An Ottawa despatch says: The Torontos today began negotlations for the purchase of Hamby Shore, star cover-point of last year's champions. The Toronto Club asked the Ottawa Club to set a price on Shore for his unconditional release, and to this request the Ottawa executive have not replied, leaving the offer over for consideration until tomorrow night. Shore, it is felt locally, would add considerable to the defence of the blue shirts and his rushing would help out the line. Shore, besides being a good defence player, is also above the average in scoring. He on several occasion last season pulled the champions out of close quarters by his serpentine rushes for goals. An Ottawa despatch says: The Toron-

Cornwall is called to win the eastern group of the O.H.A. The Denneny boys are the authority for the statement that the Factory Town team is the fastest outfit on skates.

"Gordon Meeking should make us a splendid forward, tho he will take some time to develop," said Coach Smith, in discussing the debut of the Toronto star. "Of course, it's a big jump from the O. H. A. to the N. H. A., and Meeking is so small that he may find it all the more difficult. He shaped up splendidly in practice, and when he learns to work with the other members of the team his play will, no doubt, improve. He entered Wednesday's game under a great handicap."

Harry Meeking made good. He will be a star in the pro. ranks before the season is over.

The Quebec team of veterans are going strong. The whole squad is in shape, and that means a lot.

National Hockey Association captains for this season are: Ottawa, Horace Merrill; Quebec, Tommie Smith; Toron-tos, Harry Cameron; Wanderers, Sprague Clegaorn; Canadiens, Newsy Lalonde. Three are Ottawa Valley products.

Quebec Chronicle: The Toronto papers do a lot of jesting about the N.H.A. pen-alty system. And there is no doubt that some of their remarks are a bit justified. Willard-Fulton Match a team play five against six, as this slows up the game, and six-man hockey is the real speed article. But there is a good deal of truth in the statement that some men, when tired, will welcome a penalty, while a man equally as good replaces nim, thereby making the "penalty" more of a windfall to the offending team, and thus eliminating its usefulness for the very end for which it was created. It is not wholly that suitable remedias cannot not wholly that suitable remedies cannot be found for this that no change is made but it looks as if the N.H.A. rulers were a bit leery about adopting iron-hand methods, and afraid to entrust too much in the hands of referees.

Several of the local teams are due to lose several men. Some players are working out here that don't intend to play this winter.

Eddle Lowery and Trenouth, who were released by the Torontos, may go to Pittsburg to play on Art Sixsmith's team. Both have received offers. Tommie Bawlf is already there.

Vancouver's standing in the Pacific Coast Hockey League has been incorrectly given in eastern papers. The Millionaires were credited with a victory over Portland, but it was Portland that won the second game. Vancouver has lost four straight.

Sprague Cleghorn is a whole team in himself. He keeps the Wanderers at the top of the list.

It was too bad that Coroett Denneny was sick on Christmas night. He might have lasted long enough to offset that Wanderer rush at the finish.

Victoria Colonist: When the time comes for the bockey magnates of the east and the west to get together and adjust their differences for all time and organize hockey on such a basis as to preclude the possibility of future disturbances, it will be well for the club owners and league representatives to endeavor to arrive at a satisfactory arrangement concerning rules.

At present the Pacific Coast Hockey Association plays under, and rightly so,

At present concerning rules.

At present the Pacific Coast Hockey Association plays under, and rightly so, the old seven men a side rules; in the east they have the abbreviated system of six men a side. There is no comparison between the styles.

The seven men a side game is superior and some day the eastern folks are going to realize the mistake of reducing the teams. Another rule in question which should be made uniform is the eliminations of off-sides in centre ice. This rule as applied to seven-man hockey is a good one; it speeds up the play. The coast clubs did not suggest the rule and adopt it without giving it a trial. The magnates, players and public are satisfied that the game has benefited as the result of the new rule. The rule abolishing body-checking, which is also in vogue here, eliminates a lot of deliberate rough play, which some people like to see, but hockey will remain a sufficiently strenuous pastime even with this rule in operation.

Refore, however, the east and west can be a sufficiently strenuous pastime even with this rule in operation. Before, however, the east and west can

get together on a reasonable basis, uni-form rules are a necessity. It is not satisfactory to find a world's series play-ed under mixed rules with the teams starring under their respective rules.

Both the Canadien and the Wanderer Hockey Clubs are in excellent condition with the exception of Odie Cleghorn and Jack Laviolette.
