POOL TOURNAMENTS. In the inter-society pool tournament last evening the St. John Baptist team defeated the Y. M. C. A. duo 110 to 75. The winners were Arthur Malette and Roy Spear. The losing team was composed of James McNulty and C. Riley. The K. of C. team, composed of McGovern and Dwyer, defeated the Assumption team, Morrissey and O'Leary, 100 to 67.

The St. Rose's team defeated the St. Peter's team by the score of 100 to 98 in the inter-society pool tournament match shot at St. Peter's club rooms last evening.

## LOCAL NEWS

The Hivada Mission Circle of Cretary church met last night at the parlour and enjoyed an interesting programme. The devotional exercises were led by Miss Edna Austin.

Owing to a misunderstanding regarding the time of the meeting called for the organization of a Civic Community Club, no action was taken last evening by those who gathered at 212 Prince Edward street for this purpose. It was decided to hold the meeting on Thursday evening.

Hon. D. W. Messeraud, Minister of Agriculture for New Brunswick, was in the city yesterday. He had intended going to the Winter Fair at Amherst, but on account of indisposition decided to return to his home. Mr. Messeraud has been suffering from a severe cold for several days.

Miss Ellen Donnelly, 811 Main street, had a narrow escape from serious injury last evening when she fell in trying to get clear of a moving street car at the corner of Douglas avenue and Main street. She luckily fell clear of the track and outside of a slight cut on her temple received no injury.

The heavy rain last night caused a partial washout of the recent fill-in of the excavations made at the head of King street and a West St. John street car went off the track on its way around the corner. At one time ten street cars were stalled near the head of King street and the service was held up for about half an hour.

Miss Grace Auth, a sixteen year old school girl of Weymouth, Maine, was almost instantly killed recently by a special C. P. R. passenger train from this city, according to advice received here yesterday. She was crossing the tracks in the main street of the village with a girl companion. A Maine Central train was on one track and she stepped past it directly in front of the C. P. R. special travelling at express train speed. She was hurled a distance of seventy-five feet and died of concussion of the brain.

The annual meeting of the Ladies' Auxiliary, A. O. H. Fairville, was held on Monday evening in St. Rose's Hall with Miss Mary Ryan presiding. The following officers were elected:—Miss Mary Ryan, president; Miss Blanche

## FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis  
Formerly Technical Electrical Expert For U. S. Government

### Lesson No. 180. THE GROUND ANTENNA.

During the War at several of the Naval Radio stations tests were conducted with an antenna consisting of a long wire on, or a short distance below, the surface of the ground. It was even found that signals could be received very well when an insulated wire was laid along the bed of a lake or the ocean and the wire terminated in the receiving station on shore. An antenna of this type is commonly called a ground antenna. While a bare wire will give fair results the wire should be insulated for maximum results.

It is believed that the front of the advancing waves bends at the surface of the ground and the wave penetrates the ground for a short distance, the amount of the penetration being dependent upon the wave length. The amount of energy received with such an antenna is considerably less than that received with the ordinary type of aerial and for that reason it is necessary to employ an amplifier.

The ground antenna is found to be very directional in its effects, the loudest signal being received when the wire extends in the direction of propagation of the waves. It is often possible to read signals received over a ground antenna when the aerial is rendered useless by nearby thunderstorms.

The length of the wire which should be employed in the ground antenna depends largely upon the wave lengths of the signals it is desired to receive, the longer wavelengths requiring longer wires than is necessary for the reception of short waves. The thickness of the insulation of the wire and the nature of the soil in which the wire is laid also affects the length of the wire to be used for best results.

In average earth, a ground antenna about 75 feet long, is found to operate well for the reception of wave lengths between 125 and 200 meters. For the reception of wave lengths over 6,000 meters a wire about 1,000 feet long may be necessary. A single rubber insulated number 14 wire buried from 6 inches to 2 feet below the surface of the ground is sufficient for practical purposes.

Louder signals are obtained when the wire is buried in wet soil or in water. When the wire is immersed in salt water, a slight increase in depth causes a great reduction in signal strength while in fresh water no appreciable decrease in signal strength was noted up to a depth of 80 feet.

It should be remembered that the ground antenna will not function with an ordinary crystal detector or with a single tube receiver, several stages of amplification being necessary for satisfactory operation of the device.

