The Bismark Group is a Promising Property.

BLOCKBERGER'S TRIP

everything on the eve of great events. wealth. Arizona and New Mexico Above the Brunswick mines, adjoining Mr. Blochberger's Kingston group, in which Ross Thompson, K. K. Peiser and S. Thornton Langley own an interest, J. Tweedie has struck a rich free milling quartz uvein, with an average assay of \$439 in gold values per ton. Prof. Bloch-berger showed The Miner representative

lead, on which are located the famous Beatrice and Mohawk and Fresno mines, the properties of the youthful pioneers, Reamy and Downing, runs through the Kingston group and adjoining Fish river properties, and makes them, with the surface assays of over \$50, properties of great promise. The new gold bearing cross lead no doubt will naturally enhance the Brunswick, Kingston and adjoining properties still more, and they are only a mile and a nalf from Cory Menhenick's hotel and stores in the town of Canbourne, the government wagon road or the surveyed C. P. R. line re-

spectively. On Pool creek, Prof. Blochberger owns the famous Bismarck group. The lead here is about 18 feet wide, giving large silver and copper values. Surface assays give 54 ozs. silver and nearly 12 per cent copper, or \$78.66 per ton in all values, as samples and assay certificates in The

Miner window will show.

Prospectors and capitalists are now coming into the Lardeau district, but as the district, with its grassroot propositions is really a poor man's country, the prospectors are so far in the majority. Mr. Starke, a hard working propector, struck, a few days ago, Mr. Blochberger was informed, a solid galena vein of three feet of clean ore on upper Lexington mountain. Mr. Girard, the liveliness of a mountain boy, is open-ing his promising Mountain Boy claim. Mr. Joe Best, a sturdy prospector of many years' experience, is developing his Silver Dollar, Iron Dollar, etc., all of which are extensions of the Beatrice mine, into properties of great promise and value, while John A. Darragh, Lemon Howe and Kennedy are doing the very same thing with their properties, Alfa, Delta, and other Greek names, situate near Mohawk creek on Beatrice or Sil-

Prof. Blochberger further stated that eveything is looking well on account of the great efforts of the railroad people to give the Lardeau and Trout Lake trict in the near future railway connection with Revelstoke on the C. P. R. main line and the Crow's Nest line on Kootenay lake. Men of science and reputation, like Mr. Cuthbert Welch, of the

The railroad contracts are let, and from the look of thnigs it should not take than a year or so and one of the richest countries in the whole of Pritish Columbia will surprise the world by the immense output of high grade copper, silver and lead ores, and judging from the new gold strike, even gold ores.

PRECIOUS METAL MINING.

A little over \$4,000,000,000 constitute the gold money of the world. Of course, it is not assumed that is the extent of the volume of gold which has been extracted from the earth. A great deal has been consumed in the arts, much has been lost by abrasion and no little rests in the bottom of the sea, carried down by wreck ed vessels. But it is estimated the gold in circulation does not vary much from the amount stated. The amount of coined silver and in bars is not far from that of gold. This, also, does not represent the rull amount of the metal mined. The mechanical arts have absorbed large quantities of it much of it has beenturned into

dining-room services, no inconsiderable amount of it has been lost by wear, and otherwise lost to the world.

Silver, where it is recognized by law as money, occupies a subsidiary office, being dealt out in the smaller coins, the dollar being tabooed at the mints. Hence, owing to its being relegated to an inferior position, investing capital leaves it severely alone to struggle along the best it history of this section. Six thousand verely alone to struggle along the best it history of this section. Six thousand reduction of other metals, copper, lead Idaho, have resolved through their Minand others, but not a few properties are ers' Union not to accept the wages of being worked for the silver alone they fered by the British American corpora-contain.

