## Bruce's Giant White Feeding Beet

Leaders at all tests at the Ontario Agricultural College, Guelph, since their introduction. These grand Feeding Beets introduced by us in 1900 combine the fine rich qualities of the sugar beet with the long keeping large size and heavy cropping qualities of the mangel. The roots are clean and tops small, white flesh, solid, tender and very sweet, and on account of the bigger part of length growing out of the ground they are easily harvested. They will outyield all the other kinds of Sugar Beets and Mangels. The roots are the largest, handsomest, most uniform and cleanest of all Sugar Beets, and this, combined with their great richness and easy harvesting quality makes them the "beau ideal" of a root for the farm. To show what a grand root we have and how it is capturing the trade, we give our sales—1900, 43 lbs.; 1902, 1954 lbs.; 1905, 4327 lbs.; 1907, 9800 lbs.; 1908, 15,122 lbs.
