# Astonishing Efficacy HOLLOWAY'S PILLS OINTMENT.

# KIDDER'S VALUABLE

# HORSE LINIMENT.

WARRANTED to be one of the most valuable articles ever offered to the public for Sprains, Windgalls, Spavins, Stiffness of the Joints, Strains and Callouses of long standing; also Swellings, Fresh Wounds, Galls, &c. &c.

This truly valuable Liniment has been extensively used for the last 20 years, and in no instance has it failed to give satisfaction to the purchaser; it is cheaper than any other article as it requires but a small quantity to complete a cure. Also will answer equally as well for Neat or Horn Cattle.

Prepared only by the Inventor and Proprietor AMES KIDDER, Jr., East Boston. OF Sold by PETERS & TILLEY, St. John.

LADIES', GENTLEMEN'S, BOYS! GIRLS CHILDREN'S and INFANT'S' PLAIN and PLAIN INDIA RUBBER SHOES.

By Her Majesty's Royal Letters Patent.

DELL'S Hydro-Pneumatic Apparatus,
TO ANSWER EVERY PURPOSE OF Warming & Heating,

Warming & Heating,

Manufactured of various sizes and constructions,
as Hot Water Stoves, Carriage Warmers,
Bed Warmers, Spare Red
Affers, &c. &c. &c.

A GREATER comfort or a more decided luxury can scarcely be conceived than results
from the use of these Bed Warmers. Unlike all
other attempts to heat beds by hot water, which
confine the heat to the fect only, and warm the
bed very inefficiently, however applied, in consequence of their warming merely the clothes, the
feet, or whatever immediately touches their surface, DELL'S PATENT BED WARMERS de
pend for their decided advantage over all other
plans ever before introduced, on the fact that they
warm the air as well as the clothes; a difference
so decided and remarkable, that invalids and others
have invariably expressed their astonishment to
find themselves in a complete varm air bath from
the feet to the very shoulders the temperature
appearing to remain undiminished, and the water
still found warm enough in the morning to serve
for washing, which to travellers and early risers is
another advantage in favour of this apparatus; and
will render their use indispensable in Club-houses,
Hotels, Boarding-houses, &c. Professional gentlemen and all persons of sedentary habits will find
this apparatus exceedingly desirable; placed in
their aparatuse and healthy warmith, as no vapour, smell,
or other annoyance can possibly be experienced by
using this contrivance for producing an agreeable
summer leat.

Persons returned from het climates, experienc-

bed.
The invention is already extensively patronised by the medical profession, and is being introduced into Hospitals and other public Institutions for the use of invalids.
In all cold climates abroad, in the Colonies, and in the East Indies, where Cholera, Ague, and like complaints prevail, these Bed Warmers will be found indispensable, and, indeed, must come into very general use in every quarter of the world.

fortility, we drain it of the superabundant waters; in like manner, if we wish to restore the body to health, we must cleause it of impurity.

The Indian Vegetable Pills will be found one of the best, if not the very best, medicines in the world for carrying out the

GRAND PURIFYING PRINCIPLE, because they are a predicted.

because they expel from the body all morbid and corrupt humors, the cause of disease, in an easy and NATURAL MANNER, and while they every day GIVE EASE AND PLEASURE, disease of every name is radidly driven from the pody.

disease of every name is radidly driven from the body.

CAUTION.

The citizens of New England are respectfully informed that in consequence of the great popularity which the above named Indian Vegetable Pills have earned by their astonishing goodness, a gang of counterfeiters are now industriously engaged in palming on the unsuspecting, a valueless and perhaps dangerous medicine, under the name of Indian Vegetable Pills.

This is to inform the public that all genuine medicine has on the boxes

WRIGHT'S INDIAN VEGETABLE PILLS

(Indian Pargadire.)

OF THE NORTH AMERICAN COLLEGE OF HEALTH And also round the border of the label, will be found in small type, "Entered according to Act of Congress in the year 1840, by Wm. Wanger, in the Clerk's office, of the District Court, of the Eastern district of Fennsylvania."

It will further be observed that the printed directions for using the medicines, which accompany each box are also entered according to Act of Congress, and the same form will be found at the bottom of the first page.

The public will also remember, that all wholesell

box are also entered according to Act of Congress, and the same form will be found at the bottom of the tirst page.

The public will also remember, that all who heel the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by
WILLIAM WRIGHT, VICE PRESIDENT
Of the North American College of Health.

and that pediars are never in any case allowed to sell the genuine Medicine All travelling agents will be provided with a certificate of agency as above described; and those who cannot show one will be known as base impostors.

If Persons in this city and vicinity will also be on their guard against purchasing medicine purporting to be the Indian Vegetable or Purgative Pills, of Apothecaries or Druggists, as they are not allowed to sell my medicine, and any composition which they rany offer as such must of necessity be countraited and injurious; therefore never purchase of them.

FRANCE AND PRUSSIA SANDS' SARSAPARILLA

THE fame of this preparation is not confined the limits of our own country, but by its por criul agency in arresting and curing discusse, him on its way successfully into different countries. Europe, as the following unsolicited testimonic from individuals of the highest respectability showing the most conclusive and satisfactory mann. The same happy success has attended its use the which has always marked its course where eyadopted, and diseases have yielded to its herestoring influence which Medical Men of profunskill had pronounced incurable. The most potensimples of the vegetable kingdom are united it in preparation, and the combination is such the one modifies and improves the other, and under the name of Sands' Sarsaparilla, is presented a corpound differing entirely in its character and perties from any other preparation, and many other preparation, and many off science, and the uniform success, which had asserted its use, furnishes proof sufficient to convince every candid and discerning mind of science, and the uniform success, which had asserted its use, furnishes proof sufficient to convince every candid and discerning mind of science, and the uniform success, which had asserted its use, furnishes proof sufficient to convince every candid and discerning mind of science, and the uniform success, which had asserting the sufficient to convince every candid and discerning mind of science, and the uniform success, which had asserted the sum of the sum of the sum of Science, and the uniform success, which had asserted the sum of th

or other annoyance can possibly be experienced using this contrivance for producing an agreeable summer heat.

Persons returned from hot climates, experiencing all the evils of cold, will find the equable temperature afforded by this invention particularly grateful; and all aged or other persons who are martyrs to cold will find their application so simple and effectual that they may place one or more on a couch, or in any easy chair, and thus receive the full benefit of the genial warmth communicated. And in cases of severe cold one of these Bed Warmers, covered with a flannel, and applied to the soles of the feet for two or three successive nights, will be found to give infallible relief. It is a well known fact, that numerous persons who have only purchased, have never since passed a single cold night without one in bed.

One great advantage of these Bed Warmers is, they are so light and portable that they can, without the slightest inconvenience, be carried by persons travelling, who have only to order the Boiling Hot Water to be put in, and the apparatus placed in the bed previous to their going thereto, to ensure a warm and that greatest of desiderat—a dry bed.

The invention is already extensively patronised by the medical profession, and is being introduced.
