

LOSS OF NEARLY SIXTY MILLIONS ON THE C. G. M. M.

Such is the View of Wm. Duff Expressed in Attack on Policy.

HON. MR. BALLANTYNE CLAIMS A SUCCESS

Sharp Division in Commons on Question of Vote of Interim Supply.

(Continued from page 1)
Hon. W. S. Fielding suggested that the money asked for might be granted by unanimous consent on the understanding that it be applied solely to salaries and wages of civil servants. The opposition had no desire to embarrass servants of the government, who were dependent on the amount which they received monthly. He protested against the introduction of the motion without notice being given to the opposition.

Only Unanimous Consent

Sir Robert Borden agreed that the amount asked for could only be granted by unanimous consent. He emphasized the point that the granting of the interim supply did not in any way prejudice the right of the opposition to attack any item in the estimates. He remarked that, on one occasion when leader of the opposition, he had tried blocking an interim supply bill, with the result that he heard about it from all quarters of the dominion.

Mr. Fielding then raised another point. The House, he said, might go into supply on Thursday and Friday without any delay. But there was a condition attached to that, on those days, the estimates could not be taken up by any department which had not previously been under consideration. A motion of this kind, therefore, Mr. Fielding submitted, could only be adopted by general consent.

On one point the chair ruled against the opposition on another, in the favor and at length the resolution was withdrawn. It will be re-introduced later.

Defends the Course

Hon. Mr. Ballantyne, minister of marine, replied at some length to objections made by Michael Clark (New Brunswick) and Hon. R. Lemieux (Manitoba). Dr. Clark, the minister said, had stated that the amount contracted for in shipbuilding by the government up to and including Armistice Day was \$60,000,000. This was an error. The amount of commitments on that date was \$45,000,000. Of this \$25,000,000 of contracts for ships had been signed and \$16,000,000 had been approved, but not actually signed.

Has Poor Memory

Hon. R. Lemieux had stated that he favored shipbuilding for war purposes only, and that when the Armistice was signed the government should have cancelled all outstanding contracts. The blame for continuing with the building of steamships, Mr. Lemieux had placed upon "the pig-headedness of the minister of marine."

Apparently Mr. Lemieux did not have a good memory. In May, 1918, when he had had ample opportunity to register a protest against the government's shipbuilding programme, he had spoken strongly in favor of the \$20,000,000 appropriation for that purpose.

Mr. Ballantyne defended the service which the Canadian Government Marine is rendering between Halifax and Newfoundland. He stated that the ships on this route were turning in a profit.

ACCEPT WAGE CUT.

Chatham, Ont., April 7.—Employees of the Canadian-Wilson Packing plant who have been on strike since last Monday on account of the 12½ per cent cut in wages will return to work tomorrow morning. The men decided to accept the reduction and go back to work at a meeting last evening.

SIX ARE DIVORCED

Ottawa, April 7.—Six divorce bills were passed by the Private Bills Committee of the House of Commons this morning in the length of time originally required by the principals in each case timely to venture "I will." Two ladies and four gentlemen are to be granted relief, should the House give the bills a third favorable reading.

Boils So Bad HAD TO GIVE UP WORK.

From the days of Job, up to the present time, boils have been one of the afflictions of the human race. All the poulticing and fomenting you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood running out; and the bad blood must be made pure before the boils will disappear.

Backhead Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medicine procurable.

It purifies the blood by removing every particle of bad matter from the system, and when this is done the boils vanish, and you should never be troubled again.

Teeth Punched Out Because He Sneezed

Man Attacked by Stranger Who Claimed He Had Been Insulted.

New York, April 7.—Andrew Pertuso, 60, of 1747 Bleecker street, Ridgewood, was walking near his home yesterday when he was seized with a fit of sneezing. His first sneeze had just stopped, echoing around the corner when a stranger walked up to him and demanded that he quit making so much noise. He sneezed again.

"I'll teach you to sneeze at me," cried the stranger, punching Pertuso on the nose. And when the old man continued to sneeze the stranger hit him again, knocking out several teeth.

