Peps is the name bestowed upon a new scientific preparation put up into table or pastille form, which provides an entirely new and effective treatment for coughs, colds and lung and throat troubles.

Did it never occur to you as peculiar that when you have a cough or a cold, or any chest trouble, you should apply medicine—not to your lungs, but to your stomach?

Look at it the other way round.

Look at it the other way round. Suppose you suffered from some stomach complaint—indigestion or ulceration. How strange you would think it if you were asked to take a medicine which had to be breathed in, and which went—not to your stomach, but to your lungs and breathing passages?

Peps—this newest remedy for coughs, colds, and lung troubles—go to the lungs and breathing-tubes, direct. Peps are really pine fumes, and certain highly beneficial medicinal extracts specially prepared by a new scientific process and then condensed into table aform. It is like making a breathable gas solid!

You put a "Pep" on your

able gas solid!
You put a "Pep" on your tongue and let it dissolve. As it does so, the healing essences it contains turn into vapor, and you BREATHE them direct to your lungs and air passages!
Just as the out-door treatment for consumption—the "breathing" treatment—is now admitted to be the only rational treatment, so the "Peps" treatment for colds and ung troubles is the only rational home treatment.

Peps cure catarrh, coughs, bronchitis, sore throat, tightness or aching across the chest, difficulty in breathing, night cough, hoarseness, asthma, laryngitis, smoker's throat, etc. Best for children, because free from opium, morphine, or any poison.

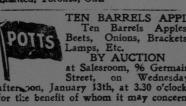

All druggists and stores sell Peps at 50c. a box or 3 for \$1.25.

## THE UNEMPLOYED

Big Brotherhood Formed in Detroit To Handle Problem

The Detroit Chamber of Commerce is endeavoring in a business-like way to solve the unemployed problem in that city. A Big Brotherhood has been formed to care for those who are in distress and are suffering because of their inability to secure work. This brotherhood has two large committees each day investigating cases. Some of Detroit's largest employers are on this committee. On a recent day a force of sixty-four men were necessary to take care of the work and more are being added every day, says the Detroiter. In addition to every available man on the board's staff volunteer interviewers and interpreters are giving their services until positions for applicants can be located. Vice-President Gifford has three sons helping at the work. The police department have assigned two motorcycle patrolmen to assist, showing the stupendous character of the work that the chamber is doing. St. John people have reason to congratulate themselves that the unemployment problem has not reached such an acute phase as it has in Detroit and many other cities in the United States.

Only one country in Africa is now really independent—the mountain kingdom of Abyssinia, which guards the fountains of the Nile, writes Herbert Puck.

Africa is a slave continent. But if there had been a single aeroplane or wireless telegraph in the possession of the richest and most inventive people in existence 2121 years ago, the world would have been conquered by Africa.

Carthage was the name if a city in Africa, but it meant an empire.

But, aside from the shores controlled by the Greeks and Romans, the Mediterranean was a Carthaginian lake, and their ships sailed the Atlantic ocean as boldly as did those of Spain when Columbus came to America.

Situation in Rome.

Get a 10-cent box now.
You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and doy't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

When we read the name Nero, we invariably think of the emperor of that name and his monstrous career, but the

variably think of the emperor of that Carthage had her teeth set in the hroat of Rome. Her great general, Hannibal, had been in Italy with an army for eleven years, and the Romans could not drive him out. Think of the condition of France, let us say, if a German army had been ravaging her cities and fields for eleven years. And think of the despair should it be learned that another great army had come in from Germany, under another great great army had come in from Germany, under another great great army had come in from Germany, under another great great army had come in from Germany, under another great great army had come in from Germany, under another great great army had come in from Germany, under another great great army had come in from Germany, under another great great army had come in from Germany, under another great great army had come in from Germany, under another great great army had come in from Germany, under another great great army had come in from Germany, under another great grea

general.

Such was the situation in Rome that year. Hannibal and Hasdrubal were sons of a great Carthaginian general. Hamilear the Thunderbolt. These sons of the Thunderbolt were greater than their sire. Hannibal's army wasted by eleven years of war, was still too much for the Roman legions, but he could not, unaided, bring Rome to earth. He was in the very south of Italy when Hasdrubal crossed the Alps with another mighty army. All was over with Rome if these two hosts could once unite.

Last of Rome's Rivals.

Last of Rome's Rivals.

As Hannibal lay encamped a few weeks thereafter, messengers came to him with a ghastly object which had been thrown over the walls of his camp. It was a human head. He looked at the swollen lips, the glazed eyes and through all the disguise of putrefaction he recognized that other son of Thunderbolt, his brother Hasdrubal. He raised his head, and, looking long at nothing as a man in a trance, he sighed: "Rome, said fae, "will now be mistress of the mead, and, looking long at nothing as a man in a trance, he sighed: "Rome," said he, "will now be mistress of the world."
