Let FROST FENCE Replace Your Rail Fences

EVEN yet, one sees a great many old rail fences throughout the country. These old-style "snake" fences right at the present time use up hundreds and hundreds of acres of ground, which might otherwise be put to good use.

JUST examine carefully the above picture, and do you not wonder how it is possible that these rail fences are still throughout the country, when neat, land-saving and substantial wire fences can be erected for such a reasonable amount. If, on your farm, you have any fields not fenced in the improved way, will you not consider seriously the question of putting up a nice wire fence?

FROST FENCE FIRST

YOU will notice the illustration of the FROST HOLD-TIGHT LOCK. This is the binding or lock used where stay wires cross laterals. This lock is much superior to any other woven fence lock, and holds securely without kinking the lateral of running wire, thus weakening it. There is only a slight kink in the stay wire, and the general appearance is as neat as could possibly be wished for.

The FROST "hold-tight lock"

If you have not examined this lock closely, we will be very glad to send you sample, so that you may put it to some good hard tests.

FROST FENCE is all completely made in our own mills. We are responsible for it from beginning to end, and when we tell you that there is quality in the wire and the workmanship we are entirely responsible.

You will find a made-up fence just as neat in appearance as shown in the above illustration, and the lasting qualities are there also, in fact, FROST FENCE will stand wear and tear that would rip other makes to pieces.

We have a full line, not only of woven wire fences, but all wire products, as well as farm gates and ornamental gates; also fancy fences made from woven wire or angle iron. If you do not know a near-by agent, kindly get in touch with us direct.