Later in the Glendale station, where the stranger had been taken under arrest, he described himself as Joseph Sage, 40, of 1719 Hilarad street. Magistrate Doyle in the Jamaica Court committed Sage to the observation ward of Kings County Hospital, and he was taken there in a straitjacket.

"Anybody hurt in the wreck?" "One gentleman, I believe."

"None broken?" "I think it was his heart. He sat down by a leaking suitcase and shed tears."

Finally I went to a doctor, and he treated me for several weeks, and without benefit. At last a friend told me of Backhead Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

Implement Makers Oppose Standard Parts

Big Companies Declare It Would Rob Industry of Its Greatest Impetus.

Ottawa, April 7.—The standing committee on agriculture and colonization met this morning to consider a report of the sub-committee on standardization of parts of agricultural machinery and to meet a delegation of manufacturers. The Massey-Harris Company president already deplored any such legislation as was proposed as it would be a retrograde movement and tend to check that initiative which has developed the agricultural implement to so high a point.

Mr. Upson, of the International Harvester Co., said the statement of the Massey-Harris Co. fairly represents the case.

CREW STILL ON SHIP

Halifax, April 7.—According to a radio from Captain Finlay, of the steamer Royallite tonight, he has decided not to take the crew off the steamer impounded on Bonaventure Rock, until tomorrow. The wrecking steamer, the Magpie, which has been ordered to the scene of the wreck, will not leave here until tomorrow morning.

Irish Raiders Robbed Bank And Post Office

Dublin, April 7.—Dublin Castle tonight reported that in midnight Wednesday morning men held up the manager and the assistant manager of the Irish Bank in Charlestown, took from them the keys of the safe and made off with 5,000 pounds sterling. Simultaneously other persons raided the Charlestown post office and took away all the letters except those that had been registered.

Wife Cites This as Cruelty in Suit for Separation from Husband.

New York, April 7.—For the first time since the original bell mouthed brass horn boomed it way into prominence as the fronts of all well appointed automobiles one of the instruments was named yesterday in the Supreme Court, Brooklyn, as a means whereby cruelty is alleged to have been administered. In a complaint in an action for separation from Wm. J. Bowman, accountant, with offices in the Woolworth Building, Mrs. Hazel M. Bowman, of 475 Monroe street, that borough, mentioned the tooting of the horn of Mr. Bowman's machine and made it the basis for allegations of cruelty.

While she and Mr. Bowman were living in 1478 East Ninth street, Flushing, Mrs. Bowman complained, Mrs. Bowman charged that following a trip around the automobile horn, disturbing the neighborhood. Aside from the charges concerning cruelty as it comes from the mouth of a horn Mrs. Bowman charged her following a trip she made to Buffalo her husband, refused to let her return to their home, notifying her to that effect in a letter.

Night Honking of Auto Horn Alleged

DANCED WHILE AWAITING DEATH

Bride Took Poison and Then Danced With Friends Until End Came.

Kalamazoo, Mich., April 7.—While the deadly poison, which she has swallowed slowly drove life from her frail body, Mrs. Nova Fraser, 18, a bride of a few weeks, performed a veritable dance of death in the midst of a company of invited friends here last night. At length the girl swayed and fell dead before her terrified guests.

Excusing herself, she went to her room and took a few grains of strychnine. She returned to her friends a moment later and chatted on for a sent through his attorney. Another letter sent through the attorney, she alleges, directed her to consult the lawyer.

Mrs. Bowman applied for \$75 a week alimony and \$300 counsel fees pending trial of the action. Mr. Bowman answers the suit with a counter suit, alleging misconduct by Mrs. Bowman and an unnamed correspondent in Madison, Ill., and asking for a divorce.

CLOSE GUARD ON PRISONERS.

Cork, Ireland, April 7.—Nine survivors of the hunger strike conducted for a time in the Cork jail by Sinn Féin prisoners last autumn, but which was abandoned when the prisoners realized its futility, have been removed from the jail to the detention barracks connected with military headquarters. This step was taken by the authorities because of the sensational attempt about two weeks ago to rescue some of the men.
