Resume of Old Country Sports

Much Speculation Indulged in as to Selection of Team for Australia—Good Athletic Performances Encourage British Hopes for Coming Olympiad.

London, July 13.—Real summer weather has prevailed lately, and as is usual under such conditions, the cricket has been of a high order. Jack Hobbs, England's most famous batsman, was a bit slow in getting into his best form this season, but he has been busy recently. He came into his own by making four centuries in succession which carried him to the top of the batting averages with a rush. His fourth three-figure innings was made against the Yorkshire bowlers at Sheffield, and his admirers were in hopes that he might go on and equal the record of G. B. Fry, who once made six centuries in succession. Hobbs failed, however, as his effort stopped at 70 in the second innings, leaving him just 27 runs short of the 1,000 for the season.

At the close of last week he headed the averages with figures of 60.84, and then came Lee (H. W.), 59.54, Hendren, 58.41; Hearne, 56.41, and Holmes, 53.23. With Middlesex flourishing they became in the first four, the Metropolitan county is going strong, indeed.

Rhodes still shows the way among bowlers with 44 wickets at an average cost of 10.15. Cook, 41 wickets, average, 12.01 and J. F. Bridges, 25, Dicks, average, 12.06, follow.

With the season so well advanced it is now possible to weigh up the chances of the players to gain a place in the M. C. C. team for Australia. Hobbs, Hendren, Holmes and Hearne are almost sure to be included. Hendren also plays football, which may possibly prove some handicap to his going. Holmes is now one of the safest bats in the Yorkshire team, and Australians will probably have the chance of seeing him. Earlier on it was expected that Rhodes would give place to younger men, but he is bowling so well and is such a valuable batsman when required, that the writer fully expects him to be another of the tourists.

Speculation goes on as to the probable captain. If Capt. P. F. Warner were not so liable to break down through ill-health, he would be first choice, but under such conditions another will probably be asked. If the writer had to make the decision he would select the Hon. L. H. Tennyson, the captain of the Hampshire team. He is a good batsman, has had experience of a tour with a test team, and is of the right character to give the best out of players.

How Yorkshire Went Under. It fell to the lot of Surrey to stop Yorkshire's winning career and alter the look of the county championship table. When the southern county opened up with an innings of 305 and then got Yorkshire out for 199, it was clear that the latter were in danger of losing an unbeaten record. Surrey's 305 was a record for the second innings after some lively batting had been seen. P. G. H. Pender scored 50 runs in 20 minutes and hit 21 runs off one over from Rhodes. There were two sixes, one hit sending the ball out of the ground into a street.

When Yorkshire went in again there was just five hours for play, whilst 373 runs were required for victory. Matters went badly for the home side, as six wickets fell for only 27 runs, and though the other batsmen did better, the total stopped at 168, so that Surrey won by 204 runs. The win enabled Surrey to go to the head of the championship table, with a percentage of 84.00, Yorkshire, 82.22, and Kent, 80.00, coming next, each having lost one match so far.

Tommy Burns Talks. Some fluttering in boxing circles has been caused by Tommy Burns telling a gathering of pressmen that he thought Joe Beckett would be lucky if he lasted ten rounds against him (Burns) when they came together next month. Confidence is a great thing and it is certain that Burns is not lacking in this respect. There may be a hitch in the match, as C. B. Coker says that he wants an assurance that Beckett will undertake to meet Frank Moran in September, as arranged. Meanwhile Burns offers to take on Moran himself should Beckett fail to keep to his engagement.

Beckett is one of the silent sort and we are not likely to hear much from him. He will probably be all there, however, when his match with Burns comes along, nor is he the kind to miss when the Moran engagement is due. All the same, it is rather hard on Mr. Coker that, after agreeing to the postponement of the Beckett-Moran match in response to a request by the former that the Southampton man makes another match with Burns.