Gold, however, is the royal metal, reign Star mine and other big mines, and ing unlimited and alone since its erstwhile Gooderham and Blackstock, owners of the royal consort was divorced from it by legislative enactments. And gold, now virtually standing alone in the list of Last winter the British Columbia p precious metals, is the one most sought after by the seekers after precious metal mining propositions. This love for gold seems to have eliminated the sense of fear from the mind of miners. Neither heat nor cold will deter them from entering the tropics or the Arctic circle to search for it. Wherever a "color" can be found there the rocker or the sluice of the prospector may be seen disturbing and fretting the virgin soil. Where rock in place carries the yellow metal the mill of the capitalist will soon awaken the precious metals, is the one most sought liament passed a law prohibiting of the capitalist will soon awaken the choes in the surrounding hills. The obtained.

brawn and muscle and capital engaged at RICH LARDEAU brawn and muscle and captured its mines. Precious metal mining may receive an impetus in some of the islands ceive an impetus in some of the American in Oceanica when the irrespressible American can find a safe foothold upon them. But little can be learned about the output of the Siberian mines or those in South America. But it is in the United States and British Columbia where precious metal mining is being more extensively carried on. Mining for gold in the western and northwestern states is still being pursued with the same activity, if not with the same result, which charact Section—Some Recent Gold Discoveries—
The Railway People are Pushing the Construction of Roads.

New placers or new gold bearing quartz ledges are being discovered, opened and prospected nearly every month in the year. Idaho, Washington and Oregon each in a struction of Roads. its turn, surprise the world with new dis-coveries. Montana, Utah and Colorado Prof. F. R. Blochberger returned Saturday after a very successful trip from be found. South Dakota points to the the Lardeau country, where he found Black Hills as evidence of her golden premiums for gold exhibits. California and Nevada, the old stand-bys, take no little pride in their output of gold, though a half century has passed since on its farthest western course, with her and killed. wand of gold.

But it is to Alaska, the land of frost \$439 in gold values per ton. Prof. Blochberger showed The Miner representative and his numerous friends in the city a fine quartz specimen, with large specks of free gold visible to the naked eye. The vein, Prof. Blochberger, was informed, is over 10 feet wide so far, the foot wall not being found when he left. This certainly ought to be good news for This certainly ought to be good news for the Lardeau and icebergs, the mining world is looking to the United States.

But it is to Alaska, the land of frost and icebergs, the mining world is looking for that increase in the stock of gold which will force it above the figures which have so long measured its volume. That country may not meet the expectations of the over sanguine, but that it will give substantial account of itself none care to dispute. The coming century may, at its close, witness the presence of mining all the mules possible, paying as high reperyone holding property in the Lardeau listrict.

The Great Northern, or Silver Cup ead, on which are located the famous Beatrice and Mohawk and Fresno mines, the properties of the youthful pioneers.

The Great Northern, or Silver Cup ers in the now inhospitable region, but, if gold in paying quantities be found there, as a rule, and not an exception, the inventive genius of man will devise the properties of the youthful pioneers. means by which it will be brought to light without the attending discomforts which now handicap mining in those hyperborean regions.—Western Mining

BURNS AND LEWIS SENT TO NEL SON FOR THEIR SINS.

Eighteen and Twelve Months With Hard panions Escape With a Month Apiece.

If Thomas Burns had known as much about Rossland ways two weeks ago, as he has since learned, he would certainly have given this city a wide berth. Thomas is the imitation desperado who, on August 8, held up the bartenders in Steve Garnham's circus day canteen, realized some \$6 and put the boundary line between himself and the scene of his exploit. Chief Ingram went down to Northport a day or two after and returned with the redoubtable Thomas, who made an effort to hypnotize the mayor and Magistrate Kirkup into belief in an alibi that did not stick to gether. He was committed for trial, and Monday appeared before Judge Spinks, Emerson and Luke, the bartenders who were robbed, had no hesitation in ideutifying Burns, and after hearing the evidence against the prisoner's companions, which served to strengthen the case against Burns, he was sentenced to 18 months imprisonment at Nelson, with

hard labor. The charges against Frank Lewis, A. J. Kelly and R. Peck were taken up after lunch. These men were charged with malicious destruction of property.
Lewis sought to prove that he had gone
to the beer tent simply to see Garnham, the proprietor, to try to arrange a part-nership with him; that he had not sought to intimidate the bartenders, and had not done any injury to the tent or its conple properties of merit and bring them of Garnham, had, while drinking with on the market to the benefit of labor and a crowd in an uptown saloon, offered \$25 a crowd in an uptown saloon, offered \$25 to have Garnham's tent torn down; that he and two or three of the same crowd met in the tent several hours later; that

