must be no scrotious tant. These forms of derangement may never occur, and yet the vital forces of the body be so reduced by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly here it are. It does, indeed, doscend from parent to child, but is also engendered in persons born of pure blood. Low living, indigestion, foul air, licentious habits, undefaminess, and the depressing vices generally, produce k. Weakly constitutions, where not fortified by the most constant and judicious care, are peculiarly liable to it. Yet the robust, also, whose turbid blood swells the veins with an apparential manning the care of the insensible to the importance of an effective southernous former of the importance of an effective southernous Fire, Rose or Erystpelas, for Telters, Salt Rheum, Scald Haud, Ring-

it, nor feel insensible to the importance of an effectual remedy.
In 8t. Authony's Fire, Rose or Erysipelas, for Teller, Salt Rheum. Sault Haud. Ringworm, Sore Ears and Eyrs, and other ermotive or visible forms of the diseases caused primarily by the scroftdous infection, the Sarsaparilla is so existent as to be indispensable. And in the more concealed forms, as in Dyspepsia. Dropsy, Heart Olsease, Fits, Epilepsy, Neuralgia, and other effections of the miscular and nervous systems, the Sarsaparilla. through its purifying power, removes the cause of the disorder and produces astonishing cures.

Sarsaparilla, through its purifying power, removes the cause of the disorder and produces astonicing cures.

The sarsaparilla root of the tropies does not by itself-achieve these results. It is aided by the extracts combined with it, of still greater power. So potent is this union of healing virtues, Syphilis or Veneral and Arcaerial Diseases are cured by it, though a long time is required for subdaing these obtained maladies by any medicine. Leucorrhea or Whites, Vierine Vicerations, and Female Biseases in general, are commonly soon relieved and ultimately cured by the invigorating and purifying effect of our Sarsaparilla. Rheumatism and Gout, often dependent on the accumulations of extraneous maters in the blood, have their remedy also in this medicine. For Liver Complaints, toroidity, inflammation, absess, etc., caused by rankling poisons in the blood, we unhesitatingly resonmend the Sarsaparilla.

This medicine restores health and vigor where no specific disease can be distinguished. Its restorative power is soon left by those who are Languid, Listless, Despondent, Steepless, and filled with Nerrous Apprehensions or Fears, or who are troubled with any other of those affections symptomatic of weakness. Many, after taking it for General Debillity, have written us of the youthful vigor imparted to their nervous system, which seemed broyant with that prolife life they thought had departed on the advance of age. Others, whose fountains of life were always strile, acknowledge tacir obligations to it for an obvious change.

Ayer's Ague Cure,

For Fever and Agne. Intermittent Fever. Chill Fever, Remittent Fever. Numb Agne, Feriodical or Elilous Fever, &c., and indeed all the aftertions which arise from malarious much, or milasmotic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zine, not any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the agae districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

Prepared by Dr. J. C. Aven & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world. As its name implies, it does Cure, and does not