Naturally one wonders why he feels his hand will stand the Burns fight when he had doubts of it serving his purpose against Moran. It looks as if he did not think the match with Burns would trouble him much.

Anglo-French Match. The first of what is to be an annual meeting between service teams from France and England in a series of eleven matches, was held on Tuesday. A very representative attendance witnessed the boxing, Prince Henry, Viscount Jellicoe, Earl Haig and Lord Desborough being among those who were present. The winners received medals and the Desborough trophy will be held by the nation winning most of the competitions.

The home boxers were successful.

FIRST BIG YACHT RACE FOR AMERICA'S CUP AT NOON TODAY

The Challenger Shamrock IV. Has to Allow the Resultate Seven Minutes and One Second—Lipton Craft Has Much Larger Sail Area—Moderate Westerly Winds is Forecast for Today.

New York, July 14.—Time allowance, a vital factor to any yachtsman, assumed added importance tonight, on the eve of the first America's Cup race of 1920, when it was learned that, in the event of a close finish tomorrow the winner might not be known before Friday.

Announcement by the race committee that Shamrock IV., Sir Thomas Lipton's "mystery ship" must give Resolute, the defender, a handicap of seven minutes and one second because of the challenger's greater spread of canvas was coupled with another announcement that the committee had granted a request by the Irish yachtman's forces for re-measurement of certain of the Shamrock's sails.

As it was impossible to put her canvas under tape today, and the yacht will be racing off Sandy Hook tomorrow, the work may not be done before Friday a day of rest for the yachting fans.

Therefore, should the result of tomorrow's contest hang on seconds, the rival crews must remain in suspense until Friday at least, for any change in sail figures would be reflected in time allowance. This change, however, would be only a few seconds, according to H. DeB. Parsons, chairman of the race committee, who added that the possibility of a reversal in the judge's decision was almost negligible.

Tonight's announcement of the time allowance was made as soon as final figures on the measurements of the two yachts were reported to the committee by official surveyors. The tentative handicap was an upset to experts who had predicted that six minutes or six minutes and a half would be about the figure.

The reason for the handicap in favor of the Resolute is that Shamrock carries approximately 1,600 square feet more canvas than her rival which, on Tuesday, securing eight wins to three by the Frenchmen. The superiority of the English boxers in three bouts for officers was very marked, two of the bouts being stopped in the second round, whilst Capt. Lilly, of the Resolute, was victorious in the third.

The advance of boxing in France has been so rapid that it is safe to predict that our near neighbors will soon improve on their first showing, and future meetings will probably be much more closely contested.

The Golf Rule. Very satisfactory progress has been made as a result of the conference between American and British golfers to consider certain modifications in the rules. Although the unfair stymie has not been abolished, the Royal and Ancient Club is prepared to sanction the introduction of altered conditions by another country.

Later on one may hope that the British authorities will fall into line with America in this matter. It is a pity that the stymie, which deprives the second player from making a record. Moreover, B. may knock A's ball in the hole in trying to beat the stymie, with the result that A gets credit for doing a score he never actually accomplished.

Even better progress was made regarding the English rule that the penalty be a stroke and the lost distance, which is far better than losing the hole.

To a standard ball, whilst some regret will be felt that a ball which will float" was not accepted as a standard, we now know that no more innovations to make longer driving are likely to be introduced. There may be some difficulty in determining what is a 30 ft ball (the agreed standard) but at any rate it is something to have a fixed limit.

Athletics. Recent events have shown that Basil Rudd, the South African Rhodes Scholar, to be in grand form. His 48 3/5 seconds at Oxford on Monday, when he defeated H. Dufel, of South Africa, by four yards, suggests that he is a contender for the world's record. He will probably have G. M. Butler as another great rival in the championship. The latter won the quarter last year in 49 4/5 seconds, and the pair dead-heated for the same distance at the inter-Varsity sports when the time was 49 2/5 seconds. The British record stands at 48 2/5 seconds, by the late Capt. Wyndham Halswelle, at Glasgow, in 1908, and it is quite possible that with three such runners as Butler and Rudd, of England, and Dufel, of South Africa, in opposition, new figures will be created.

