TRIAL PROVES ITS EXCELLENCE.—The best testimonial one can have of the virtue of Dr. Thomas' Electric Oil in the treatment of bodily pains, coughs, colds and affections of the respiratory organs, is a trial of it. If not found the sovereign remedy it is reputed to be, then it may be rejected as useless and all that has been said in its praise denounced as untruthful.

The Call of Duty.

A tribute to the late D. W. McKellar.

With childish prattle, sweet and clear,
With willing hands and eager feet,
With sunny face and happy smile,
With loving heart and merry words,
He tried to do his duty.

The years passed by, a call he heard:
"Do unto others as ye would—"
No question asking as to why
His lot had here, at home, been cast,
With cheering word and helping hand,
Again he tried to do his duty.

Another call then reached his ear:
"Go ye into all the world—"
His answer was in deeds, not words;
In khaki suit, with musket belt,
How here again, with heart and hand,
He tried to do his duty.

Another summons came to him:
"England expects that every man—"
Again without a thought of self,
In khaki suit, with musket belt,
He answered it, with quick response,
And tried to do his duty.

But then another challenge came,
That one which all must some day meet,
His Master's own "Well done!" he caught,
No fear had he of coming death,
But whispered, ere the sun sank low:
"I tried to do my duty."

Worms, by the irritation that they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

New Garage at Bothwell.

Reld Bros., of Bothwell, the well-known firm who have secured the district agency for the Chevrolet, have just completed a new cement garage at Bothwell. It is a handsome and convenient building, 40x40 feet, with large front and rear doors for driving right through. It has large plate glass windows on either side of the front door, and sufficient other windows to well light every portion of it. The building has a repair department where a stock of repairs for the Chevrolet will be kept on hand. There is also an apartment for cleaning cars for customers and tourists. A general garage trade catered to, and the most satisfactory service aimed at. Visit our salesroom and see the handsome new Chevrolet cars now on display, 9-4.

Have you tried Holloway's Corn Cure? It has no equal for removing these troublesome excrescences, as many have testified who have tried it.

The Empire's Call to Ontario: "ECONOMIZE"

Lloyd George

"We are fighting Germany, Austria, and Italy, and so far as I can see the enemies of these three are the enemies of the British Empire."

Lord Kitchener

"The men who have recently joined the Colours are doing their utmost to prepare themselves for active service with the least possible delay. This result can only be achieved if by hard work and strict economy they keep themselves thoroughly fit and healthy."

Admiral Jellicoe

"In the Navy there are three qualities upon which efficiency mainly depends. They are discipline, straight shooting, and endurance; and these three qualities are inseparably connected."

Baron French

"There is no doubt that the work which the Royal Army Temperance Association carries on makes men infinitely better soldiers and better men. If men want to see regiments, battalions, squadrons, batteries, smart and efficient, they must practice these great qualities of self-control and self-discipline."

The existence of the British Empire depends upon the outcome of the War. All our resources must be thrown into the scale.

The Empire's call is for men, munitions, food, clothing, and, above all things, MONEY. We are being called upon to give our millions to carry on the war. Sir Geo. E. Foster has stated that the Dominion Government might even ask for a Domestic Loan of \$300,000,000. It is only a few weeks ago that Canadians subscribed over \$100,000,000 to a War Loan.

These facts bring right home to us that this is, as Premier Asquith stated, "A War of Money as well as Men."

Sir Robert Borden, Sir Thomas White, Finance Minister, and other prominent men have emphasized the necessity of economy.

Conserve our wealth. Cut down expenses. This is what we must do.

Something to Think About

Did you ever seriously think about the millions of dollars expended annually for alcoholic beverages in the Province of Ontario?

As nearly as can be estimated from figures, based on Dominion Government returns, the consumption of alcoholic beverages in the Dominion in 1914

was \$103,049,129. Assuming that Ontario, whose population is one-third of the Dominion, consumes one-third of the alcoholic beverages, her share amounts to \$34,349,709.66. Let us say \$33,000,000.

In other words, Ontario's Annual Consumption of Alcoholic Beverages represents the cost of—

1st. Rifles, Machine Guns and Field Guns for an army of 690,523 men on active service for a period of 12 months.

2nd. Or Accoutrements, Camp Equipment, Harness and Saddlery, Transport Vehicles, Signalling and Telephone Equipment, Tools and Miscellaneous Requirements for 1,269,231 men at the front.

3rd. Or one year's Clothing and Necessaries for 830,000 men.

4th. Or Rations, Subsistence or Money Allowances for 226,027 "boys" on active service for one year.

5th. Or the Canadian Government's Separation Allowance for 117,773 dependents for the entire year of 1916.

The foregoing figures are based on the war estimates of the Department of Militia and Defence for 1916-17, as published on December 31st, 1915, in The Toronto Globe.

Eliminate This Expenditure

The Citizens' Committee of One Hundred believes that as a war-time measure, if for no other reason, this colossal expenditure for alcoholic beverages in Ontario should be eliminated. The Committee also has every confidence that the Provincial Government will move in this important matter as rapidly as public opinion will support them.

The function of the Citizens' Committee of One Hundred is to organize, crystallize and give expression to the present state of public opinion on the question of prohibition. The Committee believes that it can demonstrate to the Government that Ontario is overwhelmingly in favor of prohibition. The people will shortly be given the opportunity of signing a petition for presentation to the Government.

The Citizens' Committee of One Hundred is the executive head of this big new prohibition movement. It represents the whole Province.

It numbers men of both political parties—men who welcome this chance to work for prohibition now that it has been taken out of politics—earnest men who are working together for the common good.

The public, and this includes those living in DRY municipalities, are urged to join hands with the Committee and insure the success of the movement. Doing so will show that you appreciate the benefits of prohibition in your own municipality and add great strength to the Committee's campaign.

If you live in a Local Option municipality your signature to the petition is just as urgently wanted as it would be if you were under license. Province-wide prohibition would not only confer a benefit on people living where Local Option does not prevail, but would also help to enforce the law in Local Option municipalities.
