

A WARNING

All prospective separator buyers and others interested are advised to investigate the statement of any separator manufacturer claiming to have received an award of merit for his separator at any Fair or Exhibition in Canada in 1909 or any previous year. This can be done by addressing a letter to "The Manager" of the exhibition at which the award is represented to have been made and asking for the facts.

By adopting this suggestion many dairymen will be prevented from becoming the dupes of unscrupulous agents and manufacturers who have in the past claimed awards where none were made.

MINERAL SURFACE - NEEDS NO PAINTING

A MATITE roofs need no painting. The owner need never look at them; they take care of themselves. They are "no-trouble" roofs. They present to the weather a real mineral surface against which storm and wind and snow are absolutely powerless. This surface does not require constant painting like the smooth surfaced or so-called "rubber" roofings. The mineral surface is far better than paint.

Of course before Amatite came, the "smooth surfaced" roofings were the best kind to buy. Now that Amatite has been invented and thoroughly tested by years of use, painting a roof is wasteful and unnecessary. The cost of painting a "rubber" roofing from year to year will soon cost more than the roof itself. That is why everybody who knows about roofing is buying Amatite nowadays. *It needs no painting.*

Amatite is easy to lay. Anyone can do the work. Large headed nails and liquid cement come free with every roll.

We shall take pleasure in sending you a sample of Amatite with our compliments upon request.

ADVANTAGES OF THE "NEVER-FAIL" CAN

You have no oil valves or pump to get out of order, no faucet to leak and drip. You do not have that disagreeable odor of oil and gasoline in your rooms when using this Can.

You need not be afraid of an explosion if you use the "Never Fail" Can.

You do not have oil all over your hands, lamp and floor, when using a "Never Fail."

Your oil and gasoline bills will be one-third less when using one of these cans, as they are air-tight, allowing no evaporation.

It is the only Can wherein gasoline may be kept with any degree of safety.

Ask your dealer for a "Never Fail." Take it home and use it, give it a fair trial; then, if not satisfied, take it back and demand your money. Can you ask any more than this? Will you not give it a trial on these terms?

Will take all the oil out of the can.

Will run the oil from lamp back into Can.

Your money back if not satisfied.

If your dealer can't supply you, write us.