Tests made with transmitting equipment connected to ground antenna gave fair results but in no case was the range as great as could be obtained with the usual overhead antenna, so there appears to be no advantage in employing this arrangement for transmitting purposes.

O'Brien, vice-president; Miss Agnes Calnan, treasurer; Miss Eileen Malloy, recording secretary; Miss Dorothy Berry, finance secretary; Miss Agnes Cody, chieftain; Miss Blanche Hanlon, gentile; Miss Frances Murphy, mistress at arms.

The concert given by members of the Superior School in Fairville was repeated last evening in the Fairville Methodist Sunday school hall and met with a very gratifying appreciation.

A meeting of the committee to consider the matter of adequate fire protection for Fairville was held last evening in the Temperance hall with Council William Golding presiding. Adjournment was made until Tuesday night.

The Tuxis boys of St. Luke's church conducted a successful debate last evening when "Resolved that Trial by Jury should be Abolished" was discussed. The affirmative was supported by Vaughan Ross, Ronald Morrissey and Cecil Williams, while the negative team was made up of Edgar Adams, Percy Nase and George Green. Rev. A. L. Fleming, of Stone church was judge and decided for the negative.

Havelock No. 7, Loyal Orange Lodge, held its regular meeting last night. The election of officers resulted as follows:—

L. W. Mowry, worshipful master; S. S. Knowles, deputy master; Rev. F. W. Follett, chaplain; John Riley, recording secretary; G. Pettie, financial secretary; E. Cameron, treasurer; J. S. Holder, lecturer; H. Thornton, deputy lecturer; Bruce Weston, inner guard; J. K. C. H. Campbell, H. F. Morrissey, B. Weston, C. Stevens, investigating committee; L. W. Mowry, W. S. Knowles, P. & Purdy, hall committee.

The Carleton Curling Club held an enjoyable smoker last evening in their rooms with a large number being present. Previous to the smoker a short business meeting was held at which fifteen new members were elected. Reports presented at the meeting included the fact that the club will have the best year in its history this coming year. The programme at the smoker consisted of the following numbers:—

Reading, J. A. Gregory, solo; Charles Stachhouse, quartette; F. McMullin, F. Stachhouse, C. Stachhouse, W. J. Grant; reading, E. R. W. Ingraham; box line exhibitions, L. Donovan and "Al" Hogan, also Hogan and A. Shamus; Dr. J. B. M. Baxter was chairman for the evening.

Before H. O. McInerney, Judge of Probates, yesterday the claim of John J. Holland against the estate of the late Kate A. Hennessey was heard. Kelley & Ross appeared for the claimant and Daniel Mullin, K. C., for the administrators. Judgment in the case was reserved. The claimant testified that he had been engaged to marry Miss Hennessey and that he had opened a joint account at a local bank and had given her \$100 to deposit in it. She had given \$10 towards the account. At the time of her death, he said, the pass book was in her possession. Others giving evidence were Mrs. Mary Klerwin and Mr. Humphrey, the latter of the Bank of Montreal. Garnett A. Hennessey, brother of the deceased also gave evidence.

### PRAISE FOR BOYS CLUB.

Boston Restaurant, City.

To the Editor of The Times: Sir—I wish I could come to St. John in 1885 I joined the Y. M. C. A. on Charlotte street. I stayed in it till it went to Chipman's Hill. In all the years I never saw any boys at the association. I used to wonder why. Of course it was for young men, not boys. I can't recall any of the laboring men's sons have an association of their own, and it is likely to be an equal to the club on Chipman's Hill. The Boys Club on City road is non-sectarian, of which fact I am very glad, because in the East End there are many boys both Catholic and Protestant to whom neither the Y. M. C. A. nor Y. M. C. I. appeals. In their own club they are free from restraint they think they would meet in the above association. The Boys' Club put on a two-night

entertainment last week that surprised us all. The whole affair was a most creditable one, with W. Evans and Leo McIntyre as leaders. I consider such exhibition of skill worthy of all praise. Everything was carried out with precision, with the exception of the entertainment. To all those ladies and gentlemen who have kindly given me a line of books for the club could have seen the splendid entertainment. To all those ladies and gentlemen who have been instrumental in bringing to life the Boys' Club, may you have every comfort and joy and may prosper in life to the full. I wish all who are connected in any way with the Boys' Club, but especially those excellent ladies who attend each week, every pleasure in the joyous season that is fast approaching, and a Merry Christmas a Happy New Year.

