donif ated the rest of the market, the common shares again showing strength at a further small advance. This stock has now seached the mark called for it when the price stood at 40, but if the usual stock exchange tactics are to be adopted, a further advance will be accorded before the price lifting process is put aside. Nova scotta Steel made an advance of a point in the carly dealings, but readily reacted during the afternoon trading. Throut the pest of the list of speculative shares the charges were unimportant. The New "Dupligraph."

One of the greatest money and 'abor saving inventions of the age in the shape of a duplicating machine has been invented by a Montreal man. It will duplicate any kind of handwriting, sketching, music, drawings, etc., in almost any color of ink at one operation as well as typewriting, and is so simple that a child can operate it. The secret connected with the invention consists in the composition used in absorbing the link and then reproducing copies, and it does away with stencil paper, silk, rollers, and all other expensive supplies of modern duplicating machines. For 100 copies there is no machine in the world that can compare with it for cleanliness and simplicity. It is called the "Dupligraph" and the patent righwts have been secured by Penman & Sprang, 22 Yonge-st. Arcade, Toronto, It is being sold to introduce it at one half the price of its cheapest rival. Go in and see how it operates, or send for price list and full description. do. preferred New York Central

World Office, Friday Evening, Nov. 3, Liverpool wheat futures closed to-day 1/4d over than yesterday, and corn nutures uner. Middling uplands, 11,15; middling guif, 11.40. Sales 680 bales.

Cetton Gossip.

Marshall, Spader & Co. wired J. G. Beaty, King Edward Hotel, at the close of the market:

The cotton market was dominated to-day by continued strength in Liverpool and demand for spot cotton was also reflected in light offerings in the south and larger export movement, The character of the trading was not entirely speculative, tho of course some covering of short interests gave the market its streigth early in the session.

Later on good buying orders from abroad and restricted offerings gave the market a good undertone and brought about a new record for the movement in quoted values.

Weather conditions were not guifavor-

a good undertone and process and new record for the movement in quoted valies.

Weather conditions were not unfavorable over Texas and the forecast is for ligher temperatures and fair weather, with occrsional showers throut the belt.

The smount brought in sight for the week will probably exceed 4.5.000 bales, as against 500,000 last year, but the export for the week will probably fall short of last year, not over 50,000 bales, and to this extent the movement, litho heavier than in the recent past, loses its depressing interest.

The near future of the market promises strength and the option list can quite easily be carried to the highest levels of the year in der existing conditions.

Dun's Trade Review.

Dun's Trade Review.

The recent more fall-like weather at Montreal has led to some improvement in city retail trade in the dry goods line, but travelers in the country districts report that stocks there are xs yet comparatively little broken into, and collections in this line of trade for October have not been as good as last year, tho remittances in other lines rule fair to good. Boot and shoe orders for spring goods are coming in well, but manufacturers have not yet done much cutting of stock, and dealers in leather still report trade as rather quiet, but claim that buyers will find thmeselves up against advanced prices in all grades if they do not speedily make their contracts. The grocery nevennent is a good one, and likely to so continue until the close of navigation; the feature of the week is again another decline of 10 cents a cental on all grades of refined sugars. The active demand in metals to the week is as anticipated in a 0 12 Butter, lb. rolls.......\$0 23 to \$0 26 Eggs, new-laid, doz..... 0 24 0 28 Fresh Meats— Beef, forequarters, cwt.\$4 50 to \$5 25 Beef, hindquarters, cwt. 6 50 7 50
