POLICE COURT.

Half a dozen drunks received re-wards of merit this morning. None of them had anything to say with the exception of a man by the name of McLeod, who was found lying and lurk-ing on King Square. This same man had been found half frozen in an alley off Brussels street but a short time ago. He was sent to jail for two months.

The other prisoners were fined the ual four dollars or ten days.

DETROIT, Mich., Feb. 28.—The invasion of
the Dominion of Canada by Americans in
a peaceable way is becoming remarkable.
They are flocking into the dominion from all
quarters, and it is stated on excellent authority that over 200,000 Americans will take
up homes in the Canadian Northwest, during

thority that over 200,000 Americans will take up homes in the Canadian Northwest, during the coming year.

"I do not think the estimate of 200,000 at all too large," and Mr. McInnis, general agent for the Dominion in the United States.

"They are going from all portions of the Canadian Teres are ten families from Merits and our inspector, I should say that as soon as the spring oceas up there will be 360 car loads of settlers' effects enter Canada from the Michigan border. Over fifty cars are spoken for from the Saginaw district, and forty families are going from the neighborhood of Craft, Mich. There will be seventy special trains carrying settlers starting from Kanaza, and the influx to the Dominion from "Why should they leave the splendid grain state of Minnesota to go into Canada". "The only explanation I can give is that these people who are leaving entered Minnesota took up free land when it was to be obtained. They are now selling their lands at a handsome figure per acre, and are going into the Dominion consfortably fixed as to cash with their new farms costing them nothing."

The campaign which closes tomorrow has been the hottest the province has seen for many years. The strong opposition tickets in the field and the splendid support given them shows that there has been a very great change in public sentiment in the last four years, and that the reign of the Tweedie-Pugsley combination is nearly over. The Star hopes to be able to report tomorrow evening in its later editions that the government has been badly beaten all along the line.

BURIED TODAY.

The funeral of the late Mrs. Rebecca Robinson took place at half-past two o'clock this afternoon from her late home, at 57 Exmouth street. Rev. John deSoyres conducted service, and the body was interred in the Church of England ground. Mrs. Robinson, who died yesterday afternoon, was the widow of John L. Robinson and was sixty-six years of age.

DIED AT BEVERLEY.

The death of Enoch C. Stubbert, son of the late Rev. J. A. Stubbert, of Deer-field, occurred in Beverley, Mass. on Feb. 14th. The deceased was a graduate of Acadia College in 1900, and has since been studying at Newton. He leaves a widow, who was formerly Miss Neille Glines, of Beverley, and who has a number of friends in this city.

CIVIC REDISTRIBUTION.

A Proposed Change From the Pres-ent Ward System.

ent Ward System.

At the last meeting of the common council when the matter of the redistribution of the city with a view to a readoption of the ward system of voting was brought up a committee was appointed to look into the proposed change and report at the next meeting of the council.

This committee, consisting of Mayor White and Aldermen Christie, McGoldrick, Maxwell, Baxter, Robinson and Lewis, are meeting this afternoon. The idea is to rearrange the wards, of the city so that each will have as nearly as possible an equal number of voters, and that each district may then select and elect its own representatives for the council instead of all civic voters choosing the whole council as at present.

There are now in all thirteen wards in the city, with greatly varying numbers of electors, and it has been suggested that a reduction be made in the number of districts. If there were six, seven, or eight districts instead of the present thirteen wards it is believed conditions would be improved and at this afternoon's meeting the best possible combination for redistribution will be discussed.

The following table gives the population of each ward at the last census, along with the number of voters who might have qualified in each at the last civic election. The fourth column shows the flumber of voters in each of the districts as they would be found under the division of the city into six districts.

Ward.

Pop. Voters.

Would a government that deserved to be sustained on its record try to raise any other iesue in any constituency?

Mr. Fish, on Mr. Twedie's ticket, is a conservative, and wants all the electors to know it. How's that for federal lines?

Tweedie may be a good enough liberal for Blair, but he is not a good enough man for premier of New Brusswick.

Pugsley had to back out of the Fort Kent Dam scheme, but if he should be attorney general again will make that loss good.

Gloucester will elect three liberals 892 685 211 871 881 884 1715 40.711 9585 958

attorney general again will make that loss good.

Gloucester will elect three liberals. That is sure.—Telegraph. But Mr. Tweedle's Chatham organ is supporting the other three.

If the liberal party as a party endorse Tweedle they endorse all the acts of his government. Can they afford to do that?

Some doubt has been expressed about the result in Kings county. Kings is confidently expected—to return three, and certainly two, supporters of Mr. Hazen.

It is unlikely that either Mr. Tweedle or Dr. Pugsley will be in the next house. At all events, if they are, they will not be members of the new government.

What's the use of talking about Mr. Tweedle as the leader of a government, Does he lead? Why was he afraid to face the electors of this constituency?

The government heelers have been making themselves good fellows with a lot of people during the last week that they hope to be able to look at next week and say: "We bought you." Turn them down.

afraid to face the electors of this constituency?

The government heelers have been making themselves good fellows with a lot of people during the last week that they hope to be able to look at next week and say: "We bought you." Turn them down.

No federal government employe need fear intimidation. The federal government date rot interfere. The fight is not on federal lines. Sir Winrid Laurier has not been heard from in support of Tweedle.

The labor unions have a chance to show their strength. Should they fail to elect their candidates tomorrow capitalists will have another sneer at the value of labor organizations. Make the country recognize the union.

If the tactics of the last election are tried in Victoria ward or any other ward tomorrow, even if a member of the government should be in it, the grainst the Main Body.

Some local manufacturers who want their men to work longer hours for less pay declare that the men who want at bettle living and shorter hours should vote against the fer own candidates. It is easy to see why such men oppose the labor candidates. The labor men are not deceived.

AFTER THE BALLOT BATTLE.

AFTER THE BALLOT BATTLE.

During the last few weeks a great many hot words and unkind things have been said by people on both sides of the political question which is to be settled tomorrow, and when the heat of the battle of ballots is past Saturday night and the flush of victory is a feeling of a short time, the attention of hundreds will be turned to the Grand Ice Masque in Victoria Ring on Friday night. Liberals, conservatives and oppositionists will all be there in the giddy throng; there will be no party lines, no political affiliations, but all will join in the fun with the same spirit.