I remain,  
The Boys' Friend,  
A. TURNER B. HOWARD.

### SAYS CLIENT'S WIFE THREW GLASSES AT HIM

Counsel for G. A. Loomis, Banker, Opposes Her Plea for \$1,250 a Month.

Supreme Court Justice Isaac M. Kapper, in Brooklyn, reserved decision on the application of Mrs. Helen C. Loomis, who resides on Ocean avenue, for \$1,250 a month alimony and \$5,000 counsel fee pending the trial of a suit brought by her for separation from Guy A. Loomis of G. A. Loomis & Co., bankers and brokers. Mrs. Loomis charged that her husband was cruel and brutal and that he had been frequently "night club" on Broadway.

Henry F. Cochrane, counsel for Mrs. Loomis, told the Court that Mrs. Loomis confided to his wife that he had made more than two million dollars in business ventures. H. Francis Dryff, counsel for Mr. Loomis, said his client's wealth had been greatly exaggerated. Loomis is 27. They were married in 1920. Loomis denies the charge of cruelty.

Dryff said he and Loomis visited the Loomis home on Ocean avenue last September to get personal belongings of Loomis and found cigarettes and empty glasses in the room. The telephone rang and Loomis answered it, he said, and a male voice asked for Loomis. Dryff said that on one visit he told Mrs. Loomis her husband intended to bring suit against her and she thereupon picked up several glasses and threw them at him, striking him and cutting his face. He also said Mrs. Loomis persisted in associating with a girl named "Peggy."

### DISARMAMENT CONFERENCE IN MOSCOW HAS FAILED

London, Dec. 12.—The Moscow disarmament conference has failed to reach an agreement and has broken up, says a Reuter despatch from Helsinki, Finland.

### A Gift Thought From Magee's

However many things to wear a man may have hanging in his wardrobe or tucked away in his bureau drawers, it is a safe wager his supply of hats is slim.

A smart new hat always makes an acceptable gift for a man. It is doubly acceptable when it bears the style and character which is built into it.

#### GENUINE VELOURS

are the smartest of winter hats, and satisfy all men  
\$7.00, \$9.00

#### SOFT HATS

in a decidedly complete array of styles, colors, prices.  
\$4.50, \$6.50, \$7.50

#### A DERBY

There are occasions when no other hat is proper and a derby makes a change from the soft felt, too—  
\$6.50, \$8.50

#### A TWEED

He will approve your choice. There's no hat compares with it for all kinds of service—  
\$3.00

D. Magee's Sons, Ltd., St. John, N.B.

### THE NORTHERN RADIO STATION

(Edmonton Journal.) One requires very little imagination to appreciate what the radio must mean to the country north of Edmonton. The development of the latter has had to wait on improved means of communication. The radio, at a comparatively small cost, can keep those who go in there in touch with the world's centre.

In May last The Journal urged on the government that it should establish a chain of stations along the water-way between Edmonton and Dawson. We now learn that such a plan has been formulated. It contemplates the establishing of wireless equipment at Smith, Resolution, Simpson, Norman, McPherson, with a flash station at Dawson. Mr. O. S. Finnie, the administrator of the Northwest Territories, who has been in the north during the summer, has gone on to Ottawa and it is known that he is urging strongly that an appropriation be made in the next estimates for this service. Official in various branches of the government work are in a position to understand the necessity of such a plan. Finnie's recommendation with enthusiasm.

The administration should pay close heed to their representations. No sounder investment of public money could be made. The hope that Canada will become a really great country is bound up with the opening up of its northland. Along the vast waterway between the Dominion of the United States and the Dominion of the Northwest Territories, a source of much wealth and each year attracts an increasing number of tourists of various kinds. Once it is brought into closer touch with the outside world the investigation of its resources will proceed at a much more rapid rate.

The radio offers a great chance to help along this work which means so much from a national standpoint, and it would be a very short-sighted policy on the part of the government not to take advantage of it.

### FATTENED SINCE WRECK WOMAN SUES RAILROAD

Kansas City, Dec. 12.—A Federal Circuit court jury will be asked to determine whether Mrs. Loren Caldwell, a twenty-two year old, asserts she suffered in a Chicago & Alton Railroad crash is responsible for the 876 pounds she says she weighs. She is suing for \$50,000 damages.