Over Hill, the English half and mile champion, is getting into form as he showed when running a mile in four minutes, 23 2/5 seconds at the Civil Service meeting. This is the first time he has run under the 1919 form and make a race of it with the best of the Americans at the Olympic games. Mention of this festival is a reminder that France will have a great middle distance runner at the festival in J. Guillemot, winner of the English cross-country championship. At Lyons last Sunday he ran 1,000 metres in four minutes 2 2/5 seconds, which is equal to a mile in 4 minutes 22 seconds. This suggests that he is another Jean Bouin.

St. George Lost To St. John Vets

Snappy and Well Played Ball Game Caused Lonesome Feeling in St. George.

Special to The Standard.

St. George, N. B., July 14.—Local baseball enthusiasm more or less inspired by the St. George team's recent winning streak was slightly dampened here on July 12th when the G. W. V. A. of the St. John City League defeated the St. George team by a score of 4 to 2. Dow kept the Vets from reaching second until the first of the fourth, when Garnett, scoring. The Vets managed to squeeze in another run in this inning and two in the next. No veteran reached third base after the fifth inning.

St. George scored two runs in the last of the fifth, when Campbell tapped Beatty for a two-bagger to left field. Dow then came to the rescue by walking the homebase over the left field fence for a safe three-bagger, scoring Campbell. Dow then scored on a single to right field by Spear. This ended the run getting for the rest of the game.

The feature of the game was the remarkable twirling of both mound artists. Beatty was tapped for 9 hits and 3 walks, and credited with 9 strikeouts, while Dow, for the locals, was tapped for 4 hits, walked one and had 7 strikeouts.

Other features of the game were the sensational catches of Johnston and Campbell, Johnston capturing Kilpatrick's hot liner about three feet over his head. Campbell made a sensational catch of a broad high liner, which was clean throughout and the teams were well matched.

The return game is looked for with very keen interest both by the players and fans.

The line-up is as follows: G. W. V. A. O'Keefe, s.; Gill, I.; Garnett, c.; Gorman, 3rd b.; Nichols, 2nd b.; Kilpatrick 1st b.; Beatty, p.; Henderson, r.f.; Craft, c.

St. George: Gray, c.f.; Doyle 1st b.; Dewar, 2nd b.; Campbell s.s.; Johnston, 3rd b.; Gordon, r.f.; Cawley, I.F.; Spear, c.; Dow, p.

Umpires: Ray, F. Holland, box; E. J. O'Neill, bases. Attendance 1,200. Time 1 hour 50 minutes.

SHAMROCKS AGAIN WINNERS

In a close and interesting game played last evening on the Government grounds the Shamrocks defeated the Young Africans by a score of 65. The Shamrocks have only lost one game so far out of eleven that they have played. The batteries were: Shamrocks: Colohan and Patterson; Young Africans: Ricketts and Lee.

Bisley Camp, England, July 14.—(Canadian Associated Press)—The South African team today won the historic Kolapore Cup, presented by the Rajah of Kolapore in 1911. The mother country was second and Canada third. The South African team established a lead at the first two hundred yards and though the Canadians did the second range in the same number of shots—365 South Africans increased their lead at the third range—six hundred yards—and finally won by 15 points from the Mother Country team. The Canadian team could not shoot as well as the Mother Country at the last range. The South African team consisted entirely of veteran shots all of whom have been frequent visitors to Bisley. Its victory was, however, thoroughly well deserved. This is the first time South Africa has won the Kolapore Cup.

The team scores at the third range—400 yards—were: South Africa 365, aggregate 1111. Mother Country, 354, aggregate 1093. Canada, 345, aggregate 1086. India, 336, aggregate 1069. Guyana, 327, aggregate 998.

