Gold Commissioners, Recorders, Etc., Cannot Hold Claims.

It Has Been Made by the Newly Appointed Minister of Mines-A Meetto Be Held Today.

Hon. J. Fred Hume, the newly appointed minister of mines, has issued instructions barring gold commissioners, mining recorders and their employes from ception will be allowed is in the case of mineral properties already owned by the be filed at once with the minister. The officials affected by the new ruling will ses except to protect the properties they already have at the time the ruling went into effect. Gold commissioners will not affairs of any company in which they or any of their employes hold shares.

A RICH PROPERTY.

A High Grade Copper Proposition Located on Dog Creek.

A syndicate, composed entirely of the Mountain Chief claim, a Dog creek charge. property with an exceptionally good showing for the limited amount of development done. The outcrop is large and well defined. In sinking four feet about 10 tons of ore were raised, which is as rich as any copper ore yet seen in Kootenay. The rock is mostly peacock and grey copper and solid pyrites.

Some time ago Mayor Wallace, Alderman J. S. Clute, Police Magistrate Jordan and David B. Bogle organized among G, by Charles Fondey, which was well themselves a syndicate to purchase a good piece of mining property. Mr. Bogle was the prime mover in the matter and after diligent search heard of the Mountain Chief. He then inspected the property and found it to be satisfactory in every respect. Mr. Bogle's opinion is backed up by a favorable report made by J. Edwards Leckie, M. E. Yesterday Mr. Bogle returned from the adaptation of the hymn, "Come Unto has just closed, through its secretary, expert.

Me," and was cordially received.

C. E. Gault, a contract with James D. cluded arrangements for its purchase on "Salve Regina" was well sung by W. behalf of his syndicate.

The property will be incorporated within the next two weeks as the Golden Gate Development company. There will be no treasury stock, however, on the market as opposed to promoters' shares. The proceeds of a portion of the sale will be devoted to development and others to the purchase.

A Mistatement Retracted.

The Saturday number of the Toronto

or nothing, on the public along with treasury stock, and under the pretence that the sale will go into the development, when they really go into the promoters' pockets. At the price at which the stock is now selling, treasury stock would produce only six or seven thoudevelop any mine in this camp.'

The Old Gold Quartz and Placer Mining Co.

Capitalization 1,500,000 Shares, Fully Paid and Non-Assessable. 500,000 Treasury Shares. Par Value \$1 Each.

A Grass-Roots Proposition. One Hundred Dollar Ore on the Surface.

The officers of the Old Gold Quartz & Placer Mining company take pleasure in announcing to the public, that they have completed the purchase of the famous Silver King and Silver Queen properties of the Lardeau-Duncan country, and that the same have been amalgamated with the already promising properties of the Old Gold company. The Silver King and Silver Queen have two well defined and highly mineralized ledges running through the entire properties, each being over five feet in width. A number of assays have been made from the property, every one of which shows over \$100 in value and one reaches the magnificent sum of \$135.75. Average taken assays across the entire ledge give values of 102-37.

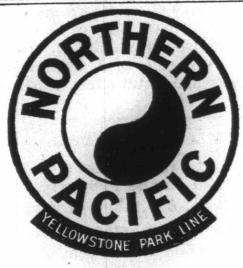

They are located only about one mile from the rich Gainer creek gold properties, are within three-fourths of a mile of rich placer grounds, are nestled among such well-known mines as the Bad Shot, Silver Cup. Wagner and Bannock Burn groups.

The Old Gold properties now consist of eight claims, (comprizing about 400 acres of mineral lands) six of which are on the North Fork of the Salmon river, one of the most promising gold producing districts in British Columbia. The last assays taken from the quartz ledges on this group give the satisfactory results of over \$20 per ton.

NOTE THE FOLLOWING FACTS: 1. A large area of rich mineral lands, 2. Low capitalization. 3. Shipping ore from the surface. 4. Water and timber in abundance. 5. No salaries to any officer until the property becomes Dividend paying. 6. A careful, Economical and honest management. 7. The company is out of debt, has a large fund both in treasury and unsold treasury stock, and is working its properties.

The above are some of the reasons why an investment in the shares of the Old Gold Quartz & Placer Mining company at present prices is the most profitable that can be made in British Columbia. Only a limited number of shares will be placed on the market at 10 cents. An advance in price will soon be made.