knives and a revolver were displayed, several shots fired, and a good deal of liquor drunk and spilled. It was while this was going on that Burns robbed the Alter hearing the arguments of A. H MacNeill, Q. C. for the prosecution, and W. J. Nelson for the defence, the judge imposed a sentence of one year with hard labor on Lewis. Kelly and Peck, who appeared simply as drunken tools of

the principals, were given sentences of one onth. The sentences date from August 9th. The four prisoners will be sent to

Nelson tomorrow. A LYNG CORRESPONDENT.

RUPTURE New method, sure cure,

"Doctor Reeves' treatment helped me from the first. My sense of taste and smell has returned. I have no headache, and my kidney trouble is cured." LIVER

"I had liver trouble. Every two weeks I would have a spell of vomiting that would confine me to my bed for three or four davs at a time. I was nervous, easily discouraged, gloomy and irritable. I went to Doctor Reeves August 15th last. have not had a sick headache or a vomiting spell since that time."

ASTHMA "Dr. Reeves' treatment was a revela-

tion to me. Each inhalation of the life-giving medicine brought comfort and ease. Now I am able to sleep in bed like a Christian, a sweet, refreshing sleep, like that of an infant. I work all day in the will mill and experience no discomfort. With will the exception of a slight cough, I AM A

"He Cured Me of Deafness'

"My deafness came on about six years ago with bad ringing noises in the head, which troubled me greatly in conversation. I had to ask people to raise their voices when speaking to me, and around the table I could only hear the sound of voices, but could not catch a word. My hear in a roughly improved made the voices, but could not catch a word. My hearing rapidly improved under Dr. Reeves' treatment. I now hear well, and the ringing noises have entirely stopped."

"He Saved My Eyes"

"My eyes were so bad I had to stop reading entirely. The dizziness, the blurring and pain around the eyes made me fear total blindess. Dr. Reeves mastery over diseases of the eyes is certainly wonderful. I can now see well, and best of all, can read with comfort. I was cured in a short time, while other doctors tampered with my eyes for the past six years."

"He Cured My Stomach"

Before I consulted Doctor Reeves my stomach was very bad. The severe pains, belching, bloating and sour risings was awful. I lost 40 pounds in less than a year. I thank God it was my fortune to go to this great doctor, who cured ma"

Out-of-Town People People afflicted with any disease what-oever should write to Doctor Reeves.

'He Cured My

Consumption" "Doctor Reeves cured me of consumption after two doctors had given me up to die. His Discovery is certainly an absolute cure for consumption if taken in time. If you have consumption go to Dr. Reeves for he is the only doctor I have ever heard of that could really cure consumption."

Heart Disease"

"I had heart trouble for 16 years, and "I had heart trouble for it years, and would often drop senseless on the streets and for two years was so bad I could not be left home alone. And would faint as often as two or three times a day. My circulation was poor and sluggish and I had palpitation of the heart. After taking Doctor Reeves' treatment for one month I had but one spell. And now I heartily indorse his Wonderful New System of treatment."

He Cured Me of Catarrh

"I had catarrh for a long time. It affected my head and throat and there were growths in my nose. Doctor Reeves' New Treatment is just splendid. I never tried anything that did me so much good. I am recommending it to all my friends."

The Character of Dr. Reeves'

practice, the range of cures he has performed in the various diseases of the HEAD, THROAT, EARS, THE LIVER, THE NERVES, THE KIDNEYS, THE EYES, THE LUNGS, THE STOMACH, have more than words can tell proved that he possesses the quality of medical learning that is essential to diagnose and properly treat all those diseases which attack the human frame.

Nor is it wonderful that Doctor Reeves possesses these qualities when his education and medical learning are taken into consideration. A graduate of the best medical college. Has had 20 years practice on the coast. His cures are many and wenderful.
