

Hot Shave Water, Or Cold--Which?

Some men can't always depend on having hot water in a quick morning getaway. Some take their shave cold in winter so the skin won't smart from the sudden change outdoors. But cold water means a tearing shave, the razor pulls the beard and scrapes the skin. So no matter what way you manage in winter, cold or hot, you want

TOMMY TEO IS NOT BADLY HURT

Report Here Leg was Broken—He's Going to Adirondack Meets.

Thomas Tebo, son of Joseph Tebo owner of the pavilion at Rockwood Park, was injured in Toronto last Friday morning while working out prior to participating in the Canadian National Championships but did not sustain a fractured ankle as was reported here yesterday. He tore a tendon in his right foot. This news was brought here today by the skaters, who arrived home from the meet. They said he was able to put his weight on his foot prior to their departure from Toronto and that he was going through to Saranac Lake to participate in the National Championships and to Lake Placid to compete in the International.

A company with other St. John boys he went to a small hockey rink to have a workout while waiting for the felling and struck the boards. He was unable to put any weight on his foot and a doctor was summoned. He said the St. John boy would be better in a few days.

Mr. Tebo first received word Saturday afternoon that his son had sprained his ankle and would not be able to participate in the races. He then heard numerous rumors that his son had broken his leg and wired away for full particulars. He received an answer that Walter Gayton was coming home today and would have all the details with him. He also received a letter this morning explaining how the accident had happened. The letter was not clear regarding the extent of the injury and Mr. Tebo was naturally elated when he was informed that his son felt able to go to the big meet.

FIRE ALARMS IN YEAR WERE 232

Chief Recommends Service Truck—Paved Streets Over 12 Miles.

The annual report of the chief of the fire department was presented to the City Council by Commissioner Frink, and they were ordered printed in the public accounts.

Fire Chief Blake reported that during the year there had been 232 alarms, of which 25 were on the west side. Of this number 143 were bell alarms and 87 still alarms. The fire loss for the year was \$170,000. He reported that 2,000 feet of hose was needed this year and there would have to be quite a large amount of repairs to the various fire stations. He recommended the purchase of a service truck.

With the report of the fire chief were the reports of the two Salvage Corps.

The road engineer in his report stated that during the year there had been laid one and a half miles of paving, making a total of 12.5 miles of paved streets in the city and this meant a more careful attention to street cleaning.

HIS PICTURE IS IN N. H. S. BUILDING

Montague Chamberlain, Dead in Boston, Formerly Prominent Here.

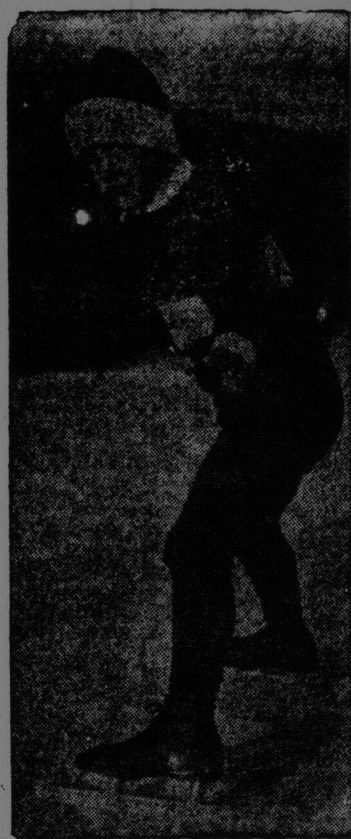

Although he will be remembered only by the older residents of the city, Montague Chamberlain, ornithologist, who died in Boston on Sunday, did much towards the establishment of the fine bird collection which is in the rooms of the Natural History Society here. Mr. Montague was born in St. John in 1844, but had been away from St. John for a great many years. In the meantime, however, he kept in touch of several of his old friends by correspondence.