At six hundred yards the South African team maintained their remarkable scoring, the blackboard being a spectacle of contrasts and when four had fired they were nine points ahead of the Mother Country team.

Four-Oared Race Next Saturday

Belyea Crew Accepts Challenge from the Stackhouse Four—Standard Sporting Department Donates Four Prize for the Event.

Hilton Belyea, speaking for the Belyea four-oared crew of which he is stroke, stated to the Standard yesterday that he and his fellow oarsmen were quite willing to accept the challenge of the Stackhouse crew for a race on Saturday next. It will be remembered that the Stackhouse crew did not race Tuesday evening owing to a misunderstanding, they having been informed by some person that the race had been called off. Speaking on this matter yesterday Hilton Belyea said, that the citizens must not look on the Stackhouse crew as having quit from the event, but they were perfectly right in not going in for the race when it was called on as they had rowed the course and were not in as good condition when they were called from Sand Point as was the other crew. He further stated that the Stackhouse oarsmen were good men and a good race could be expected on Saturday.

The Standard Sporting Department has donated four prizes for the winning crew and full arrangements regarding officials will be completed to day as the Stackhouse crew are ready as well as the Belyea crew for the contest. It may be possible that the race will be rowed on Courtenay Bay, but the course will be decided on by the members of the two crews.

Burns Created An Impression

Burns Shows Daily Improvement in Work for Bout.

London, July 14.—The public after some demur due to a doubt whether Burns could get into condition, is beginning to take a real interest in his fight with Joe Beckett next Friday. Canada has something at stake in the bout which will decide whether the Canadian ex-world's champion heavy-weight can prove an exception to the rule which says champions cannot come back. The showing made by Burns during his workouts has opened the eyes of the British sporting fraternity. Although still somewhat on the fleshy side, his general condition is excellent and his tireless activity and excellent footwork have made a good impression. Burns is apparently as good as he was ten years ago in speed, ringcraft, and ability to hit hard. Whether he has his old endurance will be decided on Friday.

THE GREAT IMPERSONATION. As a mystery writer, Oppenheim stands at the head of his class, and in this, his latest book, he has outdone himself in his exploitation of the hitherto unsuspected. — Richmond Times-Dispatch.

The Home Smoke

YOUR wife will welcome your smoking "OLD CHUM" about the house. When supper is over, and you settle down to read or chat, fill up your favorite pipe with "OLD CHUM" and puff away. The mellow fragrance of this choice tobacco makes it Canada's favorite.

Rainfall Postpones Grand Circuit Races

Toledo, July 14.—A heavy rainfall early today caused the postponement of the Grand Circuit races and today's programme went over until tomorrow necessitating racing on Saturday to finish the week's programme.

A heavy rain late today makes it doubtful if the track will be in any shape for the third day's racing tomorrow although Secretary John Jackson was confident that if there was no more rainfall the track would be ready.

Four races are on the programme, the 2,05 pace with seven starters, the Fort Miami \$3,000 trotting stake, 2,08 class with nine starters, the 2:13 trot with six starters and the free-for-all pace with only three starters, Single G. Grace Direct and Samson.

ST. PETER'S JUNIORS TRIM PIRATES

A baseball game of seven innings was played last evening on the St. Peter's diamond between the St. Peter's Juniors and the Junior Pirates of the South End League. St. Peter's won 10-5 after an exciting contest. The battery for St. Peter's was McCarty and Kennedy. For the Junior Pirates, Lawson and Burt. Features of the game were a home run by McCarty of St. Peter's and a triple by Gary. Joe O'Connor was the umpire.

Horse Races

MOOSEPATH
Saturday, July 17

Including Match Race between Peter Farren and Touz \$500.00 Match Race Also Match Race Elsie E. and Ike Parker Class B, five entries. Colt Race, four entries. Races called at 2.30.