She asserts one of the railroad's switch engines struck a motor car in which she was riding, and that in injury to an endocrine gland caused excessive obesity. She says in her petition she weighed 100 pounds at the time of the accident, December 21, 1921.

### CANADIAN BOXING BODY MAY AFFILIATE WITH N. B. A.

Montreal, Dec. 12.—To urge recognition of a uniform code of professional boxing throughout Canada and the rulings of one provincial commission over other controlling bodies in the world, the Canadian Boxing and Wrestling Federation has been organized. P. J. Mulqueen, chairman of the National Boxing Association, was elected president. It is probable that the new organization will immediately get into touch with the National Boxing Association.

Tuberculosis claims a victim every 14 hours in Oregon.

## PLAN OF COLLEGE FEDERATION IS AGREED UPON

Representatives of Maritime Provinces and Newfoundland Reach a Decision at Halifax Meeting—Scheme to be Considered by Parties Involved.

Considerable progress was made yesterday towards a maritime university federation at a conference of the representatives of the universities, colleges and government of the Maritime Provinces and the Dominion of Newfoundland, held in the Provincial Building in Halifax. A tentative arrangement was made whereby the scheme agreed upon will be placed before the universities and governments involved, and, if approved, will be submitted to the Carnegie Foundation, which was responsible for the project, movement toward university federation.

The scheme of federation adopted today as a veritable basis for the final scheme provides for the removal of or setting up in Halifax of the following institutions: Acadia University, Wolfville, N. S.; King's University, Windsor, N. S.; Mount Allison University, Sackville, N. B.; a Presbyterian college at Catholic college, a non-denominational college, and a French-Canadian college.

Central. It also provides for the establishment of a central university, embracing the faculties of arts and pure science, law, medicine, dentistry and applied science and charged with the work of organizing, as rapidly as its resources permit, the faculties of agriculture, pharmacy, forestry, fine arts and education.

The other universities and colleges would form the nucleus of the new university, under the scheme adopted. The right to enter the federation as a non-denominational college, or to merge with any other body or college wishing to set up a non-denominational college, or to give her funds and property set apart for arts to a body or bodies wishing to form the non-denominational college.

What Each Would Give. Under the scheme adopted today, Dalhousie would turn over to the central university all its professional faculties, but would retain all its property and endowments not specially earmarked for arts purposes.

The other universities and colleges involved would turn over the libraries and scientific apparatus to the central university but would retain their professional faculties and endowments.

The constituent colleges would teach, roughly, the first two years in arts. Full courses in the sciences, philosophy, psychology, economics, pedagogy and history, and a full course in the humanities would be given by the constituent colleges.

The approved scheme provides for an interim board of governors and, after six years from the inauguration, a permanent board consisting of the president of the university, ex officio, one person appointed by the board of governors, and one person appointed by the constituent colleges, six elected by the associated alumni of all the constituent colleges.

One of whom shall be a resident of New Brunswick and one a resident of Prince Edward Island, three persons appointed by the Lieutenant-Governor of New Brunswick, Prince Edward Island, and one person appointed by the Lieutenant-Governor of Nova Scotia, two persons appointed by the Lieutenant-Governor of Nova Scotia, New Brunswick, Prince Edward Island, and one person appointed by the Lieutenant-Governor of Nova Scotia.

## A Guiding Note on Furniture Gifts

Window No. 3 features a few of the things that can be done with furniture—the gift that gives twice.

Smoker's Stands in oak, walnut and mahogany as low as \$6.25.

Bridge Lamps, complete, from \$17.50.

Fern Leaf Stands in oak and mahogany, \$11.90.

Closed Top Sewing Tables, solid mahogany, \$13.25.

"Spinnet" Decks in solid mahogany, \$54.

Other ideas are Gate Leg and Tilt Top Tables, Chesterfield End Tables, Separate Chairs and Rockers, Consoles, Tea Wagons including those with tray tops, Chestnut Suites and Chairs. The carvings and fashionings of these separate pieces are sturdy and delicately ornate according to the period of design represented. These include the moderns, the Adams, Italian Renaissance, Jacobean, Cromwellian, Georgian and Colonial.

We are open every evening till Christmas.
