# **OAKVILLE STORE** AN OPIUM CACHE

Fourteen Pounds of the Drug Discovered in J. Urguhart's Place of Business.

## A CONSPIRACY CENTRE

Chinese From Toronto and Hamilton Called There Regularly for Supplies.

A glimpse into an alarming opium conspiracy on the part of Chinamen in the larger cities of the province is afforded by the seizure of a huge lump of the drug in an Oakville drug store following a week's investigation by the provincial police. Fourteen pounds of raw opium destined for the use of a regular clientele from Toronto and Hamilton was discovered in the basement of the premises run by J. Urquhart, and in the trial immediately following a fine of \$400 and costs was imposed.

The scheme brought to light in the conviction displayed signs of co-operation between the middleman and the consumer that would not easily be fathomed by the local police systems, nor arouse the suspicion of citizens in either city. The discovery of the method is largely traceable to the appetite of those who knew where the opium might be obtained without difficulty and who patronized the place in too public a fashion.

Because of the restrictions of the cities

place in too public a fashion.

Because of the restrictions of the cities

place in too public a fashion.

Because of the restrictions of the cities and caution inspired by a number of recent raids it had been decided to have a supply in small suburban places which might be visited in casual manner from time to time. Oakville was the most important of these. Whether there are many others is not known. The first hint of anything unusual occurred in the comment of Oakville citizens on the number of Chinamen who had been dropping into the town for the day and then disappearing. It was remarked that rarely a train passed thru without one or more alighting. When the attention of the provincial police was enlisted a regular watch was kept and the drug store was learned to be a rendezvous.

Inspector Boyd, on entering the premises, went at once to the cellar and discovered a quantity of the drug in a raw state. The proprietor was arrested and under the direction of Crown Attorney Dick of Milton the trial was arranged.

It is unlikely that any of the Chinese consumers will be apprehended. They left no incriminating traces behind them.

# RECORD BROKEN IN DAIRY CATTLE

Milk Tests Begin Today at Guelph's Big Fair—Another Grand Champion.

(Special to The Toronto World). GUELPH, Dec. 5.—If this year's winter fair is not the best in the history of the institution it will not be the fault of Secretary Wade and those who are appointed with him. The utost enthusiasm prevails at the big buildings and every person is busy get-

dairy cattle departments this year.
This speaks volumes for the Guelph Show, especially in view of the dissatisfaction that was rampant among the department. the dairymen last year. There are at the present time 67 dairy cattle quartered in the building, out of 72 entries. The dairy test will begin with the first milking tomorrow morning, all the cows being milked out at 9 o'clock tonight. It will continue until Monday evening, and on Wednesday morning at the latest the results will be announced. Keen interest is being taken roads in and around the yard.

## THE WEATHER

OBSERVATOR1, 1010NTO, Dec. 9.—
(8 p.m.)—A few flurries have occurred today in Quebec and the Maritime Provinces and rain has fallen on the British Columbia coast, but elsewhere in Canada the weather has been fine and the temperature mild.

# **CHATHAM TO BUY** GAS CO.'S PLANTS

Price Fixed Upon is Four Hundred and Ten Thousand Dollars.

FOR HYDRO - ELECTRIC

Agreement to Be Submitted to the Ratepayers for Ratification.

(Special to The Toronto World). CHATHAM, Dec. 5.—At a special meeting of the city council held this afteroom it was practically decided to purchase the gas and electric light plants of the Chatham Gas Company, at the price of \$410,000, to be used as a means for introducing and distributing hydro-electric power in Cnatham. Hon. Adam Beck, minister of power, and his chief engineer, Mr. Gabey, and Engineer Jeffrey were present, and Mr. Back delivered an address.

Two Propositions Made Two propositions were before the council. One to erect a separate hydro-ejectric plant at a cost of \$89,000, and enter into direct competition with the Chatham Gas Co., and the other to purchase the company's plant and business, which includes 1500 h.p. of electricity contracts, for the sum of \$410,000.

The gas company offered to sell the electric end of the business for \$190,000, and the council was about to accept this offer, when Mr. Beck came to the city and strongly urged it to purchase the whole plant and run it as a public utility. The Chatham Gas Co. is the distributing agent for natural gas, and the council was at first afraid to commit the city to a business proposition that would cause it to take a business proposition that would cause

to a business proposition that would cause it to take a chance of the natural gas field playing out. Chatham has first call on the gas, however, as pointed out by Mr. Beck, and this renders it a pretty safe investment Mr. Beek, and this renders it a pretty safe investment.

Amount Set By Commission.

Mr. Beek has had auditors and engineers inspecting the plant of the Chatham Gas Company for some time, and the price of \$410,000 for the whole-plant or \$190,000 for the electric end was set by the commission and the council was advised not to xceed these figures if it made the purchase.

The Chatham Gas Company met both of the figures and then the hydro commission committed itself by recommending that the purchase of the whole plant for \$410,000 would be the best business investment that the city could make. There is a large profit on the gas end of the business, which can be applied either towards paying off the debentures on the investment or towards reducing the general tax rate.

Amount Set By Commission.

As a token of the callway friends in the various offices, Wa!ter Maughan, the C.P.R. official who is leaving the city, was presented with a silver cabinet at a banquet in his honor at the Prince George yesterday evening. Angus MacMurchy, general solicitor of the company, made the presentation, while J. T. Arundel, general superintendent, delivered a short address. About 150 friends were present.

No Better Xmas Gift.

A present that will bring pleasure to the whole household all the time is a Victrola selected from out of the large stock of Ye Olde Firme Heintzman and Co., Limited, 193-195-197 Yonge street.

Who was the guest of honor at a dinner given last night by the graduates of engineering at the School of Practical Science.

hydro commission as it would be if it erected an entirely new plant of its own. A special meeting will be held shortly to ratify the agreement with the Chatham Gas Comapny and prepare a bylaw approving of it, which will be submitted to the electors in January.

BANQUET TO MAUGHAN As a token of the esteem in which he
