OFFICE OF THE PRIME MINISTER  
Elections - Gen. Elec. 1950  
MEMORANDUM Vol 11 - Enemy Propaganda

Mr. Steney

George Hambleton  
brought this in. He got  
these samples of German  
Radio news from the  
Radio Division of Transport  
where they record all  
such broadcasts. He thought  
this might be a worth-  
while source of information  
as to how Germany is looking  
at or misrepresenting events  
in other countries. This is  
not being watched from  
the Canadian point of view  
at present. He would be  
glad to take it on if the  
Govt thought it worth while.
