REVISION OF THE LAND SNAILS OF THE  
PALEOZOIC ERA, WITH DESCRIPTIONS  
OF NEW SPECIES.

By J. W. DAWSON.

---

THE Gasteropods as a class occur as early as the Upper Cambrian, but all the earlier known types are marine. That portion of the group distinguished by the possession of air sacs instead of gills (Pulmonifera) has not hitherto been found in any formation older than the Carboniferous, and only four Carboniferous species have been described. In the present paper
