"How much a peck for potatoes?" asked a gentleman in the market on Monday morning. The price was a shilling and he was about to purchase, when a thought struck him. "Wait a moment, my good woman," he said, "I fear these potatoes were picked on Sunday." "No, sir, they were not," she replied; "but, to tell the truth, they grew on Sunday."

GEOMETRY.—The science of geometry had its rise among the Egyptians, who were, in a manner, compelled to invent it to remedy the confusion which generally happened in their lands from the inundation of the River Nile, which carried away all boundaries, and effaced all the limits of their possessions. Thus this invention, which at first consisted only in measuring land, that every person might have what belonged to him, was called geometry, or the art of measuring land.—Bow Bells.

Therapists "by hook and by crook" originated in the fact that Messrs. Hook and Crook, surveyors of London, were arbiters of bounds after the fire of 1666, by which boundary marks were destroyed, and their just decisions rendered resort to law unnecessary.

A Jersey paper describes a man as being "as sociable as a batch of candidates two weeks before election."

The first postal card received at Dubuque was from a lady, and marked "Private."

Harper's Weekly.

Splendidly Illustrated.

NOTICES OF THE PRESS.
The WEEKLY is the ablest and most powerful illustrated periodical published in this country. Its editorials are scholarly and convincing, and its illustrations are full and fresh, and are prepared by our best designers. With a circulation of 120,000, the "Weekly" is read by at least half a million of persons, and its influence as an organ of opinion is simply tremendous. The "Weekly" maintains a positive position, and expresses decided views on political and social problems.—[Louisville Courier Journal.]

Why the Valve Jar is Superior to all Others for Preserving Fruit.

1. Because it is the only one in which the contents can be securely fastened, and hooked, while thus fastened without risk of an explosion.

2. It is the only one that is automatically sealed, therefore, the only Self-Sealing Jar in the market.

3. It is so simple that no skill is required to use successfully.

4. It is securely fastened when placed in the kettle, and being immersed, the fragrance of the contents is confined in the Jar, a more perfect vacuum produced and the handling of the hot jars entirely avoided.

5. It is well known that Fruit Jars which are closed with rigid fastenings burst by fermentation, and the effect upon the closet and surrounding well understood by many housekeepers.

The cover of the Valve Jar being a perfect safety valve makes an explosion impossible, and entirely obviates every difficulty that exists in other fastenings.
