Now is the time to book your orders for young pigs for May and June delivery. A few good young boars on hand.

### Gossip.

A teacher of a class was disturbed by giggling among certain boys, and called upon one of the culprits to tell him the cause. "Please, sir," responded the lad, "Turner says he knows of a baby who was fed on elephant's milk and gained ten pounds a day." "Turner," said the teacher sternly, "you should not tell lies." "But it's true, sir!" rejoined the pupil. "Whose baby was it?" "The elephant's, sir," replied the lad.

The Gully lies along the shore of Lake Ontario, between Cobourg and Grafton, on the G. T. R., and in the vicinity of The Gully P. O. lives Bertram Hoskins, a very enthusiastic breeder of Holstein cattle and Tamworth hogs, whose advertisement runs in the "Farmer's Advocate." He has recently strengthened his herd by adding a choice young bull to the list in Queen De Kol's Duke, dam Queen De Kol (imp.), who has a record of 80 lbs. of milk per day. His sire is Princess Yonintje Clothilde De Kol 28784, whose dam's record is 10,072 lbs. milk in one year, 21 lbs. 10 oz. butter in 7 days. A grandly-bred young cow in Emery Queen De Kol has also been added recently, dam Emery Queen, with a record of 84 lbs. of milk, a winner at Toronto and Ottawa. With the breeding that was in the herd previously, this addition makes it one of no mean standing. Mr. Hoskins intends in the near future to do some official testing in his herd. The Tamworths are of the most approved type and breeding. A draft from this herd was shown at the Dominion Exhibition at Winnipeg, and the Canadian National at Toronto in 1904, and won a goodly share of the honors against strong competition. At the time of our visit we noticed a few young boars that were for service that should give a good account of themselves. There were also some nice litters sucking, from which Mr. Hoskins expects to get his young show stuff for the coming show season. If our readers want such, they should see his advertisement, and write for prices.

### IMPORTANT CLYDESDALE SALE.

The great auction sale of 48 imported Clydesdale mares and fillies advertised in this paper by Mr. W. D. Flatt, of Hamilton, Ont., to take place in that city on Wednesday, May 17th, should personally interest farmers all over the country. That there is a great scarcity of good breeding mares is acknowledged by all. Buyers would gladly pay big prices now for good big, heavy horses, but cannot find one-half the number the market would take at prices that would pay farmers well for raising them. No farm stock is more profitable than a Clydesdale mare or a pair of them that will do their share of the farm work and raise a colt every year; and their colts, if well handled, will do considerable work at two years old, without hurting them in the least. The mares and fillies in this importation have been selected by the best judges in Scotland under instructions to secure the best in breeding and quality, combined with good size and action, and, though they are in thin condition, having been wintered roughly, as is the custom in the Old Country for the best development of feet and legs, they will be in the best possible condition to go on the grass and improve, or to go to work and earn their living and to be bred this season. And their not being fitted in high condition will be in the buyer's favor at the sale, as it goes without saying, that if well fitted they would bring much higher prices than they will in a rough-and-ready condition. The time intervening between now and the sale date is so short that it may not be possible to get the catalogue out in time to reach all applicants before sale day, as the mares will hardly reach Hamilton before the 8th, but this need not keep anyone from attending, as the mares will all be registered, and are bred from high-class sires, whose breeding is the best. Seeding being well over, farmers can surely spare a day at this season to attend this sale, and see a useful lot of young mares sold, such as the country needs more than almost anything else in the line of farm stock. If you have not the cash on hand, do not hesitate to come if you want to buy, as, no doubt, satisfactory arrangements can be made in that respect. Remember the date, May 17th, and plan to attend the sale.

## Potash as Necessary as Rain

The quality and quantity of the crops depend on a sufficiency of

# Potash

in the soil. Fertilizers which are low in Potash will never produce satisfactory results.

Every farmer should be familiar with the proper proportions of ingredients that go to make the best fertilizers for every kind of crop. We have published a series of books containing the latest researches on this all-important subject, which we will send free if you ask. Write now while you think of it to the

GERMAN KALI WORKS, 98 Nassau Street, New York.

## Improved Chester Whites and Tamworths

From this herd have been winners at leading exhibitions of Ontario and Quebec for a number of years. New importations, direct from England, will arrive in May.
