Land For The Settler

160 acres of land convenient to Railways in Northern Ontario's great Clay Belt for each settler. The soil is rich and productive and covered with valuable timber. For full information as to terms of sale and homestead regulations, and for special colonization rates to settlers, write to

DONALD SUTHERLAND,
Director of Colonization,
Toronto, Ontario.

HON. JAMES S. DUFF,
Minister of Agriculture,
Toronto, Ontario.

"EASTLAKE" METALLIC SHINGLES

will prevent such losses—they are LIGHTNING PROOF—an absolute protection for your crops and implements. "EASTLAKE" SHINGLES are the EASIEST to lay, and cost less than a wooden roof equipped with lightning rods. A Metallic Roof saves you money—it reduces your insurance rate and remains IN PERFECT CONDITION for a lifetime.

Can you afford to take these chances?

Read these clippings—all taken from the same paper—the result of an electrical storm.

LOSSES BY LIGHTNING.

BARNS BURNED IN DIFFERENT SECTIONS OF THE COUNTRY.

Farmers Lose Live Stock and Crops
—Planting Mill at Niagara Falls and Large Stock of Lumber Destroyed—Other Fires.

(Special Despatch to The Globe.)
Lindsay, Sept. 15.—A more than ordinary electric storm, doing considerable damage, passed over this section this morning at about 1 o'clock in the rural districts. Several barns were destroyed by fire from lightning. Among others the following have been reported: The barn of Nicholas Crisp containing the season's crop, owned by Mrs. Shea, total loss; Wm. H. Skuce of Mount

Another Barn Burned.
St. Catharines, Sept. 15.—(Special.)—Lightning struck and set fire to the barn of John Hartman on the line between Louth and Chedoke, about a mile north of Vineland on Tuesday night. There was a big electrical storm in this vicinity. The barn was entirely destroyed, with its contents, including two valuable horses. Most of the implements passed to be outside the building. Mr. Hartman had recently cleared \$1,000 of \$1,000. The loss will be a storage for crops and stock.

At least one-third
lighter draft
Genuine
Kemp
Manure Spreader

You can only buy one manure spreader with the Reversible, Self-Sharpening, Graded Flat-Tooth Cylinder—and that is the Genuine Kemp. Because of this Graded Flat-Tooth Cylinder the Genuine Kemp is at least one-third lighter draft than any other spreader.

There is less friction on the Flat-Tooth Cylinder, because the teeth are wide and graded. On that account only one-third as many teeth are required, which reduces the friction when the manure is passing through the cylinder.

The square or round teeth on ordinary cylinders are not wide enough apart and the manure backs up, chokes cylinder, causing heavy draft.

The manure cannot back up against the flat teeth, and because the flat teeth are graded they will handle and thoroughly pulverize all kinds of manure from the clear gum to the strawy material.

There are many other exclusive improvements on the Genuine Kemp. Our big catalog describes and illustrates them fully. Send a copy and learn some new facts about manure spreaders.

There would be twenty times as many manure spreaders in use in Canada today if farmers realized the economy of spreading manure with the Genuine Kemp. The Genuine Kemp will pay for itself faster than any other farm machine.

But send us for catalog D. That's your first step. We are not selling agents. 62