He held several offices in the Natural History Society while here and was for some time a member of the council of the society. Mr. Chamberlain was a former secretary of the corporation of Harvard University. A large picture of him adorns the wall at the N. H. S. building in Union street.

That many had left off filling their income tax returns until the last minute was demonstrated today by a crowd that gathered at City Hall to place in the hands of the assessors this very necessary document. Mr. Olive reported that more returns had been filed this year than last but until they had been checked off he could not give any idea as to how the values would run with last year. Tonight the time for filing returns expires.

WILLIAM CARSON DEAD IN CALGARY

Member of Large Family Reared in Kings County, New Brunswick.

William Carson, aged 69 years, one of the best known pioneer grain men in Western Canada, died in Calgary on Sunday morning, following a serious operation. He had been a resident of Calgary since 1895. He was born in New Brunswick and went to Winnipeg in 1880.

Mr. Carson was a son of the late James Carson, who lived and reared his family on a farm lying between what were known fifty years ago as Bee and Patton settlements, in Kings County. It was about equidistant from Norton and Apohaqui, one tier of farms back from the Kennebecasis valley.

Three of the sons, John, William and James, went west. William became a prominent grain man in Calgary. James won success in the same business in Winnipeg, and John engaged in farming. A younger brother is Rev. Dr. George Carson of Toronto, editor of the Presbyterian Witness. There were younger brothers and several sisters, for the family was large. James Carson, senior, moved with the younger members of the family to Maine, where one daughter married a man who made a great success of the potato business in Arrostook and eventually removed to California.

Those who remember the Kennebecasis Valley of half a century ago remember the little kirk near Norton where Presbyterians met to worship with the late Rev. James Gray as minister. Here to every service came the Carson family, whose members were later to be scattered across a continent. Their hospitable home is cherished in kindly memory by men and women now past middle age, who were friends and companions of William Carson and the large group of his brothers and sisters, not one of whom now lives in their native province.

LECTURES ON CRUSADES

An excellently prepared and well delivered lecture on the Crusades was given before the members of the A. O. H., St. John division, in the hall in Union street last evening by Joseph Harrington, principal of St. Malach's school. Peter C. Sharkey was in the chair and introduced the speaker and at the conclusion extended to him a hearty vote of thanks which was moved by Thomas Killen and seconded by Charles O'Neill. Before and after the lecture fine vocal solos were given by Miss Perrin. The meeting was well attended.

THREE FOR DRUNKENNESS.

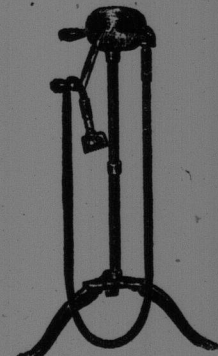

Three men were arrested over the week-end on drunkenness charge. Two of them put up deposits of \$8 and as they did not appear again this morning these were forfeited. The third man was fined \$8 or two months in jail.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I find on my desk each morning great newspapers from the city of Vancouver. The news of all the world is there, as well as the news of a city which hopes to double its population in five years. Through the mountains grain is borne to its elevators and in the harbor steamships load for Europe and the Orient and our own Atlantic coast. When you and I were little boys there was no city of Vancouver. The whole of British Columbia, of which Victoria was the capital, was only credited with fifty thousand people in 1871. Now Vancouver is next to 'Frisco as a Pacific port, and dreams of the time when she will surpass the Atlantic ports. Wonderful— isn't it?"

"It is so," said Hiram. "But they didn't grow out there by settin' still. They told the world what they had. They told Ottawa what they wanted—an' didn't let up till they got it. An' they're tellin' it. They're tellin' the rest of Canada—they're tellin' the Old Country—they're tellin' the States—they're tellin' Japan an' China—an' they never stop tellin'. They're gettin' English money for grain elevators an' smelters. They go right after it. An' they got a lot o' smart Noo Brunswick men out there to help. I guess we better take a leaf out of their book—By Hen!"
