

A Wealth of Furniture Suggestions

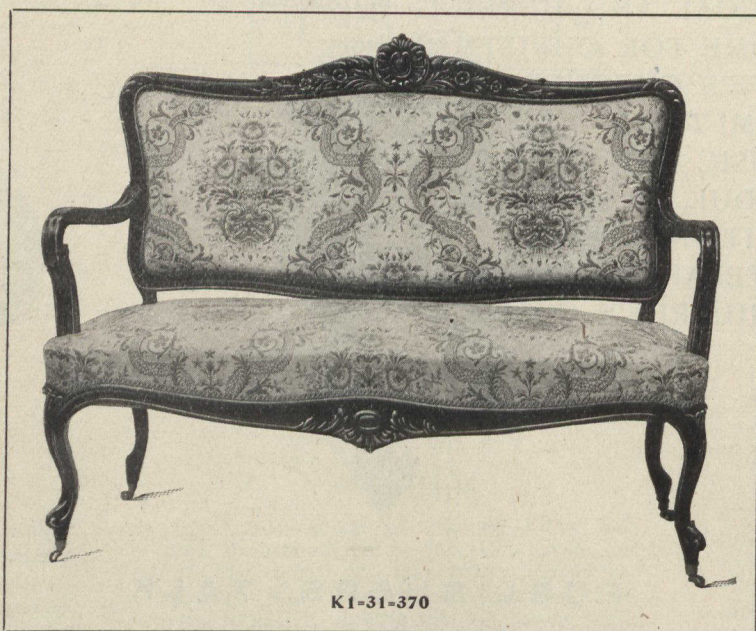

will be found in the new
Household Furnishings
Catalogue. Write for it.

¶ This is to tell the story of Good Furniture — a story that is ever interesting to the housewife. What house, be it cottage or mansion, has its full complement of furniture that decorates, that dignifies? There is always a nook or a corner for another piece.

¶ That's why we illustrate these pieces of prime goods; that's why we have issued our new Household Furnishing Catalogue of the most comprehensive array of first-class furniture, draperies and floor coverings that has been offered you.

¶ Every piece has the material and finish that is only produced from the genuine fabric or wood by expert work-people. No article is accepted from the factory that will not pass the keen scrutiny of the examiners. Besides, buying direct from the manufacturers and saving intermediate expenses, the price is lower.

A fine piece of
furniture always
gives a touch of
luxury to the
room. ∴ ∴
